AGENCY: Defense Health Agency (DHA), Department of Defense (DoD).

ACTION: Notice of a modified system of records.

SUMMARY: In accordance with the Privacy Act of 1974, the DoD is modifying and reissuing a current

system of records notice (SORN) titled, "Department of Defense Suicide Event Report (DoDSER) System, EDHA 20 DoD." This system of records was originally established to collect and maintain records on Reportable Events involving Active Duty and Reserve personnel to support ongoing population-based health surveillance and activities within DoD, analyze and evaluate Reportable Events to identify risk factors and trends; prevent suicide behaviors, and implement Reportable Events within the DoD. This notice updates the system identifier, system's location, expands reporting to the Space Force and Coast Guard, clarifies its purpose, and revises the routine uses. The DoD is also modifying various other sections within the SORN to improve clarity or update information that has changed.

DATES: This system of records is effective upon publication; however, comments on the Routine Uses will be accepted on or before August 3, 2026. The Routine Uses are effective at the close of the comment period, unless comments have been received from interested members of the public that require modification and republication of the notice.

ADDRESSES: You may submit comments, identified by docket number and title, by either of the following methods:

* *Federal Rulemaking Portal:* <https://www.regulations.gov>. Follow the instructions for submitting comments.

* *Mail:* Department of Defense, Office of the Director of Administration and Management, Oversight and Compliance Directorate, Regulatory Division, 4800 Mark Center Drive, Attn: Mailbox #24, Suite 05F16, Alexandria, VA 22350-1700.

SUPPLEMENTARY INFORMATION:

I. Background

The DoDSER is the official reporting system for deaths by suicide and suicide attempts among Service members in the U.S. Air Force, Army, Marine Corps, Navy, Space Force, and the Coast Guard. The system collects and integrates data on Reportable Events to enhance public health surveillance and support prevention efforts across the DoD. Through systematic data collection, analysis, and reporting, the system informs best practices, education, training, and policy development to reduce suicidal behaviors and Reportable Events among military personnel. Subject to public comment, the DoD proposes to update this SORN to add the standard DoD routine uses (routine uses A through J), and to change an existing routine use (Routine use K) disclosure outside DoD related to the purpose of this system of records. The following sections of this SORN are also being modified: (1) the Authority for Maintenance of the System section to update citation(s) and add additional authorities; (2) the Categories of Individuals Covered by the System section to expand the individuals covered and Categories of Records to clarify how the records relate to the revised Category of Individuals; (3) the Administrative, Technical, and Physical Safeguards to update the individual safeguards protecting the personal information; (4) the Retention and Disposal section to reflect the approved disposition; (5) the Record Access Procedures section to reflect the need for individuals to identify the DoD office or component to which their request should be directed; (6) the Contesting Records Procedures section to update the appropriate citation for contesting records; and (7) the System Manager and System Location sections to update the addresses and office names.

DoD SORNs have been published in the **Federal Register** and are available from the address in **FOR FURTHER INFORMATION CONTACT** or at the Oversight and Compliance Directorate, Privacy and Civil Liberties Division website at <https://pclt.defense.gov/DIRECTORATES/Privacy-and-Civil-Liberties-Directorate/Privacy/SORNS/>.
