Commission staff have annually approved the licensee's requests to extend the venting through October 31 to prolong the benefits of venting at the request of South Carolina Department of Natural Resources and South Carolina Department of Health and Environmental Control. The licensee requests to permanently extend the venting window to avoid recurring annual temporary variance requests of the requirement.

Article 401(b) of the project license requires the licensee to obtain Commission approval for extensions of the current venting window that exceed 30 days (*i.e.*, extensions beyond September 30). The licensee requests Article 401(b) be amended so that it is consistent with the turbine venting window described above in the amended Plan.
