All comments received will be available in the docket for examination by interested persons.

Background

The FAA is posting this notice to inform the public that the FAA intends to designate as abandoned and subsequently release the related engineering data for the following Javelin Conversions, Inc. STC Nos.: SA2082WE, SA2093CE, SA2122WE, SA2242SW, SA2568NM, SA2570NM, SA2680SW, SA341NE, SA404NE, SA441NE, and SE2569NM.

Descriptions of the STC design changes and affected aircraft models are available at <https://drs.faa.gov/browse/STC/doctypeDetails>.

The FAA has received a third-party request for the release of the aforementioned engineering data under the provisions of the Freedom of Information Act (FOIA), 5 U.S.C. 552. The FAA cannot release commercial or financial information under FOIA without the permission of the data owner. However, in accordance with title 49 of the United States Code § 44704(a)(5), the FAA can provide STC "engineering data" it possesses for STC maintenance or improvement, upon request, if the following conditions are met:

1. The FAA determines the STC has been inactive for 3 years or more;
2. Using due diligence, the FAA is unable to locate the owner of record or the owner of record's heir; and
3. The availability of such data will enhance aviation safety.

There has been no activity on this STC for more than 3 years.

On February 27, 2026, the FAA sent a registered letter to Javelin Conversions, Inc., to its last known address: 8421 Nelms Street, Houston, TX 77061 and Eight Greenway Plaza, Ste 930 Houston, TX 77046. The letter informed Javelin Conversions, Inc., that the FAA had received a request for engineering data related to STC No. SA2568NM, SE2569NM, SA2570NM, SA341NE, and SA441NE and was conducting a due diligence search to determine whether these STCs and 6 other STCs were inactive and may be considered abandoned. The letter

further requested that the company respond in writing within 60 days and state whether it is the holder of these 11 STCs. The FAA has also attempted to make contact with Javelin Conversions, Inc., by other means, including telephone communication and emails, but without success.

Information Requested

If you are the owner or heir or a transferee of all 11 STCs or have any knowledge regarding who may now hold any of these STCs, please contact Aourolia Kristianti using a method described in this notice under **FOR FURTHER INFORMATION CONTACT**. If you are the heir of the owner, or the owner by transfer of any of these STCs, you must provide a notarized copy of your government-issued identification with a letter and background establishing your ownership of any of the STCs and, if applicable, your relationship as the heir to the deceased holder of the STCs.

Conclusion

If the FAA does not receive any response by January 4, 2027, the FAA will consider all 11 STCs as abandoned, and the FAA will proceed with the release of the requested data. This action is for the purpose of maintaining the airworthiness of an aircraft and enhancing aviation safety.
