on glycine from India.[1] In that notice, Commerce incorrectly listed ''Paras Intermediaries Private Limited'' as one of the company names in the rate table when it should have listed ''Paras Intermediates Private Limited.''

Correction

In the **Federal Register** of June 12, 2026, in FR Doc 2026–11863, on page 35661, in the third column, correct the exporter/producer name found in the rate table to ''Paras Intermediates Private Limited.''

Notification to Interested Parties

This notice is issued and published in accordance with sections 751(a)(1), 751(a)(2)(B), and 777(i)(1) of the Tariff Act of 1930, as amended, and 19 CFR 351.221(b)(5).

Dated: July 1, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

UChicago Argonne LLC et. al; Application(s) for Duty-Free Entry of Scientific Instruments

Pursuant to Section 6(c) of the Educational, Scientific and Cultural Materials Importation Act of 1966 (Pub. L. 89–651, as amended by Pub. L. 106–36; 80 Stat. 897; 15 CFR part 301), we invite comments on the question of whether instruments of equivalent scientific value, for the purposes for which the instruments shown below are intended to be used, are being manufactured in the United States.

Comments must comply with 15 CFR 301.5(a)(3) and (4) of the regulations and be postmarked on or before July 28, 2026. Address written comments to Statutory Import Programs Staff, Room 40005, U.S. Department of Commerce, Washington, DC 20230. Please also email a copy of those comments to *Sun.Cho@trade.gov.*

Docket Number: 26–034. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, Illinois 60439. Instrument: Taylor Reactor. Manufacturer: Laminar Co. Ltd., Republic of Korea. Intended Use: The instrument is intended to obtain the precursors (pCAM) of lithium-ion and sodium-ion battery cathode materials. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 24, 2025.

Docket Number: 26–042. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: LS Spectrometer. Manufacturer: LS Spectrometer, Switzerland. Intended Use: The instrument is intended to be used to study battery electrolyte solutions, liquid crystals, and non-equilibrium ion transport. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: August 7, 2025.

Docket Number: 26–047. Applicant: Lawrence Berkeley National Laboratory, One Cyclotron Road, Berkeley, CA 94720. Instrument: JIB–4700F Multi-Beam System. Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument is intended to study macromolecular organization within a cell. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 17, 2025.

Docket Number: 26–052. Applicant: Iowa State University, Ames National Laboratory, 2408 Pammel Drive, Ames, IA 50011. Instrument: Gyrotron and DNP Probe. Manufacturer: Bruker AG, Switzerland. Intended Use: The instrument is intended to be used to upgrade an existing nuclear magnetic resonance (NMR) spectrometer into a dynamic nuclear polarization NMR spectrometer. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26–057. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, IL 60439. Instrument: Cryoprobe. Manufacturer: Bruker Biospin Corporation, Switzerland. Intended Use: The instrument is intended to advance the sensitivity of the spectroscopy and to study diamagnetic or paramagnetic materials appropriate for nuclear magnetic resonance spectroscopy. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: October 2, 2025.

Docket Number: 26–072. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, IL 60439. Instrument: Laser Rack System. Manufacturer: Toptica Photonics, Germany. Intended Use: The instrument is intended to be used to study the residence time or age of groundwater via isotopic analysis of gas extracted from the water. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: July 28, 2025.

Docket Number: 26–077. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, IL 60439. Instrument: High Energy Small Pixel Detector. Manufacturer: PI-Tecnologia Ltda, Brazil. Intended Use: The instrument is intended to be used to study high-energy X-ray interactions with various materials and phenomena including advanced materials and nanostructures, biological and soft matter systems. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 12, 2025.

Docket Number: 26–078. Applicant: Lawrence Berkeley National Laboratory, 1 Cyclotron Road, Berkeley, CA 94720. Instrument: JEM–3300 CRYO Arm (Electron Miscroscope usable at cryogenic conditions). Manufacturer: JEOL Ltd., Japan. Intended Use: The instrument is intended to be used to study the structure of biological samples and material systems at high-resolutions down to the atomic scale. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general category manufactured in the United States. Application accepted by Commissioner of Customs: September 18, 2025.

Docket Number: 26–084. Applicant: UChicago Argonne LLC, 9700 South Cass Avenue, Lemont, IL 60439. Instrument: Control Platform and Accessories. Manufacturer: Imperix Ltd., Switzerland. Intended Use: The instrument is intended to be used to assemble a microgrid power hardware in the loop simulation to enhance reliability and resilience of the electric power grid. Justification for Duty-Free Entry: According to the applicant, there are no instruments of the same general

N-Cyclohexylbenzothiazole-2-Sulfenamide From the People's Republic of China: Postponement of Preliminary Determination in the Countervailing Duty Investigation

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

DATES: Applicable July 8, 2026.

FOR FURTHER INFORMATION CONTACT: Kristen Johnson, AD/CVD Operations, Office III, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482–4793.

SUPPLEMENTARY INFORMATION:

Background

On May 27, 2026, the U.S. Department of Commerce (Commerce) initiated a countervailing duty (CVD) investigation of imports of n-cyclohexylbenzothiazole-2-sulfenamide from the People's Republic of China.[1] Currently, the preliminary determination in this CVD investigation is due no later than July 31, 2026.

Postponement of Preliminary Determination

Section 703(b)(1) of the Tariff Act of 1930, as amended (the Act), requires Commerce to issue the preliminary determination in a CVD investigation within 65 days after the date on which Commerce initiated the investigation. However, section 703(c)(1) of the Act permits Commerce to postpone the preliminary determination until no later than 130 days after the date on which Commerce initiated the investigation if: (A) the petitioner makes a timely request for a postponement; or (B) Commerce concludes that the parties concerned are cooperating, that the investigation is extraordinarily complicated, and that additional time is necessary to make a preliminary determination. Under 19 CFR 351.205(e), the petitioner must submit a request for postponement 25 days or more before the scheduled date of the preliminary determination and must state the reasons for the request. Commerce will grant the request unless it finds compelling reasons to deny the request.

On June 30, 2026, the petitioner[2] submitted a timely request that Commerce postpone the preliminary determination in this CVD investigation.[3] The petitioner requests postponement to ensure that Commerce has sufficient time to issue supplemental questionnaires and to evaluate all relevant subsidy programs before reaching a preliminary determination.[4] In accordance with 19 CFR 351.205(e), the petitioner has stated the reasons for requesting a postponement of the preliminary determination, and Commerce finds no compelling reason to deny the request. Therefore, in accordance with section 703(c)(1)(A) of the Act, Commerce is postponing the deadline for the preliminary determination to no later than 130 days after the date on which this investigation was initiated, *i.e.,* October 5, 2026.[5] Pursuant to section 705(a)(1) of the Act and 19 CFR 351.210(b)(1), the deadline for the final determination of this investigation will continue to be 75 days after the date of the preliminary determination.

Notification to Interested Parties

This notice is issued and published pursuant to section 703(c)(2) of the Act and 19 CFR 351.205(f)(1).

Dated: July 1, 2026.

Christopher Abbott,

Deputy Assistant Secretary for Policy and Negotiations, performing the non-exclusive functions and duties of the Assistant Secretary for Enforcement and Compliance.

[2] The petitioner is LANXESS Corporation.

[3] *See* Petitioner's Letter, ''Request to Fully Extend the Preliminary Determination,'' dated June 30, 2026.

[4] *Id.* at 2.

[5] Postponing the preliminary determination to 130 days after initiation would place the deadline on Sunday, October 4, 2026. Commerce's practice dictates that where a deadline falls on a weekend or Federal holiday, the appropriate deadline is the next business day. *See Notice of Clarification: Application of ''Next Business Day'' Rule for Administrative Determination Deadlines Pursuant to the Tariff Act of 1930, As Amended,* 70 FR 24533 (May 10, 2005).

Polyethylene Terephthalate Film, Sheet, and Strip From India: Final Results of Antidumping Duty Administrative Review; 2023–2024

AGENCY: Enforcement and Compliance, International Trade Administration, Department of Commerce.

SUMMARY: The U.S. Department of Commerce (Commerce) determines that Cosmo First Limited (Cosmo), the sole mandatory respondent in this administrative review, made sales of polyethylene terephthalate film, sheet, and strip (PET film) from India at less than normal value during the period of review July 1, 2023, through June 30, 2024. Based on the application of total adverse facts available (AFA), Commerce is assigning Cosmo a weighted-average dumping margin of 24.14 percent.

DATES: Applicable July 8, 2026.

FOR FURTHER INFORMATION CONTACT: Jacob Saude, AD/CVD Operations, Office VII, Enforcement and Compliance, International Trade Administration, U.S. Department of Commerce, 1401 Constitution Avenue NW, Washington, DC 20230; telephone: (202) 482- 0981.

SUPPLEMENTARY INFORMATION:

Background

On January 5, 2026, Commerce published the *Preliminary Results* of this administrative review.[1] On April 24, 2026, Commerce extended the deadline for issuing the final results in this proceeding by 53 days.[2] Accordingly, the final results of this review are now due on July 1, 2026. For a complete description of the events that followed the *Preliminary Results, see* the Issues and Decision Memorandum.[3] Commerce conducted this review in
