Proposal Under OMB Delegated Authority To Extend for Three Years, With Revision, the Following Information Collections

Collection title: Applications for Employment with the Board of Governors of the Federal Reserve System.

Collection identifier: FR 28.

OMB control number: 7100–0181.

General description of collection: The FR 28 consists of the following information collections:

The Application for Employment (FR 28a), which collects information to determine the qualifications of applicants for employment with the Board (such as education and training, employment records, and other general background information since the time the applicant left high school), the Applicant's Voluntary Self-Identification (FR 28s), which is an optional form that collects information on the applicant's sex, race, and ethnicity, the Research Assistant Application (FR 28i), which collects contact information, information on a Research Assistant (RA) applicant's level of interest in various economic topics and experience in different data analytics/programs, and application documentation (including resume, cover letter, transcripts, and letter(s) of recommendation), the Pre-Hire Conflict of Interest Screening Form (FR 28c), which collects information from external applicants after they have been selected for an interview at the Board regarding certain financial interests that could pose a conflict of interest based on the Board's supplemental ethics regulations and/or the duties of the position for which they are applying, and the Reference Check Form (FR 28r), which captures information from professional references when the Board conducts reference checks for external applicants who have received a verbal offer of employment.

Proposed revisions: The Board proposes to revise the FR 28 by changing the collection platform of the FR 28a and FR 28s from Taleo to Workday, which will allow for three new submission methods in the Workday system (applying through LinkedIn, applying with resume parsing, and applying with previous application); the FR 28c, which is currently sent out via email, will also transition into Workday. The platform change will result in several data field changes for the FR 28a to 1) align with the configuration of Workday as the Board's new applicant tracking system (ATS) and 2) remove fields that are no longer necessary. These changes would

be effective 30 days after the publication of the final **Federal Register** notice. By Fall 2028, the FR 28i will also be transitioned from ServiceNow to Workday. Before the transition of the FR 28i into Workday, one additional data field will be added in order to link applicants between ServiceNow and Workday; once the FR 28i is also in Workday, the data field will be removed. There are no proposed changes to the FR 28r as part of this clearance.

Frequency: Event-generated.

Respondents: Individuals seeking employment with the Board.

Total estimated number of respondents: FR 28a (LinkedIn), 14,076; FR 28a (Resume Parsing), 18,098; FR 28a (Manual Application), 4,021; FR 28a (Use Last Application), 4,021; FR 28a (Interview Selection), 1,129; FR 28a (PDF), 238; FR 28s, 40,216; FR 28i, 800; FR 28c, 1,547; and FR 28r, 273.
