SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105854; File No. SR–Phlx–2026–42]

Self-Regulatory Organizations; Nasdaq PHLX LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change To Amend PIXL

July 7, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934 (''Act''),[1] and Rule 19b–4 thereunder,[2] notice is hereby given that on June 30, 2026, Nasdaq PHLX LLC (''Phlx'' or ''Exchange'') filed with the Securities and Exchange Commission (''SEC'' or ''Commission'') the proposed rule change as described in Items I and II, below, which Items have been prepared by the Exchange. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Self-Regulatory Organization's Statement of the Terms of Substance of the Proposed Rule Change

The Exchange proposes to amend its Price Improvement XL (''PIXL'') functionality.

The text of the proposed rule change is available on the Exchange's website at *https://listingcenter.nasdaq.com/rulebook/phlx/rulefilings,* and at the principal office of the Exchange.

II. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, the Exchange included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. The Exchange has prepared summaries, set forth in sections A, B, and C below, of the most significant aspects of such statements.

A. Self-Regulatory Organization's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

1. Purpose

The Exchange proposes to amend rule text in Options 3, Section 13, related to PIXL functionality. Specifically, the Exchange proposes to amend the information displayed in a PIXL Auction Notification (''PAN'').

Currently, the PAN details the price, side, size, and options series of the PIXL Order through the Exchange's Phlx Orders data feed pursuant to Options 3, Section 23(a)(1) and the Exchange's Specialized Quote Feed pursuant to Options 3, Section 7(a)(i)(B). The Exchange amended the PAN detail to include price at Options 3, Section 13(b)(1)(C) in 2025 as part of a technology migration.[3]

At this time, the Exchange proposes to amend Options 3, Section 13(b)(1)(C) to remove the price detail so that the PAN would only disseminate side, size, and options series. The Exchange added ''price'' to the list of PAN details in 2025 to provide members with greater transparency and to encourage more competition in PIXL resulting in a greater opportunity for potential price improvement in PIXL. After a review of the PIXL executions since the addition of the price detail in a PAN, the Exchange believes that the addition of price resulted in less price improvement. The Exchange believes that the addition of the price detail weakened the incentive of responders to offer meaningful price improvement. Once the PAN broadcasts the PIXL Order's price, the Exchange believes that responders simply matched at a de minimis increment to obtain execution priority, thereby depriving the auction of true price discovery. The PAN broadcast eliminated uncertainty regarding the level at which the PIXL Order is prepared to stop or auto-match the Initiating Order. The Exchange believes that the prior change had a negative effect which discouraged responders from providing price improvement on the PIXL Orders. By way of example, in October 2025, prior to the adoption of SR–Phlx–2025–35, 23% of PIXL Auctions executed at a price that improved the Initiating Order. In April 2026, after the implementation of SR–Phlx–2025–35, only 11% of PIXL Auctions executed at a price that improved the Initiating Order.

At this time, the Exchange proposes to remove the ''price'' detail from the PAN to encourage responders to submit more aggressive pricing resulting in greater price improvement. The Exchange notes that the Cboe Exchange, Inc. (''Cboe'') also does not include price.[4]

[4] Cboe's Automated Improvement Mechanism (''AIM'') does not broadcast price pursuant to Rule 5.37(c)(2); it broadcasts the side, size, Auction ID and options series of the Agency Order.
