SECURITIES AND EXCHANGE COMMISSION

[OMB Control No. 3235–0621]

Agency Information Collection Activities; Proposed Collection; Comment Request; Extension: Form 15F

Upon Written Request, Copies Available From: Securities and Exchange Commission, Office of FOIA Services, 100 F Street NE, Washington, DC 20549–2736

Notice is hereby given that, pursuant to the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*), the Securities and Exchange Commission (''Commission'') is soliciting comments on the collection of information summarized below. The Commission plans to submit this existing collection of information to the Office of Management and Budget for extension and approval.

Form 15F (17 CFR 249.324) is filed by a foreign private issuer when terminating or suspending its Securities and Exchange Act of 1934 (''Exchange Act'') reporting obligations. Form 15F requires a foreign private issuer to disclose information that helps investors understand the foreign private issuer's decision to terminate or suspend its Exchange Act reporting obligations and assists the Commission staff in determining whether the issuer is eligible to terminate or suspend its Exchange Act reporting obligations. The information required by Form 15F is mandatory, and Form 15F is publicly available on the Commission's Electronic Data Gathering, Analysis, and Retrieval (''EDGAR'') system. We estimate that Form 15F takes approximately 30 hours to prepare and is filed once per year by approximately 23 foreign private issuers, for a total of approximately 23 responses annually. We estimate that 25% of the 30 hours per response (7.5 hours per response) is carried internally by the issuer for a total annual reporting burden of 173 hours (7.5 hours per response × 23 responses). We estimate that 75% of the 30 hours per response (22.5 hours per response) is carried externally by outside professionals retained by the issuer at an estimated rate of $600 per hour for a total annual cost burden of $310,500 ($600 per hour × 22.5 hours per response × 23 responses annually).

An agency may not conduct or sponsor, and a person is not required to respond to, a collection of information unless it displays a currently valid OMB control number.

Written comments are invited on: (a) whether this proposed collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; (b) the accuracy of the agency's estimate of the burden imposed by the collection of information, including the validity of the methodology and the assumptions used; (c) ways to enhance the quality, utility, and clarity of the information collected; and (d) ways to minimize the burden of the collection of information on respondents, including through the use of automated collection techniques or other forms of information technology.

Please direct your written comments on this 60-Day Collection Notice to Austin Gerig, Director/Chief Data Officer, Securities and Exchange Commission, c/o Tanya Ruttenberg via email to *PaperworkReductionAct@sec.gov* by September 11, 2026.

Dated: July 8, 2026.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 34–105858; File No. SR–ICC–2026–007]

Self-Regulatory Organizations; ICE Clear Credit LLC; Notice of Filing and Immediate Effectiveness of Proposed Rule Change Relating to ICC's Fee Schedule

July 8, 2026.

Pursuant to Section 19(b)(1) of the Securities Exchange Act of 1934,[1] and Rule 19b–4,[2] notice is hereby given that on June 25, 2026, ICE Clear Credit LLC (''ICC'' or ''ICE Clear Credit'') filed with the Securities and Exchange Commission (''Commission'') the proposed rule change as described in Items I, II and III below, which Items have been prepared primarily by ICC. ICC filed the proposed rule change pursuant to Section 19(b)(3)(A) of the Act[3] and paragraph (f)(2) of Rule 19b–4 thereunder,[4] such that the proposed rule change was immediately effective upon filing with the Commission. The Commission is publishing this notice to solicit comments on the proposed rule change from interested persons.

I. Clearing Agency's Statement of the Terms of Substance of the Proposed Rule Change

The principal purpose of the proposed rule change is to modify its Client Volume Incentive Program within its credit default swap (''CDS'') client fee schedule (the ''client fee schedule'') for the CDS Clearing Service. These revisions do not require any changes to the CDS Clearing Participant fee schedule[5] or the ICC CDS Clearing Rules.[6]

II. Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

In its filing with the Commission, ICC included statements concerning the purpose of and basis for the proposed rule change and discussed any comments it received on the proposed rule change. The text of these statements may be examined at the places specified in Item IV below. ICC has prepared summaries, set forth in sections (A), (B), and (C) below, of the most significant aspects of these statements.

(A) Clearing Agency's Statement of the Purpose of, and Statutory Basis for, the Proposed Rule Change

(a) Purpose

ICC proposes to modify its Client Volume Incentive Program within ICC's client fee schedule. ICC maintains a client fee schedule[7] that is publicly available on its website, which ICC proposes to update in connection with the proposed amendments to the Client Volume Incentive Program. Such proposed changes to the Client Volume Incentive Program are set forth in Exhibit 5 and described in detail as follows. ICC proposes to make such changes effective following any applicable regulatory review or approval process.[8]

[8] The proposed rule change is filed for immediate effectiveness but will not be implemented until the

Currently, clearing fees applicable to clients of Clearing Participants are charged in accordance with the product, amount and currency set out in the client fee schedule and subject to any incentive programs or fee discounts described in the client fee schedule. In particular, the Client Volume Incentive Program in the client fee schedule applies automatically to all clients of Clearing Participants, without further action by clients or Clearing Participants, and provides a tiered discount schedule based on client fees billed during the calendar year. Specifically, for any client with annual billed fees across all ICC CDS instrument categories (*i.e.,* index CDS, single name CDS, and index option CDS) that exceed U.S. dollar (''USD'') equivalent of $1 million, such client is entitled to a fee discount as follows: (i) for billed annual fees greater than $1 million USD equivalent and less than or equal to $6.4 million USD equivalent, a progressive discount from 1% to 90%: the discount percentage increases by 1% for each $60,000 in billed client fees; [9] and (ii) for billed annual fees greater than $6.4 million USD equivalent, a 90% discount. The Client Volume Incentive Program applies to client clearing activity only, and Clearing Participants are not eligible to participate in the program.

The proposed changes to the Client Volume Incentive Program are designed to increase the discount level by amending the discount schedule and introducing a 100% discount on billed annual fees greater than $6.94 million USD equivalent. Specifically, for any client with annual billed fees across all ICC CDS instrument categories (*i.e.,* index CDS, single name CDS, and index option CDS) that exceed USD equivalent of $1 million, such client is entitled to a fee discount as follows: (i) for billed annual fees greater than $1 million USD equivalent and less than or equal to $6.94 million USD equivalent, a progressive discount from 1% to 100%: the discount percentage increases by 1% for each $60,000 in billed client fees; and (ii) for billed annual fees greater than $6.94 million USD equivalent, a 100% discount. The Client Volume Incentive Program will continue to apply to client clearing activity only, and Clearing Participants are not eligible to participate in the program.

(b) Statutory Basis

ICC believes that the proposed changes are consistent with the requirements of the Act, including Section 17A of the Act [10] and the regulations thereunder applicable to it. More specifically, the proposed rule change establishes or changes a member due, fee or other charge imposed by ICC under Section 19(b)(3)(A)(ii) of the Act [11] and Rule 19b–4(f)(2) [12] thereunder. ICC believes the proposed rule change is consistent with the requirements of the Act and the rules and regulations thereunder applicable to ICC, in particular, to Section 17A(b)(3)(D),[13] which requires that the rules of the clearing agency provide for the equitable allocation of reasonable dues, fees, and other charges among its participants.

ICC believes that the proposed updated discount levels in the client fee schedule have been set at an appropriate level. In determining the appropriate discount level and program structure, ICC took into account factors such as client clearing volume, related revenue, costs and expenses, and the goal of increasing market participation in the clearing service, including the expected impacts of different fee levels. In ICC's view, its client fees, after taking into account the updated discount under the incentive program, will be reasonable and appropriate for its business as the discounts take into account anticipated volumes, costs and expenses, and revenues under each contract type, and they consider current and past market activity as well as anticipated market activity with respect to clearing CDS contracts at ICC. The Client Volume Incentive Program continues to be designed to encourage the clearing of contracts at ICC by clients while properly compensating ICC for the risks, costs and expenses of clearing CDS contracts.

Moreover, the updated discount will be available to all clients clearing contracts at ICC, based on their clearing activity. The Client Volume Incentive Program under the amended client fee schedule automatically, and without further action by clients or Clearing Participants, applies to all clients. ICC's fee schedules, including the proposed changes to the incentive program, will continue to be transparent and to apply equally to market participants clearing indexes, single names, and index option CDS contracts at ICC. Therefore, the proposed rule change provides for the equitable allocation of reasonable dues, fees and other charges among participants, within the meaning of Section 17A(b)(3)(D) of the Act.[14] ICC therefore believes that the proposed rule change is consistent with the requirements of Section 17A of the Act [15] and the regulations thereunder applicable to it and is appropriately filed pursuant to Section 19(b)(3)(A) of the Act [16] and paragraph (f)(2) of Rule 19b–4 [17] thereunder.

(B) Clearing Agency's Statement on Burden on Competition

ICC does not believe the proposed rule change would have any impact, or impose any burden, on competition not necessary or appropriate in furtherance of the purpose of the Act. As discussed above, the proposed changes to ICC's client fee schedule modify the Client Volume Incentive Program for clearing all categories of CDS contracts at ICC and which continues to be available to all clients based on their clearing activity. The implementation of such changes does not preclude other market participants from offering similar incentive programs. Moreover, ICC does not believe that the amendments would adversely affect the cost of clearing for clients, the ability of market participants to access clearing services, or the market for cleared services generally. Accordingly, ICC does not believe the amendments impose any burden on competition not necessary or appropriate in furtherance of the purpose of the Act.

(C) Clearing Agency's Statement on Comments on the Proposed Rule Change

Written comments relating to the proposed rule change have not been solicited or received. ICC will notify the Commission of any written comments received by ICC.

III. Date of Effectiveness of the Proposed Rule Change

The foregoing rule change has become effective pursuant to Section 19(b)(3)(A) of the Act [18] and paragraph (f) of Rule 19b–4 [19] thereunder. At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of

Federal Aviation Administration

[Docket No. FAA–2026–3321]

Agency Information Collection Activities: Requests for Comments; Clearance of Renewed Approval of Information Collection: Domestic and International Flight Plans

AGENCY: Federal Aviation Administration (FAA), DOT.

ACTION: Notice and request for comments.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, FAA invites public comments about our intention to request the Office of Management and Budget (OMB) approval to renew an information collection. The collection involves extracting flight data such as aircraft, routing speed, etc. from domestic and international flights. FAA Form 7233–1 (Domestic) and FAA Form 7233–4 (International), Flight Plan: Both forms are used to collect Domestic flight plan information and used to govern the flight of aircraft for the protection and identification of aircraft and property and persons on the ground. The information is used by air traffic controllers, search and rescue (SAR) personnel, flight standards inspectors, accident investigators, military, law enforcement, and the Department of Homeland Security.

DATES: Written comments should be submitted by September 11, 2026.

ADDRESSES: Please send written comments:

By Electronic Docket: www.regulations.gov (FAA–2026–3321).

By Mail: Nathan Dekker, AJR–B 3721, Macintosh Dr., Warrenton, VA 20187.

FOR FURTHER INFORMATION CONTACT: Nathan Dekker by email at: *Nathan.G.Dekker@faa.gov,* phone: 202–267–6899.

SUPPLEMENTARY INFORMATION:

Public Comments Invited: You are asked to comment on any aspect of this information collection, including (a) Whether the proposed collection of information is necessary for FAA's performance; (b) the accuracy of the estimated burden; (c) ways for FAA to enhance the quality, utility and clarity of the information collection; and (d) ways that the burden could be minimized without reducing the quality of the collected information. The agency will summarize and/or include your comments in the request for OMB's clearance of this information collection.

OMB Control Number: 2120–0026.

Title: Domestic and International Flight Plans.

Form Numbers: FAA form 7233–1 Domestic Flight Plan, FAA form 7233–4 International Flight Plan.

Type of Review: Renewal of an information collection.

Background: The Federal Aviation Administration (FAA) is authorized and directed by Title 49, United States Code, paragraph 40103(b), to prescribe air traffic rules and regulations governing the flight of aircraft for the protection and identification of aircraft and property and persons on the ground. Title 14, CFR, part 91, subchapter F, prescribes flight rules governing the operation of aircraft within the United States. These rules govern the operation of aircraft (other than moored balloons, kites, unmanned rockets and unmanned free balloons) within the United States and for flights across international borders. Paragraphs 91.153 and 91.169, address flight plan information requirements. Paragraph 91.173 states requirements for when an IFR flight plan must be filed. Internationally, International Standards Rules of the Air, Annex 2 to the Convention on International Civil Aviation paragraph 3.3 establishes parallel requirements for international flight plans. Within the national capital region, the Washington, DC Special Flight Rules Area (SFRA) imposes additional obligations, requiring pilots operating within a certain radius of Washington, DC, including those departing from three general aviation airports in Maryland must file a flight plan regardless of whether they are operating under VFR and IFR.

This collection of information supports the Department of Homeland Security and the Department of Defense in addition to the normal flight plan purposes. The forms outline an aircraft's intended departure location, route, destination and flight duration to air traffic control for flight capabilities, and search and rescue.

Almost 100 percent of flight plans are filed electronically. However, as a courtesy to the aviation public, flight plans may be submitted in paper form. Flight plans may be filed in the following ways:

- Some air carrier and air taxi operations, and certain corporate aviation departments, have been granted authority to electronically file flight plans directly with the FAA. The majority of air carrier and air taxi flights are processed in this manner.
- Air carrier and air taxi operators may submit prestored flight plan information on scheduled flights to Air Route Traffic Control Centers (ARTCC)
