[Docket No. CP25-502-001]

Transcontinental Gas Pipe Line Company, LLC; Notice; Notice of Request of Extension of Time

Take notice that on June 25, 2026, Transcontinental Gas Pipe Line

Company, LLC (Transco) requested that the Commission grant an extension of time, until December 31, 2027, to complete the abandonment of certain offshore platforms, gathering and transmission laterals, and appurtenant facilities (South East Louisiana Area Abandonment Project or Project) located in federal waters offshore Louisiana as authorized in the Order Approving Abandonment (Order).¹ The Order required Transco to complete abandonment of the Project facilities within one year of the date of the Order, or by July 30, 2026.

Currently, Transco has completed the flushing and disconnection of pipeline segments 4757, 4759, 4760, 4761, 5099, 13446, and 15859. Additionally, Transco states pipeline segments 5784 and 5787 have been successfully pigged and isolated. However, Transco requires additional favorable seasonal windows to safely execute the cut at the Eugene Island Block 136 platform, as well as final subsea tube turn removals at the Eugene Island Block 158 platform in order to complete the physical abandonment of these facilities. Thus, Transco requests an extension of time to complete abandonment of the Project facilities until December 31, 2027.

This notice establishes a 15-calendar day intervention and comment period deadline. Any person wishing to comment on Transco's request for an extension of time may do so. No reply comments or answers will be considered. If you wish to obtain legal status by becoming a party to the proceedings for this request, you should, on or before the comment date stated below, file a motion to intervene in accordance with the requirements of the Commission's Rules of Practice and Procedure (18 CFR 385.214 or 385.211) and the Regulations under the Natural Gas Act (NGA) (18 CFR 157.10).

As a matter of practice, the Commission itself generally acts on requests for extensions of time to complete construction for NGA facilities when such requests are contested before order issuance. For those extension requests that are contested,² the Commission will aim to issue an order acting on the request within 45 days.³ The Commission will address all arguments relating to whether the applicant has demonstrated there is
