

Type of Review: A revision of a currently approved ICR.

Respondents/Affected Public: Individuals and Households.

Total Estimated Number of Annual Responses: 913,713.

Total Estimated Number of Annual Burden Hours: 456,857.

Abstract: The Department of Education (Department) is requesting emergency processing for a revision to an existing information collection. The Department provides this form, 1845–0110 Public Service Loan Forgiveness (PSLF) & Temporary Expanded PSLF (TEPSLF) Certification & Application form, which is used by student loan borrowers to apply for Public Service Loan Forgiveness (PSLF). Borrowers complete this form to have their qualifying employment certified and their progress toward forgiveness recorded in our system. They are encouraged to submit this form annually but are only required to submit it at the point that they have reached the requisite 120 qualifying months of repayment.

On March 7, 2025, President Trump signed an executive order titled Restoring Public Service Loan Forgiveness (E.O. 14325) making individuals employed by organizations whose activities have a substantial illegal purpose ineligible for PSLF.

The Department held public hearings on April 29 and May 1, 2025, and engaged in the negotiated rulemaking process by convening a committee of higher education stakeholders and experts in July of 2025. On August 18, 2026, the Department published a Notice of Proposed Rulemaking (FR 90 FR 40154) and collected public comments on the proposed regulations until September 17, 2025.

As explained in the Final Regulations published on October 31, 2025 (90 FR 48966), 34 CFR 685.219(i) required an update to the approved Public Service Loan Forgiveness Certification and Application, OMB #1845–0110. To comply with E.O. 14325, a revision to the form was made to include the addition of an attestation statement, under penalty of perjury, that the employer has not engaged in any activity that has a substantial illegal purpose on or after July 1, 2026.

On Tuesday, June 30, 2026, a Federal judge vacated the rule; one day prior to the rule becoming effective. The Department is now removing the attestation from the PSLF form in order

¹ Burden is defined as the total time, effort, or financial resources expended by persons to generate, maintain, retain, or disclose or provide

to comply with the court order. No other changes have been made at this time.

SUPPLEMENTARY INFORMATION:

Title: FERC–521, Payments for Benefits from Headwater Improvements. *OMB Control No.:* 1902–0087.

Type of Request: Three-year extension of the FERC–521 information collection requirements with no changes to the reporting requirements.

Abstract: The purpose of FERC–521 is to implement information collections pursuant to Section 10(f) of the Federal Power Act (FPA). Section 10(f) of the FPA requires hydropower licensees to reimburse upstream headwater project owners for an equitable portion of the benefits it receives as a result of construction work related to headwater improvements. These benefits, referred to as headwater benefits, are the additional energy production possible at a downstream hydropower project resulting from the regulation of river flows by an upstream storage reservoir. The Commission requires federal agencies and owners of non-federal hydropower projects to file data for determining headwater benefits as outlined in 18 Code of Federal Regulations (CFR) Part 11.

Type of Respondents: There are two types of entities that respond, Federal and Non-Federal storage and hydropower project owners. The Federal entities that typically respond include the U.S. Army Corps of Engineers and the U.S. Department of Interior Bureau of Reclamation. The Non-Federal entities may consist of any Municipal or Non-Municipal hydropower project owner.

Estimate of Annual Burden¹ and cost:² The Commission estimates the total Public Reporting Burden for this information collection as:

² FERC estimates that industry hourly costs are similar to the Commission FY 2026 average salary plus benefits of \$213,003 per year (or \$102/hour).
