SUPPLEMENTARY INFORMATION: In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501 *et seq.*) and 5 CFR 1320.8(d)(1), we provide the general public and other Federal agencies with an opportunity to comment on new, proposed, revised, and continuing collections of information. As part of our continuing effort to reduce paperwork and respondent burdens, we are again soliciting comments from the public and other Federal agencies on the proposed information collection request (ICR) described below. We are especially interested in public comments addressing the following:

- (1) Whether or not the collection of information is necessary for the proper performance of the functions of the agency, including whether or not the information will have practical utility;
- (2) The accuracy of our estimate of the burden for this collection of information, including the validity of the methodology and assumptions used;
- (3) Ways to enhance the quality, utility, and clarity of the information to be collected; and

Abstract: The National Wildlife Refuge Administration Act of 1966, as amended (16 U.S.C. 668dd–ee), authorizes the Service to permit uses—including commercial visitor services—on national wildlife refuges when such activities are determined to be compatible with the purposes for which each refuge was established. To support the provision of high-quality visitor services for wildlife-dependent recreation across the National Wildlife Refuge System, the Service issues permits for commercial guide services, including big game hunting, sport fishing, wildlife viewing, river trips, and other guided activities.

The Service uses Form 3–2538, “Alaska Guide Service Evaluation,” to collect information necessary to evaluate commercial guide services operating on national wildlife refuges in Alaska. This information assists refuge managers in assessing service quality, monitoring compliance with permit conditions, and ensuring that commercial activities align with refuge purposes and visitor experience objectives. Information gathered via Form 3–2538 allows the Service to:

- Monitor the quality of services provided by commercial guides.
- Gauge client satisfaction with the services.
- Assess the impacts of the activity on refuge resources.

We collect the following information from participants in the Alaska guide program via Form 3–2538:

- Details regarding the guided trip—name of the person(s) or outfitters guiding the trip and top three purposes for visiting the refuge.
- Experiences with guided trip.
- Level of satisfaction with guided trip and details regarding purpose of visit to refuge.
- Suggestions for improvements.
- Details about visitor—gender; State and/or country of residence; year of

birth; race or ethnicity; details regarding formal schooling; and approximate household income.

- Contact information for follow-up questions (optional).

We collect this information to better understand visitor satisfaction and to effectively adapt visitor services programming in the Alaska Region. Form 3–2538 provides refuges with a quantitative, standardized tool that reflects social science survey design best practices and can be used consistently across the region. Individual refuge programs use the collected information to establish baseline conditions for guide-supported visitor experiences and to adjust management over time to ensure they continue to provide the desired opportunities on Alaska's refuges.

Proposed Revisions

With this submission, we will propose the following changes to this information collection:

1. Change the title of the collection from “Alaska Guide Service Evaluation” to “Alaska Big Game Guide Use Survey.”
2. Remove the following questions from Form 3–2538:
 - a. Question 3: What was the name of the outfitter(s) for your guided trip? Outfitter name(s).
 - b. Question 4: What was the name(s) of the person(s) who guided you? Guide Name(s).
 - c. Removal of all questions in Section 5—A little about you.
3. Add a field at the end of Section 3 for respondents to explain their responses (optional).
4. Renumber Section 6 to be Section 5.
5. Add a point-of-contact at the end of the new Section 6 for respondents to contact any questions or concerns they would like to share or discuss.
6. Correct minor grammatical and formatting errors.

The public may request a copy of updated draft Form 3–2538 contained in this information collection by sending a request to the Service Information Collection Clearance Officer (see **ADDRESSES**).
