An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Agricultural Research Service

Title: Evaluation of User Satisfaction with NAL Internet Sites.

OMB Control Number: 0518–0040.

Summary of Collection: This is a reinstatement without change of a currently approved information collection request. The National Agricultural Library (NAL) measures user satisfaction with internet sites in order for NAL to comply with Executive Order 12862, which directs federal agencies that provide significant services directly to the public to survey customers to determine the kind and quality of services they want and their level of satisfaction with existing services. NAL internet sites are a vast collection of web pages created and maintained by component organizations of NAL.

Need and Use of the Information: The purpose of the research is to ensure that intended audiences find the information provided on the internet sites easy to access, clear, informative, and useful. The research will provide a means by which to classify visitors to the NAL internet sites, to better understand how to serve them. The information generated from this research will enable NAL to evaluate the success of its web presence in support of its mission to facilitate the creation of agricultural knowledge through the acquisition, curation, and dissemination of the information needed to solve agricultural challenges today and in the future. If the information is not collected, NAL will be limited in its ability to provide accurate, timely information to its user community.

Description of Respondents: Individuals or households; business or other for-profit; not-for-profit institutions; farms; State, local or Tribal government.

Number of Respondents: 3,410.

Frequency of Responses: Reporting: annually.

Total Burden Hours: 419.

Rachelle Ragland-Greene,

BILLING CODE 3410–03–P

DEPARTMENT OF AGRICULTURE

Submission for OMB Review; Comment Request

The Department of Agriculture has submitted the following information collection requirement(s) to OMB for review and approval under the Paperwork Reduction Act of 1995, Public Law 104–13. Comments are requested regarding whether the collection of information is necessary for the proper performance of the functions of the agency, including whether the information will have practical utility; the accuracy of the agency's estimate of burden including the validity of the methodology and assumptions used; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of the collection of information on those who are to respond, including through the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

Comments regarding this information collection received by August 17, 2026 will be considered. Written comments and recommendations for the proposed information collection should be submitted within 30 days of the publication of this notice on the following website www.reginfo.gov/public/do/PRAMain. Find this particular information collection by selecting “Currently under 30-day Review—Open for Public Comments” or by using the search function

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Food Safety and Inspection Service

Title: Procedures for the Notification of New Technology.

OMB Control Number: 0583–0127.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise

the functions of the Secretary (7 CFR 2.18 and 2.53), as specified in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601, *et seq.*), the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*), and the Egg Products Inspection Act (EPIA) (21 U.S.C. 1031, *et seq.*). These statutes mandate that FSIS protect the public by verifying that meat, poultry, and egg products are safe, wholesome, and properly labeled.

FSIS established flexible procedures to actively encourage the development and use of new technologies in meat and poultry establishments and egg products plants. These procedures facilitate notification to the Agency of any new technology that is intended for use in meat and poultry establishments and egg products plants so that the Agency can decide whether the new technology requires a pre-use review. A pre-use review often includes an in-plant trial.

Need and Use of the Information: FSIS will collect information to determine if a pre-use review is needed. If an in-plant trial is necessary, FSIS will request that the firm submit a protocol that is designed to collect relevant data to support the use of the new technology. To not collect this information would reduce the effectiveness of the meat, poultry, and egg products inspection program.

Description of Respondents: Business or other for-profit.

Number of Respondents: 210.

Frequency of Responses:

Recordkeeping; Reporting: on occasion.

Total Burden Hours: 12,800.

Food Safety and Inspection Service

Title: Nutrition Labeling of Major Cuts of Single-Ingredient Raw Meat or Poultry Products and Ground or Chopped Meat and Poultry Products.

OMB Control Number: 0583–0148.

Summary of Collection: The Food Safety and Inspection Service (FSIS) has been delegated the authority to exercise the functions of the Secretary as provided in the Federal Meat Inspection Act (FMIA) (21 U.S.C. 601 *et seq.*) and the Poultry Products Inspection Act (PPIA) (21 U.S.C. 451, *et seq.*) These statutes mandate that FSIS protect the public by verifying that meat and poultry products are safe, wholesome, and properly labeled. FSIS requires nutrition labeling of the major cuts of single-ingredients, raw meat and poultry products, unless an exemption applies. FSIS also requires nutrition labels on all ground or chopped meat and poultry products, with or without added seasonings, unless an exemption applies. Further, the nutrition labeling requirements for all ground or chopped

meat and poultry products are consistent with the nutrition labeling requirements for multi-ingredient and heat processed products (9 CFR 381.400(a), 9 CFR 317.300(a), 9 CFR 317.301(a), 9 CFR 381.401(a)).

Need and Use of the Information: FSIS requires nutrition labeling of major cuts of single-ingredient, raw meat and poultry products, all ground or chopped meat and poultry products to ensure that consumers will use this information to make better informed nutrition choices when purchasing these meat and poultry products.

Description of Respondents: Business or other for-profit.

Number of Respondents: 76,439.

Frequency of Responses: Reporting: On occasion.

Total Burden Hours: 67,861.

An agency may not conduct or sponsor a collection of information unless the collection of information displays a currently valid OMB control number and the agency informs potential persons who are to respond to the collection of information that such persons are not required to respond to the collection of information unless it displays a currently valid OMB control number.

Animal and Plant Health Inspection Service

Title: Control of Chronic Wasting Disease.

OMB Control Number: 0579-0189.

Summary of Collection: The Animal Health Protection Act (AHPA) of 2002 is the primary Federal law governing the protection of animal health. The law gives the Secretary of Agriculture broad authority to detect, control, and eradicate pests or diseases of livestock or poultry, and to pay claims arising from destruction of animals. Disease prevention is the most effective method for maintaining a healthy animal population and enhancing the Animal and Plant Health Inspection Service (APHIS) ability to complete in exporting animals and animal products. Chronic wasting disease (CWD) is a transmissible spongiform encephalopathy (TSE) of elk, deer and moose typified by chronic weight loss leading to death. The presence of CWD disease in cervids causes significant economic and market losses to U.S. producers. To accelerate the control and limit the spread of this disease in the United States, APHIS created a cooperative, voluntary Federal-State-private sector CWD Herd Certification Program. The program is designed to identify farmed or captive herds infected with CWD and provided for the management of these herds in a way that reduces the risk of spreading CWD.

Need and Use of the Information: APHIS will collect information from owners of elk, deer, and moose herds who choose to participate in the CWD Herd Certification program. They would need to follow program requirements for animal identification, testing, herd management, and movement of animals into and from herds. APHIS also established requirements for the interstate movement of cervids to prevent movement of elk, deer, and moose that pose a risk of spreading CWD. Carrying out this program will entail the use of several information collection activities and three APHIS forms. Failing to collect it would make it impossible for APHIS to maintain its CWD Herd Certification Program, thereby hindering APHIS' ability to

prevent and control the spread of CWD in the United States.

Description of Respondents: Business or other for-profit and not-for-profit; State, Local or Tribal Government.

Number of Respondents: 1,588.

Frequency of Responses: Reporting and Recordkeeping: On occasion.

Total Burden Hours: 162,510.

Animal and Plant Health Inspection Service

[Docket No. APHIS-2026-0433]

Notice of Request for Revision to and Extension of Approval of an Information Collection; Horse Protection Regulations

AGENCY: Animal and Plant Health Inspection Service, USDA.

ACTION: Revision to and extension of approval of an information collection; comment request.

SUMMARY: In accordance with the Paperwork Reduction Act of 1995, this notice announces the Animal and Plant Health Inspection Service's intention to request a revision to and extension of approval of an information collection associated with the Horse Protection Program and enforcement of the Horse Protection Act.

DATES: We will consider all comments that we receive on or before September 14, 2026.

ADDRESSES: You may submit comments by either of the following methods:

- **Federal eRulemaking Portal:** Go to www.regulations.gov. Enter APHIS-2026-0433 in the Search field. Select the Documents tab, then select the Comment button in the list of documents.

- **Postal Mail/Commercial Delivery:** Send your comment to Docket No. APHIS-2026-0433, Regulatory Analysis and Development, PPD, APHIS, Regulatory Analysis and Development, PPD, APHIS, 5601 Sunnyside Ave., #AP760, Beltsville, MD 20705.

Supporting documents and any comments we receive on this docket may be viewed at www.regulations.gov or in our reading room, which is located in Room 1620 of the USDA South Building, 14th Street and Independence Avenue SW, Washington, DC. Normal reading room hours are 8 a.m. to 4:30
