

preparedness for disasters and other emergencies. Further, providers use the information to ensure that roaming will work expeditiously in times of emergencies and to better understand their network capabilities related to roaming and ensure their networks roam as effectively as possible when a disaster strikes. Further, the Commission uses information as a basis for potential future improvements to the MDRI and other programs in furtherance of public safety, including by gauging providers' compliance with the MDRI's roaming provision, ensuring accountability by providers who fail to comply and for resolving disputes related to roaming agreements. Thus, the information sought in this collection is necessary and vital to ensuring that the MDRI is effective at protecting the life and property of the public.

Pursuant to the Small Business Paperwork Relief Act of 2002, Public

OMB Control Number: 3060–1214.

Title: Part 52, Numbering Policies for Modern Communications, et al., WC Docket Nos. 13–97, et al.

Form Number: N/A.

Type of Review: Revision of a currently approved collection.

Respondents: Business or other for-profit entities.

Number of Respondents and Responses: 120 respondents; 160 responses.

Estimated Time per Response: 15–55 hours.

Frequency of Response: One-time; ongoing and bi-annual reporting requirements.

Obligation To Respond: Voluntary and mandatory. Statutory authority for these collections are contained in 47 U.S.C. 251(e)(1) of the Communications Act of 1934 and section 6(a) of the TRACED Act.

Total Annual Burden: 2,600 hours.

Total Annual Cost: \$31,200.

Needs and Uses: In 2015, the FCC adopted the First Report and Order (FCC 15–70) establishing an authorization process for interconnected Voice over internet Protocol (VoIP) providers which allows them to apply for the VoIP Numbering Authorization (Authorization) from the FCC that, once granted, permits them to obtain numbering resources directly from the Numbering Administrators. The FCC revised the Authorization process for applicants in the September 2023 Second Report and Order (FCC 23–75), and for existing authorization holders—that is, those interconnected VoIP providers that received their Authorization prior to August 8, 2024 (the effective date of the rules adopted in the Second Report and Order) in the December 2025 Third Report and Order (FCC 25–86). This collection covers the information and certifications that applicants and existing authorization holders must submit in order to comply with the Authorization process. The data, information, and documents acquired through this collection will allow interconnected VoIP providers to obtain numbers with minimal burden or delay while also preventing providers from obtaining numbers without first demonstrating that they can deploy and properly utilize such resources. This collection will also ensure that existing authorization holders comply with the necessary safeguards in order to maintain their Authorization. The revisions to this information collection

are necessary to further stem the tide of illegal robocalls perpetrated by interconnected VoIP providers, protect the nation's numbering resources from abuse by foreign bad actors, advance important public safety and national security objectives tied to the use of our nation's limited numbering resources, and ensure compliance with other important FCC rules.
