

Discussion

Pursuant to 21 U.S.C. 824(a)(3), the Attorney General is authorized to suspend or revoke a registration issued under 21 U.S.C. 823 “upon a finding that the registrant . . . has had his State license or registration suspended . . . [or] revoked . . . by competent State authority and is no longer authorized by State law to engage in the . . . dispensing of controlled substances.” With respect to a practitioner, DEA has also long held that the possession of authority to dispense controlled substances under the laws of the state in which a practitioner engages in professional practice is a fundamental condition for obtaining and maintaining a practitioner’s registration. *Gonzales v. Oregon*, 546 U.S. 243, 270 (2006). (“The Attorney General can register a physician to dispense controlled substances ‘if the applicant is authorized to dispense . . . controlled substances under the laws of the State in which he practices.’ . . . The very definition of a ‘practitioner’ eligible to prescribe includes physicians ‘licensed, registered, or otherwise permitted, by the United States or the jurisdiction in which he practices’ to dispense controlled substances. § 802(21).”). The Agency has applied these principles consistently. See, e.g., *Ashley Vermillion, N.P.*, 91 FR 35270, (2026); *Henry-Norbert O. Ndekwe, M.D.*, 90 FR 15990 (2025); *Lawrence Rudolph, D.M.D.*, 89 FR 79310 (2024).⁵

Pursuant to Oklahoma’s Uniform Controlled Dangerous Substances Act, “[e]very person who manufactures, distributes, dispenses, prescribes, administers or uses for scientific purposes any controlled dangerous substance within or into this state . . . shall obtain a registration issued by the Director of the [OBNDD], in accordance

with rules promulgated by the Director.” Okla. Stat. tit. 63, § 2–302(A) (2026).⁶

Here, the undisputed evidence in the record is that Registrant currently lacks authority to handle controlled substances in Oklahoma because his OBNDD registration is inactive. As discussed above, a person must hold a valid OBNDD registration to dispense a controlled substance in Oklahoma, subject to limited exceptions not applicable here. Thus, because Registrant lacks authority to handle controlled substances in Oklahoma, Registrant is not eligible to maintain a DEA registration. Accordingly, the Agency will order that Registrant’s DEA registration be revoked.

Order

Pursuant to 28 CFR 0.100(b) and the authority vested in me by 21 U.S.C. 824(a), I hereby revoke DEA Certificate of Registration No. BK1369633 issued to Gene M. Koop, D.D.S. Further, pursuant to 28 CFR 0.100(b) and the authority vested in me by 21 U.S.C. 823(g)(1), I hereby deny any pending applications of Gene M. Koop, D.D.S., to renew or modify this registration, as well as any other pending application of Gene M. Koop, D.D.S., for additional registration in Oklahoma. This Order is effective August 27, 2026.

Requests for additional information or copies of the information collection instrument(s) and instructions should be directed to NASA PRA Clearance Officer, Stayce Hoult, NASA Headquarters, 300 E Street SW, JC0000, Washington, DC 20546, phone 256–714–8575, or email stayce.d.hoult@nasa.gov or hq-ocio-pra-program@mail.nasa.gov.

SUPPLEMENTARY INFORMATION:

I. Abstract

The information submitted by the public is a license application for those companies and individuals who wish to obtain a patent license for a NASA patented technology. Information needed for the license application in ATLAS may include supporting documentation such as a certificate of incorporation, a financial statement, a business and/or commercialization plan, a project revenue/royalty spreadsheet, and a company balance sheet. At a minimum, all license applicants must submit a satisfactory plan for the development and/or marketing of an invention. The collected information is used by NASA to ensure that companies that seek to commercialize NASA technologies have a solid business plan for bringing the technology to market.

⁵ This rule derives from the text of two provisions of the Controlled Substances Act (CSA). First, Congress defined the term “practitioner” to mean “a physician . . . or other person licensed, registered, or otherwise permitted, by . . . the jurisdiction in which he practices . . . , to distribute, dispense, . . . [or] administer . . . a controlled substance in the course of professional practice.” 21 U.S.C. 802(21). Second, in setting the requirements for obtaining a practitioner’s registration, Congress directed that “[t]he Attorney General shall register practitioners . . . if the applicant is authorized to dispense . . . controlled substances under the laws of the State in which he practices.” 21 U.S.C. 823(g)(1). Because Congress has clearly mandated that a practitioner possess state authority in order to be deemed a practitioner under the CSA, DEA has held repeatedly that revocation of a practitioner’s registration is the appropriate sanction whenever he is no longer authorized to dispense controlled substances under the laws of the state in which he practices. See, e.g., *Elias Garcia Garcia, P.A.*, 90 FR 31242 (2025); *Jason Weakley, R.N., A.P.R.N.*, 90 FR 10085 (2025); *Khursheed Haider, M.D.*, 90 FR 21950 (2025).

⁶ Although there are limited circumstances under which a person “may lawfully possess controlled dangerous substances” without a registration issued by the Director of the OBNDD, based on the information furnished by the Government, none are applicable here. *Id.* § 2–302(H).
