Abstract of Information Available

A total of 14 lots of objects have been requested for repatriation. The 14 lots of unassociated funerary objects are: four lithics from Richardson Bay; one lithic from Nicasio; one mortar from San Rafael; six lots of beads from site MRN-20/Strawberry Point; and two lots of bone implements (22), pendants (four), lithics (13), and flaked obsidian (21) from site MRN-20/Strawberry Point.

Strawberry Point in Marin County was excavated in 1950-51 by D.J. McGeein (Douglas McGeein) and W.C. Mueller, the objects were mailed to Professor Bert Gerow at Stanford at an unknown date. An article published in 1955 in *American Antiquity* noted the removal of several burials; Stanford does not hold the ancestral remains, it is currently unknown where the Ancestors were removed to. Stanford has no record of any material being treated with hazardous substances.

The unassociated funerary objects have been identified by a preponderance of the evidence as related to human remains, specific individuals, or families, or removed from a specific burial site or burial area of an individual or individuals with cultural affiliation to an Indian Tribe or Native Hawaiian organization.

- There is a connection between the cultural items described in this notice and the Federated Indians of Graton Rancheria, California
