

Exchange Rule 4759(a) outside of the Night Session. The Night Session differs from the Exchange's existing trading hours because supporting the longer operating hours requires timestamp-related changes to the Exchange's market data feed handlers. By limiting those changes to CQS/UQDF for the Night Session, the Exchange will be able to use a reliable consolidated source of quotation data during that session while mitigating operational risk to the proprietary feeds and related systems used during existing trading hours and by other Nasdaq-affiliated markets and systems. The proposal is therefore intended to make the Exchange's rules more accurate and transparent, support the orderly operation of the Night Session, and avoid introducing unnecessary risk to systems that are not being changed by this proposal, without imposing any new obligation on members.

B. Self-Regulatory Organization's Statement on Burden on Competition

The Exchange does not believe that the proposed rule change will impose any burden on competition not necessary or appropriate in furtherance of the purposes of the Act. The proposed change identifies the source of quotation data that the Exchange will use during the Night Session for the purposes set forth in Exchange Rule 4759(a). The proposal does not impose any new requirements on members and will apply uniformly to all members that participate in the Night Session. In addition, the proposed use of CQS/UQDF during the Night Session reflects an operationally tailored approach to supporting the extended operating hours of that session while avoiding unnecessary changes to proprietary feed handlers used outside of the Night Session. It does not affect the terms on which members may access or compete on the Exchange.

The Exchange further believes that the proposal will not impose any burden on intermarket competition because it merely specifies the quotation data source the Exchange will use during the Night Session and does not restrict the ability of other exchanges or market participants to compete.

C. Self-Regulatory Organization's Statement on Comments on the Proposed Rule Change Received From Members, Participants, or Others

No written comments were either solicited or received.

III. Date of Effectiveness of the Proposed Rule Change and Timing for Commission Action

Because the foregoing proposed rule change does not: (i) significantly affect the protection of investors or the public interest; (ii) impose any significant burden on competition; and (iii) become operative for 30 days from the date on which it was filed, or such shorter time as the Commission may designate, it has become effective pursuant to Section 19(b)(3)(A)(iii) of the Act¹³ and subparagraph (f)(6) of Rule 19b-4 thereunder.¹⁴

At any time within 60 days of the filing of the proposed rule change, the Commission summarily may temporarily suspend such rule change if it appears to the Commission that such action is necessary or appropriate in the public interest, for the protection of investors, or otherwise in furtherance of the purposes of the Act. If the Commission takes such action, the Commission shall institute proceedings to determine whether the proposed rule should be approved or disapproved.

IV. Solicitation of Comments

Interested persons are invited to submit written data, views and arguments concerning the foregoing, including whether the proposed rule change is consistent with the Act. Comments may be submitted by any of the following methods:

¹³ 15 U.S.C. 78s(b)(3)(A)(iii).

¹⁴ 17 CFR 240.19b-4(f)(6). In addition, Rule 19b-4(f)(6) requires a self-regulatory organization to give the Commission written notice of its intent to file the proposed rule change at least five business days prior to the date of filing of the proposed rule change, or such shorter time as designated by the Commission. The Exchange has satisfied this requirement.
