

Missile Simulation Rounds; Security Assistance Management Directorate Technical Assistance; Tactical Aviation and Ground Munitions Project Office Technical Assistance; other associated equipment and services; and other related elements of logistical and program support. The estimated total cost was \$30 million. Major Defense Equipment (MDE) constituted \$25 million of this total.

This transmittal reports the replacement of the previously notified forty-six (46) Javelin Command Launch Units (CLUs) with thirty (30) Javelin Light Weight Command Launch Units (LWCLUs) (MDE). The following non-MDE items will also be added: technical assistance, training and support equipment in support of Javelin program management, logistics, oversight, and successful delivery of the weapon system. The estimated total value of these additional items is \$7.16 million. The total estimated MDE value remains \$25 million. The estimated total value will increase by \$7 million, resulting in an estimated total case value of \$37 million.

(iv) (U) *Significance*: This notification is being provided to report the replacement of the previously notified Javelin CLUs with Javelin LWCLUs. The proposed sale will support Georgia's ability to build its long-term defense capacity to defend its sovereignty and territorial integrity to meet its national defense requirements. It is vital to the U.S. national interest to assist Georgia in developing and maintaining a strong and ready self-defense capability.

(v) (U) *Justification*: This proposed sale will support the foreign policy and national security of the United States by improving the security of Georgia which is a strategic partner and a key contributor to security and stability in the region.

(vi) (U) *Sensitivity of Technology*:

The Javelin Weapon System is comprised of two major tactical components, which are a reusable Light Weight Command Launch Unit (LWCLU) and a round contained in a disposable launch tube assembly. The LWCLU incorporates an integrated day-night sight that provides a target engagement capability in adverse weather and countermeasure environments. It may also be used in a stand-alone mode for battlefield surveillance and target detection. The LWCLU's thermal sight is a 3rd generation Forward Looking Infrared (FLIR) sensor. To facilitate initial loading and subsequent updating of software, all on-board missile software is uploaded via the LWCLU after mating and prior to launch.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) (U) *Date Report Delivered to Congress*: July 28, 2026

[Transmittal No. 26-1B]

Arms Sales Notification

AGENCY: Defense Security Cooperation Agency, Department of Defense (DoD).

ACTION: Arms sales notice.

SUMMARY: The DoD (referred to herein as "the Department," "Department of War" or "DoW") is publishing the unclassified text of an arms sales notification.

FOR FURTHER INFORMATION CONTACT:

Urooj Zahra at (703) 695-6233, urooj.zahra.civ@mail.mil, or dsca.ncr.rsrcmgmt.list.cns-mbx@mail.mil.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 26-1B.

Dated: August 25, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. 26-1B

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC, 36(B)(5)(C), AECA)

(i) *Prospective Purchaser*: Government of Qatar

(ii) *Sec. 36(b)(1), AECA Transmittal No.*: 18-43

Date: November 27, 2018

Implementing Agency: Air Force

Funding Source: National Funds

(iii) *Description*: On November 27, 2018, Congress was notified by congressional certification transmittal number 18-43 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of forty (40) AIM 120C-7 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and one (1) spare AIM 120C-7 AMRAAM guidance section. The following non-major defense equipment (MDE) items were also included: spare AIM-120C-7 control section; AMRAAM Captive Air

Training Missile (CATM-120C); missile containers; classified software for the AN/MPQ-64F1 sentinel radar; spare and repair parts; cryptographic and communication security devices; precision navigation equipment; other software; site surveys; weapons system equipment and computer software support; publications and technical documentation; common munitions and test equipment; repair and return services and equipment; personnel training and training equipment; integration support and test equipment; U.S. government and contractor, engineering, technical, and logistics support services; and other related elements of logistical and program support. The estimated total cost was \$215 million. MDE constituted \$95 million of this total.

On October 01, 2019, Congress was notified by congressional certification transmittal number 19-0J of the inclusion of up to eighty additional (80) AIM-120C-7 missiles; one hundred twenty (120) AIM-120C-7 ER missiles; and thirteen (13) Multifunction Information Distribution System Low Volume Terminal (MIDS-LVT) Block Upgrade 2. The following non-MDE items were also included: associated materiel, support, and services. The estimated MDE value was increased by \$461 million to a revised \$556 million. The estimated non-MDE value was increased by \$16 million to a revised \$136 million. The estimated total case value was increased by \$477 million to a revised \$692 million.

This transmittal notifies the inclusion of the following MDE items: eight hundred (800) AIM-120C-7 or AIM-120C-8 AMRAAMs; and fifty (50) AIM-120C-7 or AIM-120C-8 AMRAAM guidance sections. The following non-MDE items will also be included: AMRAAM support equipment; and other related elements of program and logistics support. The estimated total value of the new items is \$2.09 billion. The estimated MDE value will increase by \$1.97 billion to a revised \$2.526 billion. The estimated non-MDE value will increase by \$0.12 billion to a revised \$0.256 billion. The estimated total case value will increase by \$2.09 billion to a revised \$2.782 billion.

(iv) *Significance*: This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE and non-MDE represents an increase in capability over what was previously notified. This proposed sale improves Qatar's defense capability to deter regional threats and strengthen its homeland defense. The National Advanced Surface to Air Missile System

capability would provide a full range of protection from imminent hostile cruise missile, unmanned aerial vehicle, rotary wing, and fixed wing threats.

(v) *Justification:* This proposed sale will support the foreign policy and national security objectives of the United States by helping to improve the security of a friendly country that continues to be an important force for political stability and economic progress in the Middle East.

(vi) *Sensitivity of Technology:*

The Sensitivity of Technology Statement contained in the original notification applies to the additional items reported here.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) *Date Report Delivered to Congress:* July 6, 2026

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to fulfill the requirements of section 155 of Public Law 104-164 dated July 21, 1996. The following is a copy of the attached Transmittal 0E-26.

Dated: August 25, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. RSAT 0E-26

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(A), AECA)

(i) *Prospective Purchaser:* Government of Sweden

(ii) Sec. 36(b)(1), AECA Transmittal No.: 23-33

Date: July 7, 2023

Implementing Agency: Air Force

(iii) *Description:* On July 7, 2023, Congress was notified by congressional certification transmittal number 23-33 of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of up to two hundred fifty (250) AIM-120C-8 Advanced Medium Range Air-to-Air Missiles (AMRAAM); and up to six (6) AMRAAM C-8 guidance sections. Also included were spare AIM-120 control sections and containers; AMRAAM test set telemetry kits; encryption devices; munitions support and support equipment; classified software delivery and support; spare parts, consumables, and accessories; repair and return support; transportation support; classified publications and technical documentation; studies and surveys; U.S. Government and contractor technical engineering, and logistics support services; and other related elements of logistical and program support. The estimated total cost was \$605 million. Major defense equipment (MDE) constituted \$530 million of this total.

This transmittal notifies the following additional MDE items: ten (10) AIM 120C-8 AMRAAM air-instrumented vehicles. The following non-MDE items will also be included: AMRAAM training missiles; KGV-135A encryption devices; and other related elements of logistics and program support. The estimated total value of the new items is \$25 million. The estimated total cost of the new MDE items is \$24 million and does not result in a net increase in total cost of MDE. The estimated total MDE cost remains \$530 million. The estimated total cost of the new non-MDE items is \$1 million and does not result in a net increase in total cost of non-MDE. The total non-MDE cost remains \$75 million. The total case value does not increase and remains \$605 million.

(iv) *Significance:* This notification accounts for requested additional MDE and non-MDE items not included in the original notification. The inclusion of this MDE represents an increase in capability over what was previously notified. The proposed articles and services will support Sweden's capability to meet and deter current and future threats in the region by ensuring Sweden has modern, capable air-to-air munitions. The proposed sale will further advance the Swedish Air Force interoperability with U.S. joint forces and other regional and NATO forces.

(v) *Justification:* This proposed sale will support the foreign policy goals and national security objectives of the United States by improving the security

of a NATO Ally that is a force for political stability and economic progress in Europe.

(vi) *Sensitivity of Technology:*

The AIM 120C-8 AMRAAM air-instrumented vehicle is a live launch test vehicle used primarily for flight test integration with a rocket motor and instrumentation unit in place of a warhead. The AIM 120C-8 AMRAAM air-instrumented vehicle verifies and assesses the ability to safely launch an AMRAAM and validate the missile's performance.

The KGV-135A communications device is a high-speed general purpose encryptor and decryptor module used for wideband data encryption.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.
