POLICY JUSTIFICATION

Kingdom of Saudi Arabia—Advanced Precision Kill Weapon System-II Guidance Sections

The Kingdom of Saudi Arabia has requested to buy up to ten thousand (10,000) Advanced Precision Kill Weapon System (APKWS-II) air-to-air guidance sections; and up to ten thousand (10,000) APKWS-II air-to-ground guidance sections. The following non-major defense equipment items will also be included: LAU-131 A/A launchers; Mk-152 high explosive warheads; MK66 rocket motors; proximity fuzes; WTU-1/B practice

warheads; inert MK66 rocket motors; test support equipment; launch and employment equipment; spare and repair parts; publications and technical documentation; personnel training, training equipment, and support equipment; other support equipment; transportation; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The estimated total cost is up to \$1.96 billion.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a Major non-NATO Ally that is a force for political stability and economic progress in the Gulf Region.

The proposed sale will improve Saudi Arabia's capability to deter current and future threats by strengthening its homeland defense, and improving interoperability with U.S. forces, and other regional and NATO forces. The proposed sale will also augment Saudi Arabia's operational aircraft and enhance its air-to-air, and air-to-ground self-defense capability. The Kingdom of Saudi Arabia will have no difficulty absorbing this equipment and services into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region

The principal contractor will be BAE Systems, located in Nashua, NH. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will require the assignment of fifteen (15) additional U.S. Government and fifteen (15) U.S. contractor representatives to Saudi Arabia for an extended period to support program and technical reviews plus training and maintenance support in-country.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 26-85

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Advanced Precision Kill Weapon System-II (APKWS-II) all-up-round is a low cost air-to-air and air-to-ground system that consists of an APKWS-II guidance section developed

by BAE Systems, legacy 2.75-inch MK66 Mod 4 rocket motor, and legacy MK152 and MK435/436-point detonating or M728 proximity fuze. The APKWS is a tactical rocket system that can be launched from several platforms, including rotary wing, fixed wing and ground-based vehicles, offering multi-mission, multi-target capability, and precision-strike lethality. These guided rockets are steered to the target by following reflected laser beam energy directed onto the target either by the launching aircraft, a second aircraft, or ground-based troops operating a laser designator.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Saudi Arabia can provide substantially the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles, technical data, and services listed in this transmittal have been authorized for release and export to the Kingdom of Saudi Arabia.

SUPPLEMENTARY INFORMATION: This 36(b) arms sales notification is published to

fulfill the requirements of section 155 of Public Law 104–164 dated July 21, 1996. The following is a copy of the attached Transmittal 26–54, Policy Justification, and Sensitivity of Technology.

Dated: August 25, 2026.

Stephanie J. Bost,

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. 26–54

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act, as amended

(i) *Prospective Purchaser:* Government of Singapore

(ii) *Total Estimated Value:*

Major Defense Equipment * ..	\$17.1 million
Other	\$ 5.2 million

TOTAL	\$22.3 million
-------------	----------------

Funding Source: National Funds

(iii) *Description and Quantity or Quantities of Articles or Services under Consideration for Purchase:* Foreign Military Sales (FMS) case SN–B–VIF was below congressional notification threshold at \$12.4 million (\$9.4 million in major defense equipment (MDE)) and included forty-three (43) AGM–114R Hellfire missiles; personnel training and training equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. The Government of Singapore has requested the case be amended to include an additional twenty-four (24) AGM–114R Hellfire missiles; AGM–114R spare parts, Hellfire technical manual, reprogramming of M299 launchers, software verification and calibration of AN/AWM–101, Hellfire missiles and support equipment, and technical assistance. The following non-MDE items will also be included: five (5) years of AGM–114R Hellfire spare parts; Hellfire technical manual, reprogramming of M299 launchers, return and repair material and services, technical publications, unguided munitions and services, software verification and calibration of AN/AWM–101, Hellfire missile and support equipment, chaff, flares, and technical assistance. This amendment will cause the case to exceed the notification threshold, and thus notification of the entire program is required. The above notification requirements are combined as follows:

Major Defense Equipment (MDE):

Sixty-seven (67) AGM–114R Hellfire missiles

Non-MDE:

The following non-MDE items will also be included: AGM–114R Hellfire spare parts; Hellfire technical manual; reprogramming of M299 launchers; return and repair material and services; technical publications; unguided munitions and services; software verification and calibration of AN/AWM–101; Hellfire missiles and support equipment; chaff, flares, and technical assistance; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support.

(iv) *Military Department:* Army (SN–B–VIF)

(v) *Prior Related Cases, if any:* None

(vi) *Sales Commission, Fee, etc., Paid, Offered, or Agreed to be Paid:* None known at this time

(vii) *Sensitivity of Technology Contained in the Defense Article or Defense Services Proposed to be Sold:* See Attached Annex

(viii) *Date Report Delivered to Congress:* June 30, 2026

* as defined in Section 47(6) of the Arms Export Control Act.

POLICY JUSTIFICATION

Singapore—Hellfire Missiles

The Government of Singapore has requested to buy an additional twenty-four (24) AGM–114R Hellfire missiles; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support that will be added to a previously implemented case whose value was under the congressional notification threshold. The original Foreign Military Sales (FMS) case, valued at \$12.4 million (\$9.4 million in major defense equipment (MDE)), included personnel training and training equipment; U.S. Government and contractor engineering, technical, and logistics support services; and other related elements of logistics and program support. This notification is for a combined total of sixty-seven (67) Hellfire missiles (AGM–114R). The following non-MDE items will also be included: five (5) years of AGM–114R Hellfire spare parts; Hellfire technical manual; reprogramming of M299 launchers; return and repair material and services; technical publications; unguided munitions and services; software verification and calibration of AN/AWM–101; Hellfire missiles and support equipment; chaff, flares, and technical assistance; U.S. Government and contractor engineering, technical,

and logistics support services; and other related elements of logistics and program support. The estimated total cost is \$22.3 million.

This proposed sale will support the foreign policy and national security objectives of the United States by improving the security of a strategic partner that is an important force for political stability and economic progress in Asia.

The proposed sale will improve Singapore's capability to meet current and future threats by enhancing and extending the Singapore Air Force's ability to conduct operations and enable effective training. Singapore will have no difficulty absorbing this training into its armed forces.

The proposed sale of this equipment and support will not alter the basic military balance in the region.

The principal contractor will be Lockheed Martin Corporation, located in Orlando, FL. At this time, the U.S. Government is not aware of any offset agreement proposed in connection with this potential sale. Any offset agreement will be defined in negotiations between the purchaser and the contractor.

Implementation of this proposed sale will not require the assignment of any additional U.S. Government or contractor representatives to Singapore.

There will be no adverse impact on U.S. defense readiness as a result of this proposed sale.

Transmittal No. 26–54

Notice of Proposed Issuance of Letter of Offer Pursuant to Section 36(b)(1) of the Arms Export Control Act

Annex

Item No. vii

(vii) *Sensitivity of Technology:*

1. The Hellfire missile (AGM–114R) is a precision strike, Semi-Active Laser guided missile and is the principal AGM for the Army. The AGM–114R missile provides the warfighter with an air-to-ground, point-target precision strike capability to defeat advanced armor and an array of traditional and nontraditional targets.

2. The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

3. If a technologically advanced adversary were to obtain knowledge of the specific hardware and software elements, the information could be used to develop countermeasures that might reduce system effectiveness or be used in the development of a system with similar or advanced capabilities.

4. A determination has been made that Singapore can provide substantially

the same degree of protection for the sensitive technology being released as the U.S. Government. This proposed sale is necessary in furtherance of the U.S. foreign policy and national security objectives outlined in the Policy Justification.

5. All defense articles and services listed in this transmittal have been authorized for release and export to the Government of Singapore.

Alternate OSD Federal Register Liaison Officer, Department of Defense.

Transmittal No. 0C-23

REPORT OF ENHANCEMENT OR UPGRADE OF SENSITIVITY OF TECHNOLOGY OR CAPABILITY (SEC. 36(B)(5)(A), AECA)

(i) (U) *Purchaser:* Government of Georgia

(ii) (U) Sec. 36(b)(1), AECA
Transmittal No.: 21-48

Date: August 3, 2021

Military Department: Army

Funding Source: National Funds

(iii) (U) *Description:* On August 3, 2021, Congress was notified by Congressional certification transmittal number 21-48, of the possible sale, under Section 36(b)(1) of the Arms Export Control Act, of eighty-two (82) Javelin FGM-148 Missiles; and forty-six

(46) Javelin Command Launch Units (CLU). Also included were Enhanced Producibility Basic Skills Trainers; Missile Simulation Rounds; Security Assistance Management Directorate Technical Assistance; Tactical Aviation and Ground Munitions Project Office Technical Assistance; other associated equipment and services; and other related elements of logistical and program support. The estimated total cost was \$30 million. Major Defense Equipment (MDE) constituted \$25 million of this total.

This transmittal reports the replacement of the previously notified forty-six (46) Javelin Command Launch Units (CLUs) with thirty (30) Javelin Light Weight Command Launch Units (LWCLUs) (MDE). The following non-MDE items will also be added: technical assistance, training and support equipment in support of Javelin program management, logistics, oversight, and successful delivery of the weapon system. The estimated total value of these additional items is \$7.16 million. The total estimated MDE value remains \$25 million. The estimated total value will increase by \$7 million, resulting in an estimated total case value of \$37 million.

(iv) (U) *Significance:* This notification is provided to report the replacement of the previously notified Javelin CLUs with Javelin LWCLUs. The proposed sale will support Georgia's ability to build its long-term defense capacity to defend its sovereignty and territorial integrity to meet its national defense requirements. It is vital to the U.S. national interest to assist Georgia in developing and maintaining a strong and ready self-defense capability.

(v) (U) *Justification:* This proposed sale will support the foreign policy and national security of the United States by improving the security of Georgia which is a strategic partner and a key contributor to security and stability in the region.

(vi) (U) *Sensitivity of Technology:*

The Javelin Weapon System is comprised of two major tactical components, which are a reusable Light Weight Command Launch Unit (LWCLU) and a round contained in a disposable launch tube assembly. The LWCLU incorporates an integrated day-night sight that provides a target engagement capability in adverse weather and countermeasure environments. It may also be used in a stand-alone mode for battlefield surveillance and target detection. The LWCLU's thermal sight is a 3rd generation Forward Looking Infrared (FLIR) sensor. To facilitate initial loading and subsequent updating of

software, all on-board missile software is uploaded via the LWCLU after mating and prior to launch.

The highest level of classification of defense articles, components, and services included in this potential sale is SECRET.

(vii) (U) *Date Report Delivered to Congress:* July 28, 2026
