DOJ seeks PRA authorization for this information collection for three years. OMB authorization for an ICR cannot be for more than three years without renewal. DOJ notes that information collection requirements submitted to OMB for existing ICRs receive a month-to-month extension while they undergo review.

Overview of This Information Collection

Abstract: The Gun Control Act at 18 U.S.C. 922 and 923 and implementing regulations at 27 CFR 478.50 and 52, require licensees changing location of their business premises during an existing license period to submit Form 5300.38, notifying ATF of the proposed location change, certifying compliance with state and local requirements, and providing other information necessary to determine that operations can commence at the new location, and then receive an amended license covering the new business location.

Type of information collection: revising a previously approved collection.

Title of the form/collection: Application to Amend Federal Firearms License.

Agency form number, if any, and the applicable component of the Department of Justice sponsoring the collection: Form number: ATF Form 5300.38. **Component:** Bureau of Alcohol, Tobacco, Firearms, and Explosives; U.S. Department of Justice. **Affected public who will be asked or required to respond, and obligation to respond:** Affected public: individuals or households, private sector for-profit institutions. **Obligation to respond:** voluntary, required to obtain/retain a benefit.

Total estimated number of respondents: 6,703 of respondents.

Estimated time per respondent: 15 minutes (0.25 hours).

Frequency: Once annually.

Total estimated annual time burden: 1,676 total hours.

Total estimated annual other costs burden: There is no annualized capital/startup cost associated with this collection.

Revisions to This Information Collection

ATF is revising this information collection, OMB 1140–0040, to reflect a decrease in the total annual public burden. The number of respondents has decreased since the last renewal, from 10,000 to 6,703, due to fewer respondents changing business premises. This resulted in a corresponding decrease in the number of burden hours, from 5,000 hours to 3,352 hours (rounded). In addition, because the form has become fully electronic—completing, signing, and submitting—the amount of time it takes to complete the information collection has decreased from .5 hours to 0.25 hours, resulting in a further decrease in hourly burden to 1,676 hours.

As part of this renewal, ATF is also revising the title of the form and the ICR for plain writing purposes, from “Application for an Amended Federal Firearms License” to “Application to Amend Federal Firearms License” to make it easier to read. In addition, ATF is making minor plain writing edits to text on the form.

Public Comments

ATF did not receive comments on this information collection during the 60-day notice and comment period.
