The Defense Systems Management College (DSMC), established July 1, 1971, is a joint service educational institution, and is the largest school in the Defense Acquisition University. The mission of the College is to promote and support the adoption and practice of sound systems management principles by the acquisition workforce through education, research, and information dissemination.

In addition to a 14-week Advanced Program Management Course, DSMC's academic program consists of 25 other courses of 3 days to 4 weeks in duration; all with the purpose of educating DOD

acquisition professionals, military and civilian, in a broad spectrum of management activities through formal studies, simulation exercises, and case studies. Many of these courses are mandatory for certification in various career fields within Service acquisition corps. Individuals from Defense industry and other Federal agencies may attend DSMC courses on a space-available basis. In addition to the main campus located at Fort Belvoir, VA, courses are taught at the four regions of Boston, MA; Huntsville, AL; St. Louis, MO; and Los Angeles, CA; and at selected on-site locations on an as-requested basis.

The Joint Military Intelligence College (JMJC), previously the Defense Intelligence College, was established January 1, 1963. It is a joint service, educational institution operating under the authority of the Director of the Defense Intelligence Agency. The College's mission is to assist in the career development of military and civilian personnel who are assigned to intelligence functions or who are pursuing broad careers in intelligence.

The College offers the master of science of strategic intelligence (MSSI) degree program and two diploma programs: the Postgraduate Intelligence

Program (PGIP) and the Undergraduate Intelligence Program (UGIP). Students may enroll for full- or part-time study at the main campus located on Bolling Air Force Base. Part-time programs are also offered at JMJC's three satellite campuses at the National Air Intelligence Center, the National Security Agency, and the State Department. Two weekend programs are available as well; one is specifically for reservists and is taught by reserve faculty.

The Joint Military Intelligence College is accredited by the Middle States Association of Colleges and Schools.

The National Defense University was established by the Department of Defense on January 16, 1976, thereby merging the Industrial College of the Armed Forces and the National War College to form a university. Because the two senior service colleges are located at Fort Lesley J. McNair, Washington, DC,

their close affiliation reduces administrative costs, provides for the sharing of faculty expertise and educational resources, and promotes a constructive dialog, which benefits both colleges. On August 16, 1981, the Armed Forces Staff College in Norfolk, VA, an institution educating mid-career

officers, was incorporated into the National Defense University. This action united the Department of Defense's three joint colleges under one university and allowed coordination of the curricula and professional development of its students and the sharing of its resources.

The mission of the National Defense University is to ensure excellence in professional military education and research in the essential elements of national security.

The National War College provides education in national security policy to selected military officers and career civil service employees of Federal departments and agencies concerned with national security. It is the only senior service college with the primary mission of offering a course of study that emphasizes national security policy

formulation and the planning and implementation of national strategy.

Its 10-month academic program is an issue-centered study in U.S. national security. The elective program is designed to permit each student to tailor his academic experience to meet individual professional development needs.

The Industrial College of the Armed Forces is the Nation's leading educational institution for the study of the resources component of national power and its integration into national security strategy. The College prepares selected military and civilians for senior leadership positions by conducting postgraduate executive-level courses of

study and associated research. Its 10-month academic program is organized into two semesters: focusing on national security strategy and management of natural resources, respectively.

The Armed Forces Staff College (AFSC), a major component of the National Defense University, is an intermediate- and senior-level joint college in the professional military education system dedicated to the study of the principles, perspectives, and techniques of joint and combined operational planning and warfighting.

The mission of AFSC is to educate staff officers and other leaders in joint and

combined operational planning and warfighting to instill a primary commitment of joint teamwork, attitudes, and perspectives. The College accomplishes this mission through three schools: the Joint and Combined Warfighting School (JCWS), the Joint and Combined Staff Officer School (JCSOS), and the Joint Command, Control, and Electronic Warfare School (JCEWS).

JOHN M. CARABELLO

The Information Resources Management College (IRMC) was established on March 1, 1990, as a full college of the National Defense University. It provides graduate-level courses in information resources management. The College prepares senior DOD officials for joint management of the information resources component of national power and its integration with, and support to, national strategy.

The IRMC curriculum is designed to provide a forum where senior Defense professionals—interacting with the faculty—not only gain knowledge, qualifications, and competencies for

Defense IRM leadership, but contribute to the growth and excellence of the field itself. The premier offering of the college is the 16-week Advanced Management Program (AMP). AMP is supplemented by a number of advanced studies courses available to students in all colleges of the National Defense University. Additionally, the College offers a series of intensive courses related to specific problematic areas and emerging concepts of IRM, and special symposia, seminars, and workshops focusing on critical IRM issues and directions.

JAMES A. ZIMBLE, M.D.
VAL G. HEMMING, M.D., *Acting*

Authorized by act of September 21, 1972 (10 U.S.C. 2112), the Uniformed Services University of the Health Sciences was established to educate career-oriented medical officers for the Military Departments and the Public Health Service.

The University currently incorporates the F. Edward Hébert School of Medicine and graduate and continuing education programs. It is located on the National Naval Medical Center (NNMC) reservation in Bethesda, MD.

Students are selected by procedures recommended by the Board of Regents and prescribed by the Secretary of Defense. The actual selection is carried out by a faculty committee on

admissions and is based upon motivation and dedication to a career in the uniformed services and an overall appraisal of the personal and intellectual characteristics of the candidates without regard to sex, race, religion, or national origin. Applicants must be U.S. citizens. Matriculants will be commissioned officers in one of the uniformed services. They must meet the physical and personal qualifications for such a commission and must give evidence of a strong commitment to serving as a uniformed medical officer. The graduating medical student is required to serve a period of obligation of not less than 7 years, excluding graduate medical education.

For further information, contact the President, Uniformed Services University of the Health Sciences, 4301 Jones Bridge Road, Bethesda, MD 20814-4799. Phone, 301-295-3030.
