

Naval Doctrine Command The Commander, Naval Doctrine Command, is the primary authority for the development of naval concepts and integrated naval doctrine and is charged to:

- serve as coordinating authority for the development and evaluation of Navy service-specific doctrine;

- provide a coordinated Navy/Marine Corps naval voice in joint and combined doctrine development; and

- ensure that Navy, naval, and joint doctrine are addressed in training and education curricula and in operations, exercises, and wargames.

The United States Marine Corps was established on November 10, 1775, by resolution of the Continental Congress. Marine Corps composition and functions are detailed in 10 U.S.C. 5063, and its functions are performed as follows:

- The Marine Corps, within the Department of the Navy, is organized to include not less than three combat divisions and three aircraft wings, and such other land combat, aviation, and other services as may be organic therein.

- The Marine Corps is organized, trained, and equipped to provide Fleet Marine Forces of combined arms, together with supporting air components, for service with the fleet in the seizure or defense of advanced naval bases and for the conduct of such land operations as may be essential to the prosecution of a naval campaign.

- In addition, the Marine Corps provides detachments and organizations for service on armed vessels of the Navy, provides security detachments for the protection of naval property at naval stations and bases, and performs such other duties as the President may direct. However, these additional duties may not detract from or interfere with the operations for which the Marine Corps is primarily organized.

- The Marine Corps develops, in coordination with the Army and the Air Force, those phases of amphibious operations that pertain to the tactics,

techniques, and equipment used by landing forces.

- The Marine Corps is responsible, in accordance with integrated joint mobilization plans, for the expansion of peacetime components of the Marine Corps to meet the needs of war.

Organization The Marine Corps is composed of Headquarters, U.S. Marine Corps; the Operating Forces; and the Supporting Establishment. The Operating Forces consist of Fleet Marine Force Atlantic, Fleet Marine Force Pacific, Marine Corps Reserve, Marine Security Forces, and Marine Detachments Afloat. The supporting establishment includes recruiting activities, training installations, reserve support activities, ground and aviation installations, and logistics bases.

The Marine Corps deploys and employs for combat as Marine Air Ground Task Forces (MAGTF's). There are four types of MAGTF's: the Marine Expeditionary Force, the Marine Expeditionary Brigade, the Marine Expeditionary Unit, and the Special Purpose MAGTF. Each of these MAGTF's has a command element, a ground combat element, an aviation combat element, and a combat service support element. The size and specific organization of the MAGTF is determined by the task to be accomplished—task organization. For instance, Marine Expeditionary Units are routinely deployed on amphibious ships to the Mediterranean Sea, Persian Gulf,

and Pacific Ocean providing deterrence to aggressors and reassurance to our allies through their forward presence and unique crisis response capabilities. Larger MAGTF's can rapidly deploy by air, sea, or any combination of means from both coasts of the United States and forward bases in the Western Pacific to respond to contingencies worldwide.

The United States Naval Academy is the undergraduate college of the naval service. Through its comprehensive 4-year program, which stresses excellence in academics, physical education, professional training, conduct, and

honor, the Academy prepares young men and women morally, mentally, and physically to be professional officers in the Navy and Marine Corps. All graduates receive a bachelor of science degree in 1 of 18 majors.

For further information concerning the United States Naval Academy, contact the Superintendent, United States Naval Academy, Annapolis, MD 21402-5018.

Sources of Information

Astronomy The United States Naval Observatory provides the astronomical data and precise time required by the Navy and other components of the Department of Defense for navigation, precise positioning, and command, control, and communications. These data also are made available to other Government agencies and to the general public. To broaden the understanding of the mission, functions, and programs of the Naval Observatory, regular night tours and special group day tours are conducted. The night tours are open to the general public and are given every Monday night, except on Federal holidays. Information concerning activities of the observatory and public tours may be obtained by writing to the Superintendent, Naval Observatory, Washington, DC 20392-5100. Phone, 202-762-1538.

Civilian Employment Information about civilian employment opportunities within the Department of the Navy in the Washington, DC, metropolitan area can be obtained from the Office of Civilian Personnel Management, Northeast Region, Washington Detachment, 801 North Randolph Street, Arlington, VA 22203-1927 (phone, 703-696-4567); or the Commandant of the Marine Corps (ARCA), Headquarters, U.S. Marine Corps, Washington, DC 20380 (phone, 703-697-7474).

Consumer Activities Research programs of the Office of the Chief of Naval Research cover a broad spectrum of scientific fields, primarily for the needs of the Navy, but much information is of interest to the public. Inquiries on specific research programs should be directed to the Office of Naval Research, ONR (Code 10), 800 North Quincy Street, Arlington, VA 22217-5660.
