[For the Ballistic Missile Defense Organization statement of organization, see the *Code of Federal Regulations*, Title 32, Part 388]

The Ballistic Missile Defense Organization (formerly the Strategic Defense Initiative Organization) was established as a separate agency of the Department of Defense and is Presidentially chartered and mandated by Congress to develop ballistic missile defense systems that are capable of providing highly effective defense of the United States, forward-deployed and expeditionary elements of the U.S. Armed Forces, and allies of the United States.

The agency's mission is to manage and direct DOD's Ballistic Missile Defense acquisition programs, which

include theater missile defense, and to develop a national missile defense program for the United States. The agency also is responsible for the continuing research and development of follow-on technologies that are relevant for long-term ballistic missile defense. These programs will build a technical foundation for evolutionary growth in future ballistic missile defenses. In developing these programs, the agency utilizes the services of the Military Departments, the Department of Energy, private industries, and educational and research institutions.

The Defense Advanced Research Projects Agency is a separately organized agency within the Department of Defense under a Director appointed by the Secretary of Defense. The Agency, under the authority, direction, and control of the Director of Defense Research and Engineering (DDR&E), engages in advanced basic and applied research and development projects essential to the Department of Defense, and conducts prototype projects that embody technology that may be incorporated into joint programs, programs in support of deployed U.S. forces, selected Military Department programs, or dual-use programs and, on request, assists the Military Departments in their research and development efforts.

In this regard, the Agency arranges, manages, and directs the performance of work connected with assigned advanced projects by the Military Departments, other government agencies, individuals, private business entities, and educational or research institutions, as appropriate; recommends through the DDR&E to the Secretary of Defense assignment of advanced projects to the Agency; keeps the DDR&E, the Chairman of the Joint Chiefs of Staff, the Military Departments, and other Department of Defense agencies informed on significant new developments and technological advances within assigned projects; and performs other such functions as the Secretary of Defense or the DDR&E may assign.

For further information, contact the Defense Advanced Research Projects Agency, 3701 North Fairfax Drive, Arlington, VA 22203-1714. Phone, 703-696-2444.
