

The Agency is organized into a headquarters and a Field Command. Its Field Command operates the Defense Nuclear Weapons School and manages the Johnston Atoll in the Pacific, the site of the Army's Chemical Agent Demilitarization System.

The Agency's mission includes nuclear weapons stockpile management, Cooperative Threat Reduction Program support, nuclear weapon effects research, and arms control and counterproliferation support. Its research helps ensure U.S. forces are prepared to operate on future battlefields in which opponents may possess conventional, nuclear, biological, or chemical capabilities.

The Agency maintains the Department of Defense nuclear weapons stockpile and its associated reporting system, ensuring its reliability, safety, and security through training, inspections, and research. Additionally, DNA provides emergency response support and planning assistance for nuclear weapons accidents or improvised nuclear device incidents.

The Agency manages and implements the Cooperative Threat Reduction Program to assist the Newly Independent States of the Former Soviet Union in the safe, secure dismantlement of nuclear, chemical, and other weapons.

Through the use of simulators and computer models, DNA retains the

scientific expertise and develops data necessary to ensure advanced conventional systems, nuclear systems, and command and control assets will continue to operate in potential nuclear environments. This expertise is also used to provide commanders options for effective targeting against underground or hardened structures as well as enhanced battle damage assessment capabilities.

The Agency develops arms control treaty verification technologies that might be used in on-site inspections. Agency counterproliferation efforts are concentrated on technology base development and acquisition strategy development.

Defense Security Assistance Agency

The Pentagon, Washington, DC 22202
Phone, 703-604-6513

Director
Deputy Director

LT. GEN. THOMAS G. RHAME, USA
H. DIEHL MCKALIP

The Defense Security Assistance Agency was established on September 1, 1971, by DOD Directive 5105.38, dated August 11, 1971.

The Agency directs, administers, and supervises the execution of approved security assistance plans and programs, such as military assistance, international

military education and training, and foreign military sales. In so doing, it

works closely with the U.S. Security Assistance offices worldwide.

For further information, contact the Defense Security Assistance Agency, The Pentagon, Washington, DC 22202. Phone, 703-604-6513.

National Security Agency/Central Security Service

Director

LT. GEN. KENNETH A. MINIHAN,
USAF

Deputy Director

WILLIAM P. CROWELL

The National Security Agency/Central Security Service is responsible for the centralized coordination, direction, and performance of highly specialized technical functions in support of U.S. Government activities to protect U.S. communications and produce foreign intelligence information. The National Security Agency was established by Presidential directive in 1952 as a separately organized Agency within the Department of Defense. In this directive, the President designated the Secretary of Defense as Executive Agent for the signals intelligence and communications security activities of the Government. The Agency was charged with an additional mission, computer security, in a 1984 Presidential directive, and with an operations security training mission in a 1988 Presidential directive.

In 1972 the Central Security Service was established, in accordance with a Presidential memorandum, to provide a more unified cryptologic organization within the Department of Defense and appointed the Director, National Security Agency, as Chief of the Central Security Service.

The Agency has two primary missions: an information systems security mission and a foreign intelligence information mission. To accomplish these missions, the Director has been assigned the following responsibilities:

- prescribing certain security principles, doctrines, and procedures for the U.S. Government;
- organizing, operating, and managing certain activities and facilities for the production of foreign intelligence information;
- organizing and coordinating the research and engineering activities of the U.S. Government that are in support of the Agency's assigned functions;
- regulating certain communications in support of Agency missions; and
- operating the National Computer Security Center in support of the Director's role as national manager for telecommunications security and automated information systems security.

Executive Order 12333 of December 4, 1981, describes in more detail the responsibilities of the National Security Agency.

For further information, contact the Public Affairs Office, National Security Agency/Central Security Service, Fort Meade, MD 20755-6000. Phone, 301-688-6524.
