The Department of Education establishes policy for, administers, and coordinates most Federal assistance to education. Its mission is to ensure equal access to education and to promote educational excellence throughout the Nation.

The Department of Education was created by the Department of Education Organization Act (20 U.S.C. 3411). The Department is administered under the supervision and direction of the Secretary of Education.

Office of the Secretary

Secretary The Secretary of Education advises the President on education plans, policies, and programs of the Federal Government. The Secretary also serves as the Chief Executive Officer of the Department, coordinating and overseeing all Department activities, providing support and encouragement to States and localities on matters related to education, and focusing the resources of the Department and the attention of the country on ensuring equal access to education and promoting educational excellence throughout the Nation. The Deputy Secretary, the Under Secretary, the Assistant Secretaries, the Inspector General, the General Counsel, and the Chief Financial Officer are the principal officers who assist the Secretary in the overall management of the Department.

Activities

Bilingual Education The Office of Bilingual Education and Minority Languages Affairs administers programs designed to fund activities that assist students with limited English proficiency. The Office administers the discretionary grant competition for 12 grant programs established by law and 2 formula grant programs under the Immigrant Education Program. The Office also administers contracts for research and evaluation, technical assistance, and clearinghouse

activities to meet the special educational needs of populations with limited English proficiency.

Civil Rights The Assistant Secretary for Civil Rights is responsible for ensuring that institutional recipients of Federal financial assistance do not discriminate against American students, faculty, or other individuals on the basis of race, color, national origin, sex, handicap, or age.

Elementary and Secondary Education The Assistant Secretary for Elementary and Secondary Education formulates policy for, directs, and coordinates the Department's activities relating to preschool, elementary, and secondary education. Included are grants and contracts to State educational agencies and local school districts, postsecondary schools, and nonprofit organizations for State and local reform, compensatory, migrant, and Indian education; drug-free schools; other school improvement programs; and impact aid.

Educational Research and Improvement The Assistant Secretary for Educational Research and Improvement provides national leadership in expanding fundamental knowledge and improving the quality of education. This Office is responsible for conducting and supporting education-related research activities; monitoring the state of education through the collection and analysis of statistical data; promoting the use and application of research and development to improve instructional practices in the classroom; and disseminating these findings and providing technical assistance for specific problems at school sites.

DEPARTMENT OF EDUCATION

Vocational and Adult Education The Assistant Secretary for Vocational and Adult Education administers grant, contract, and technical assistance programs for vocational-technical education and for adult education and literacy. The Office is also responsible for coordinating these programs with other Education Department and Federal programs supporting services and research for adult education, literacy, and occupational training.

Special Education and Rehabilitative Services The Assistant Secretary for Special Education and Rehabilitative Services is responsible for special education programs and services expressly designed to meet the needs and develop the full potential of children with disabilities; and comprehensive rehabilitation service programs specifically designed to reduce human dependency, to increase self-reliance, and to fully utilize the productive capabilities of all persons with disabilities. Programs include support for training of teachers and other professional personnel; grants for research; financial aid to help States initiate, expand, and improve their resources; and media services and captioned films for hearing-impaired persons.

Postsecondary Education The Assistant Secretary for Postsecondary Education formulates policy and directs and

coordinates programs for assistance to postsecondary educational institutions and students pursuing a postsecondary education. Programs include assistance for the improvement and expansion of American educational resources for international studies and services, grants to improve instruction in crucial academic subjects, and construction assistance for academic facilities. Also included are programs of student financial assistance, including Pell Grants, Supplemental Educational Opportunity Grants, Grants to States for State Student Incentives, Work-Study, Federal Direct Student Loans, Stafford Loans, Parent Loans for Undergraduate Students (PLUS), Supplemental Loans for Students (SLS), Consolidation Loans, and Perkins Loans.

Administration and implementation of the Federal Direct Loan Program is under the authority of the Senior Adviser to the Secretary through September 30, 1996.

Regional Offices Each regional office serves as a center for the dissemination of information and provides technical assistance to State and local educational agencies and other institutions and individuals interested in Federal education activities. Offices are located in Atlanta, GA; Boston, MA; Chicago, IL; Dallas, TX; Denver, CO; Kansas City, MO; New York, NY; Philadelphia, PA; San Francisco, CA; and Seattle, WA.

The Columbia Institution for the Instruction of the Deaf and Dumb, and the Blind was incorporated by act of February 16, 1857 (11 Stat. 161). An amendatory act of February 23, 1865 (13 Stat. 436), changed the name to the Columbia Institution for the Instruction of the Deaf and Dumb. The name was subsequently changed to Columbia Institution for the Deaf by act of March 4, 1911 (36 Stat. 1422). The act of June 18, 1954 (20 U.S.C. 691 *et seq.*), changed its name to Gallaudet College. The Education of the Deaf Act of 1986 (20 U.S.C. 4301) changed the name to Gallaudet University.

Gallaudet University was established to provide a liberal higher education for deaf persons who need special facilities to compensate for their loss of hearing. The primary purpose of the university is to afford its students the intellectual and spiritual development that can be acquired through a study of the liberal arts and sciences.

In addition to its undergraduate program, the University operates a graduate program at the master's level to prepare teachers and other professional personnel to work with persons who are deaf, a research program focusing on problems related to deafness, and continuing education for deaf adults.

Accreditation Gallaudet University is accredited by the Middle States Association of Colleges and Secondary Schools, the National Council for Accreditation of Teacher Education, and the Council on Social Work Education. Model Secondary School for the Deaf The school was established by act of October 15, 1966 (20 U.S.C. 693), when the Department of Health, Education, and Welfare entered into an agreement with Gallaudet College for the establishment and operation, including construction, of such a facility. It was established as an exemplary educational facility for deaf students of high school age from the District of Columbia, Maryland, Virginia, West Virginia, Pennsylvania, Delaware, and the rest of the Nation on a space-available basis. The school's mission is to provide maximum flexibility in curricula and to encourage the originality, imagination, and innovation needed to satisfy deaf students' high aspirations.

The objectives of the school are to provide day and residential facilities for deaf youth of high school age, in order to prepare some for college and other advanced study and to provide terminal education for others; to prepare all students to the maximum extent possible to be independent, contributing

members of society; and to stimulate the development of similar programs throughout the Nation.

Kendall Demonstration Elementary School The School became the Nation's first demonstration elementary school for the deaf by act of December 24, 1970 (20 U.S.C. 695), which authorized Gallaudet College to operate and maintain it as a model that will

experiment in techniques and materials, and to disseminate information from these and future projects to educational facilities for deaf children throughout the country. The School is located on the campus of Gallaudet University and now serves approximately 200 students.

The National Technical Institute for the Deaf (NTID) was established by act of June 8, 1965 (20 U.S.C. 681), and after several years of planning, programs began in 1968. Funded primarily through the Department of Education, it is an integral part of a larger institution known as the Rochester Institute of Technology (RIT).

The presence of NTID at RIT is the first effort to educate large numbers of deaf students within a college campus planned primarily for hearing students. Unique in the world, NTID is a vital part of RIT's main 1,300-acre campus in suburban Rochester, NY. It provides educational opportunities for qualified students from every State in the Nation and, through educational outreach, publications, and related service, serves deaf persons throughout the world. In addition, NTID conducts research to better understand the role of deafness in education and employment, and to develop innovative teaching techniques. It develops training activities for its faculty and staff, as well as for other professionals working with deaf persons across the country.

One of the major reasons for NTID's success in helping deaf students join the mainstream of American life is its close working relationship with other RIT colleges in developing career-oriented programs of study. One of RIT's main

strengths over the years has been its ability to adapt its educational programs to technological and social change, and NTID helps keep that tradition alive. It has served more than 7,000 deaf students since 1968.

Deaf graduates from RIT have found employment throughout the Nation or have moved on to advanced academic studies. Of those who pursued employment, more than 90 percent have been placed in jobs; 93 percent in jobs commensurate with their educational preparation. Of those employed, 80 percent work in business and industry, more than 11 percent in government, and the remainder in education.

The Institutes accept applications from U.S. residents, as well as a limited number of international students. An overall eighth grade achievement level or above is required, and, except under special circumstances, an applicant must have completed a secondary program. An applicant also must show evidence of need for special services because of hearing loss and have an unaided better ear average of 70dB ISO. International applicants generally are required to take the Test of English as a Foreign Language (TOEFL) and must provide documentation of availability of financial resources to meet the full cost of attending RIT. References are requested.

Both Institutes are accredited by the Middle States Association of Colleges

and Secondary Schools. Rochester Institute of Technology also has been accredited by the Engineers' Council for Professional Development, National Association of Schools of Art, Committee on Professional Training of American Chemical Society, Council on Social Work Education, and the National

Accrediting Agency for Clinical Laboratory Sciences.
