

development proposed by Federal, State, local, and regional agencies.

Plan and Program Review The Commission's plan and program review function consists of reviewing plans and programs proposed by Federal, State, regional, and local agencies or jurisdictions in the National Capital region. This function provides the Commission with an opportunity to coordinate plan and program proposals.

Following this review the Commission, with regard to certain types of projects, provides the sponsoring agency with comments and recommendations. Approval by the Commission must be obtained prior to construction of Federal public buildings in the District of Columbia and District of Columbia buildings in the central area of the District.

Each Federal or District project comes to the Commission for review at several stages. The first submission by an agency may be a master plan for an entire installation or facility. Plans for construction of individual projects implementing a master plan are submitted to the Commission at both the preliminary and the final stages.

Federal Capital Improvements Programming Another comprehensive planning activity is the preparation, adoption, and updating of the Five-Year Federal Capital Improvements Program, a "budget" schedule for Federal physical improvements throughout the National Capital region. It is prepared by the Commission in order to systematically review proposed Federal agency projects with regard to timing, location, and financing, and to coordinate agency

development plans throughout the region.

A Federal Capital budget represents the first year of the 5-year program and consists of capital outlay requests for the region contained in the President's fiscal year Federal budget transmitted to Congress. The program for the second through fifth years incorporates Commission recommendations to Federal agencies and the Office of Management and Budget for subsequent budget submissions to Congress.

Additional Activities Other Commission responsibilities include review of all proposed zoning regulations, map changes, and amendments to the District of Columbia zoning ordinance in order to ensure consistency of zoning regulations with Federal interests and with the Comprehensive Plan.

The Commission also:

- adopts urban renewal area boundaries;
- prepares, adopts, and modifies urban renewal plans;
- approves the Permanent System of Highways Plan;
- recommends proposed street and alley closings;
- approves transfers of jurisdiction between Federal and District agencies;
- approves the sale of surplus property and park land; and
- acquires land for parks and parkways in the National Capital region.

The Commission serves the entire National Capital region by coordinating Federal planning and development with the planning activities of State, local, and regional agencies and jurisdictions.

The National Credit Union Administration Board is responsible for chartering, insuring, supervising, and examining Federal credit unions and administering the National Credit Union Share Insurance Fund. The Board also manages the Central Liquidity Facility, a mixed-ownership Government corporation whose purpose is to supply emergency loans to member credit unions.

The National Credit Union Administration was established by act of March 10, 1970 (12 U.S.C. 1752), and reorganized by act of November 10, 1978 (12 U.S.C. 226), as an independent agency in the executive branch of the Federal Government. It regulates and insures all Federal credit unions and insures State-chartered credit unions that apply and qualify for share insurance.

Activities

Chartering The Administration's Board grants Federal credit union charters to groups sharing a common bond of occupation or association, or groups within a well-defined neighborhood, community, or rural district. A preliminary investigation is made to determine if certain minimum standards are met before granting a Federal charter.

For further information, contact the appropriate regional office listed in the table below.

Supervision Supervisory activities are carried out through annual examiner contacts and through periodic policy and regulatory releases from the Administration. The Administration also maintains a warning system designed to identify emerging problems as well as to monitor operations between examinations.

Examinations The Administration conducts annual examinations of Federal credit unions to determine their solvency and compliance with laws and regulations and to assist credit union management and operations.

For further information, contact the Director, Office of Examination and Insurance. Phone, 703-518-6360.

Share Insurance The act of October 19, 1970 (12 U.S.C. 1781 *et seq.*), provides for a program of share insurance. The insurance is mandatory for Federal credit unions and for State-chartered credit unions in many States and is optional for other State-chartered

credit unions that meet Administration standards. Credit union members' accounts are insured up to \$100,000. The National Credit Union Share Insurance Fund requires each insured credit union to place and maintain a 1-

percent deposit of its insured savings with the Fund.

For further information, contact the Director, Office of Examination and Insurance. Phone, 703-518-6360.
