Phone, 202-208-0055. Internet, www.ferc.fed.us.

Chair

JAMES J. HOECKER

The Department of Energy, in partnership with its customers, is entrusted to contribute to the welfare of the Nation by providing the technical information and the scientific and educational foundation for the technology, policy, and institutional leadership necessary to achieve efficiency in energy use, diversity in energy sources, a more productive and competitive economy, improved environmental quality, and a secure national defense.

The Department of Energy (DOE) was established by the Department of Energy Organization Act (42 U.S.C. 7131), effective October 1, 1977, pursuant to Executive Order 12009 of September 13, 1977. The act consolidated the major Federal energy functions into one Cabinet-level Department.

Secretary The Secretary decides major energy policy and planning issues; acts as the principal spokesperson for the Department; and ensures the effective communication and working relationships with Federal, State, local, and tribal governments and the public. The Secretary is the principal adviser to the President on energy policies, plans, and programs.

Counterintelligence The Office of Counterintelligence develops and implements an effective counterintelligence program to identify, neutralize, and deter foreign government or industrial intelligence activities directed at or involving Department programs, personnel, facilities, technologies, classified information, and sensitive information. The Office approves, conducts, and coordinates all policy and investigative matters with the Federal Bureau of Investigation.

For further information, contact the Office of Counterintelligence. Phone, 202-586-5901.

Defense Nuclear Facilities Safety Board Liaison The Office of the Departmental

Representative to the Defense Nuclear Facilities Safety Board (DNFSB) manages the Department's interaction with DNFSB as mandated by law, including achievement of the mutual goal of ensuring protection of public and employee health and safety and the environment by appropriate and timely resolution of DNFSB recommendations and concerns.

For further information, contact the Departmental Representative to the Defense Nuclear Facilities Safety Board. Phone, 202-586-3887.

Intelligence The Office of Intelligence ensures that departmental intelligence information requirements are met and that the Department's technical, analytical, and research expertise is made available to support U.S. intelligence efforts. The Office ensures effective use of the U.S. Government's intelligence apparatus in support of the Department of Energy's needs for information on global nuclear weapons development, nonproliferation, and foreign hydrocarbon, nuclear, and other energy production and consumption.

For further information, contact the Office of Intelligence. Phone, 202-586-2610.

Security and Emergency Operations The Office of Security and Emergency Operations develops and promulgates all safeguards and security policy and is responsible for cybersecurity and
