The Department of Veterans Affairs operates programs to benefit veterans and members of their families. Benefits include compensation payments for disabilities or death related to military service; pensions; education and rehabilitation; home loan guaranty; burial; and a medical care program incorporating nursing homes, clinics, and medical centers.

The Department of Veterans Affairs (VA) was established as an executive department by the Department of Veterans Affairs Act (38 U.S.C. 201 note). It is comprised of three organizations that administer veterans programs: the Veterans Health Administration, the Veterans Benefits Administration, and the National Cemetery Administration. Each organization has field facilities and a central office component.

Activities

Cemeteries The National Cemetery Administration (NCA) provides services to veterans, active duty personnel, and reservists and National Guard members with 20 years' qualifying service and their families by operating national cemeteries; furnishing headstones and markers for the unmarked graves of U.S. veterans worldwide, service members, and reservists and National Guard members with 20 years' qualifying service; awarding grants to aid States in establishing, improving, and expanding

veterans cemeteries; and serving as the operations element for the Presidential Memorial Certificate Program.

Center for Minority Veterans The Center for Minority Veterans was established under Public Law 103-446 (108 Stat. 4645) and is responsible for promoting the use of VA benefits, programs, and services by minority veterans and assessing the needs of minority group members. The work of the Center focuses on the unique and special needs of five distinct groups of veterans: African-Americans, Hispanics, Asian-Americans, Pacific Islanders, and Native Americans, which include American Indians, Native Hawaiians, and Alaskan Natives.

Center for Women Veterans The Center for Women Veterans acts as the Secretary's primary adviser on women veterans issues and evaluates VA programs, policies, and practices to ensure they are responsive and accessible to eligible women veterans.

Health Services The Veterans Health Administration, formerly the Veterans Health Services and Research

Administration, provides hospital, nursing home, and domiciliary care, and outpatient medical and dental care to eligible veterans of military service in the Armed Forces. It conducts both individual medical and health-care delivery research projects and multihospital research programs, and it assists in the education of physicians and dentists and with training of many other health care professionals through affiliations with educational institutions and organizations.

Veterans Benefits The Veterans Benefits Administration provides information, advice, and assistance to veterans, their dependents, beneficiaries, representatives, and others applying for VA benefits. It also cooperates with the Department of Labor and other Federal, State, and local agencies in developing employment opportunities for veterans and referral for assistance in resolving socioeconomic, housing, and other related problems.

The Compensation and Pension Service is responsible for claims for disability compensation and pension, specially adapted housing, accrued benefits, adjusted compensation in death cases, and reimbursement for headstone or marker; allowances for automobiles and special adaptive equipment; special clothing allowances; emergency officers' retirement pay; survivors' claims for death compensation, dependency and indemnity compensation, death pension, and burial and plot allowance claims; forfeiture determinations; and a benefits protection program for minors and incompetent adult beneficiaries.

The Education Service is responsible for the Montgomery GI Bill, assistance programs for dependents, post-Vietnam era veterans, and other pilot programs, school approvals, compliance surveys, and work study programs.

Life insurance operations for the benefit of service members, veterans, and their beneficiaries are available through the regional office and insurance center (phone, 800-669-8477) in Philadelphia, PA, which provides the full range of functional activities necessary for a national life insurance program. Activities include the complete

maintenance of individual accounts, underwriting functions, life and death insurance claims awards, and any other insurance-related transactions. The agency also administers the Veterans Mortgage Life Insurance Program for those disabled veterans who receive a VA grant for specially adapted housing; the Servicemen's Group Life Insurance Program; and the Veterans Group Life Insurance Program.

Loan guaranty operations include appraising properties to establish their values; approving grants for specially adapted housing; supervising the construction of new residential properties; establishing the eligibility of veterans for the program; evaluating the ability of a veteran to repay a loan and the credit risk; making direct loans to Native American veterans to acquire a home on trust land; servicing and liquidating defaulted loans; and disposing of real estate acquired as the consequence of defaulted loans.

The Vocational Rehabilitation Service is responsible for outreach, motivation, evaluation, counseling, training, employment, and other rehabilitation services to disabled veterans; evaluation, counseling, and miscellaneous services to veterans and service persons and other VA education programs; evaluation, counseling, education, and miscellaneous services to sons, daughters, and spouses of totally and permanently disabled veterans and to surviving orphans, widows, or widowers of certain deceased veterans, including rehabilitation services to certain handicapped dependents; affirmative action activities; and vocational training and rehabilitation to children with spina bifida who are children of Vietnam veterans.

Veterans' Appeals The Board of Veterans' Appeals (BVA) is responsible for entering the final appellate decisions in claims of entitlement to veterans' benefits and for deciding matters concerning fees charged by attorneys and agents for representation of veterans before VA and requests for revision of prior BVA decisions on the basis of clear and unmistakable error. Final Board

decisions are appealable to the U.S. Court of Appeals for Veterans Claims.

Field Facilities The Department's operations are handled through the following field facilities:

—cemeteries, the final resting places for burial of the remains of veterans, active duty personnel, and reservists and National Guard members with 20 years' qualifying service; their spouses; and certain eligible dependents;

—domiciliaries, providing the least intensive level of inpatient medical care including necessary ambulatory medical treatment, rehabilitation, and support services in a structured environment to veterans who are unable because of their disabilities to provide adequately for themselves in the community;

—medical centers, providing eligible beneficiaries with medical and other health care services equivalent to those provided by private-sector institutions,

augmented in many instances by services to meet the special requirements of veterans;

—outpatient clinics to provide eligible beneficiaries with ambulatory care; and

—regional offices to grant benefits and services provided by law for veterans, their dependents, and beneficiaries within an assigned territory; furnish information regarding VA benefits and services; adjudicate claims and making awards for disability compensation and pension; supervise payment of VA benefits to incompetent beneficiaries; provide vocational rehabilitation and employment training; administer educational benefits; guarantee loans for purchase, construction, or alteration of homes; process grants for specially adapted housing; process death claims; and assist veterans in exercising rights to benefits and services.
