Deputy Under Secretary	BENJAMIN H. WU
Assistant Secretary for Technology Policy	BRUCE P. MEHLMAN
Director, National Institute of Standards and Technology	ARDEN L. BEMENT, JR.
Director, National Technical Information Service	RONALD E. LAWSON

The Department of Commerce encourages, serves, and promotes the Nation's international trade, economic growth, and technological advancement. The Department provides a wide variety of programs through the competitive free enterprise system. It offers assistance and information to increase America's competitiveness in the world economy; administers programs to prevent unfair foreign trade competition; provides social and economic statistics and analyses for business and government planners; provides research and support for the increased use of scientific, engineering, and technological development; works to improve our understanding and benefits of the Earth's physical environment and oceanic resources; grants patents and registers trademarks; develops policies and conducts research on telecommunications; provides assistance to promote domestic economic development; and assists in the growth of minority businesses.

The Department was designated as such by act of March 4, 1913 (15 U.S.C. 1501), which reorganized the Department of Commerce and Labor, created by act of February 14, 1903 (15 U.S.C. 1501), by transferring all labor activities into a new, separate Department of Labor.

Office of the Secretary

Secretary The Secretary is responsible for the administration of all functions and authorities assigned to the Department of Commerce and for advising the President on Federal policy and programs affecting the industrial and commercial segments of the national economy. The Secretary is served by the

DEPARTMENT OF COMMERCE

offices of Deputy Secretary, Inspector General, General Counsel, and the Assistant Secretaries of Administration, Legislative and Intergovernmental Affairs, and Public Affairs. Other offices whose public purposes are widely administered are detailed below.

Business Liaison The Office of Business Liaison directs the business community to the offices and policy experts who can best respond to their needs by promoting proactive, responsive, and

effective outreach programs and relationships with the business community. It also informs the Secretary and Department officials of the critical issues facing the business community, informs the business community of Department and administration initiatives and priorities, as well as information regarding Department resources, policies, and programs, and provides general assistance to the business community.

For further information, call 202-482-1360.

Economics and Statistics Administration

The Under Secretary for Economic Affairs advises the Secretary and other Government officials on matters relating to economic developments and forecasts and on the development of macroeconomic and microeconomic policy. The Under Secretary, as Administrator of the Economics and Statistics Administration, exercises general supervision over the Bureau of the Census and the Bureau of Economic Analysis.

Current economic data are available to the public through the STAT-USA Web site (Internet, www.stat-usa.gov), the National Trade Data Bank, and the Economic Bulletin Board.

Bureau of the Census

[For the Bureau of the Census statement of organization, see the *Federal Register* of Sept. 16, 1975, 40 FR 42765]

The Bureau of the Census was established as a permanent office by act of March 6, 1902 (32 Stat. 51). The major functions of the Bureau are authorized by the Constitution, which provides that a census of population shall be taken every 10 years, and by laws codified as title 13 of the United States Code. The law also provides that the information collected by the Bureau from individual persons, households, or establishments be kept strictly confidential and be used only for

statistical purposes. The Bureau is responsible for:

- the decennial censuses of population and housing;
- the quinquennial censuses of State and local governments, manufacturers, mineral industries, distributive trades, construction industries, and transportation;
- current surveys that provide information on many of the subjects covered in the censuses at monthly, quarterly, annual, or other intervals;
- compilation of current statistics on U.S. foreign trade, including data on imports, exports, and shipping;
- special censuses at the request and expense of States and local government units;
- publication of estimates and projections of the population;
- publication of current data on population and housing characteristics; and
- current reports on manufacturing, retail and wholesale trade, services, construction, imports and exports, State and local government finances and employment, and other subjects.

The Bureau makes available statistical results of its censuses, surveys, and other programs to the public through printed reports, computer tape, CD-ROM's, the Internet, and other media and prepares special tabulations sponsored and paid for by data users. It also produces statistical compendia, catalogs, guides,

and directories that are useful in locating information on specific subjects. Upon request, the Bureau makes searches of decennial census records and furnishes certificates to individuals for use as

evidence of age, relationship, or place of birth. A fee is charged for searches.

For further information, contact the Human Resources Division, Bureau of the Census, Department of Commerce, Washington, DC 20233. Phone, 301-763-INFO(4636). Fax, 301-457-1906.

Bureau of Economic Analysis

[For the Bureau of Economic Analysis statement of organization, see the *Federal Register* of Dec. 29, 1980, 45 FR 85496]

The Bureau of Economic Analysis (BEA) is the Nation's economic accountant, integrating and interpreting a variety of source data to draw a complete and consistent picture of the U.S. economy. Its economic accounts provide information on such key issues as economic growth, regional development, and the Nation's position in the world economy.

The national income and product accounts, featuring the gross domestic product, provide a quantitative view of the production, distribution, and use of the Nation's output. The Bureau also prepares estimates of the Nation's

tangible wealth and input-output tables that show how industries interact.

The regional economic accounts provide estimates of personal income, population, and employment for regions, States, and metropolitan areas. The Bureau also prepares estimates of gross State product.

The international economic accounts encompass U.S. international transactions (balance of payments) with foreign countries and the international investment position of the United States. The Bureau provides survey-based data on foreign direct investment in the U.S. and U.S. direct investment abroad.

For further information, contact the Public Information Office, Bureau of Economic Analysis, Department of Commerce, Washington, DC 20230. Phone, 202-606-9600. Fax, 202-606-5310.

For further information, contact the Economics and Statistics Administration, Department of Commerce, Washington, DC 20230. Phone, 202-482-3727.

Bureau of Industry and Security

[For the Bureau of Export Administration statement of reorganization citing their official change of Agency name, see the *Federal Register* of April 26, 2002, 67 FR 20630]

The mission of the Bureau of Industry and Security (formerly the Bureau of Export Administration) is to advance U.S. national security, foreign policy, and economic interests. It's activities include regulating the export of sensitive goods and technologies in an effective and efficient manner; enforcing export control, anti-boycott, and public safety laws; cooperating with and assisting other countries on export control and strategic trade issues; assisting U.S. industry to comply with international arms control agreements; monitoring the viability of the U.S. defense industrial base; and promoting Federal initiatives and public-private partnerships across industry sectors to protect the Nation's critical infrastructures.

Export Administration The Office of Export Administration is responsible for export licenses, treaty compliance, treaty obligations relating to weapons of mass destruction, and the defense industrial and technology base. The primary objectives are to determine the items requiring export licenses for reasons of national security, nonproliferation, foreign policy, and short supply; ensure that approval or denial is consistent with economic and security concerns; act as the liaison with the business community to ensure its compliance with regulations; represent the Department in interagency and international fora relating to export controls; ensure the availability of industrial resources for national defense under the authority of the Defense Production Act; and assess the security consequences for the United States of various trade activities.

Export Enforcement The Office of Export Enforcement enforces dual-use

export controls for reasons of national security, nonproliferation, counterterrorism, foreign policy, and short supply, enabling exporters to take advantage of legal export opportunities while ensuring that illegal exports will be detected and either prevented or investigated and sanctioned. The Office also ensures prompt, aggressive action against restrictive trade practices such as boycotts; reviews visa applications of foreign nationals to prevent illegal technology transfers, and conducts cooperative enforcement activities on an international basis.

Nonproliferation and Export Control The Nonproliferation and Export Control Office provides technical assistance to strengthen the export and transit control systems of nations lacking effective systems that are identified as potential locations for export or transit of nuclear, chemical, biological, or radiological weapons, missile delivery systems, or the commodities, technologies, or equipment that could be used to design or build such weapons or their delivery systems.

Critical Infrastructure Assurance The Critical Infrastructure Assurance Office works with Government agencies and the private sector in developing a plan to reduce the exposure to attack of the nation's crucial infrastructures and, if necessary, to respond to an attack and reinvigorate damaged or destroyed critical infrastructures. The Office also develops and implements a methodology to assist civilian departments and agencies to identify infrastructure dependencies and interdependencies that are required for them to perform missions essential to national defense, economic security, and public health, safety, and welfare.

Economic Development Administration

The Economic Development Administration (EDA) was created in 1965 under the Public Works and Economic Development Act (42 U.S.C. 3121) as part of an effort to target Federal resources to economically distressed areas and to help develop local economies in the United States. It was mandated to assist rural and urban communities that were outside the mainstream economy and that lagged in economic development, industrial growth, and personal income.

The Administration provides grants to States, regions, and communities to help create wealth and minimize poverty by promoting a favorable business environment to attract capital investment and higher skill, higher wage jobs through capacity building, planning, infrastructure, research grants, and strategic initiatives. Through its grants programs, the Administration utilizes public sector resources to leverage investment by the private sector to foster an environment where the private sector risks capital and job opportunities are created.

Public works and development facilities grants support infrastructure projects that foster the establishment or expansion of industrial and commercial

businesses, supporting the retention and creation of jobs.

Planning grants support the design and implementation of effective economic development policies and programs, by local development organizations, in States and communities. EDA funds a network of over 300 planning districts throughout the country.

Technical assistance provide for local feasibility and industry studies, management and operational assistance, natural resource development, and export promotion. In addition, EDA funds a network of university centers that provides technical assistance.

Research, evaluation, and demonstration funds are used to support studies about the causes of economic distress and to seek solutions to counteract and prevent such problems.

Economic adjustment grants help communities adjust to a gradual erosion or sudden dislocation of their local economic structure.

The Trade adjustment assistance helps U.S. firms and industries injured as the result of trade agreements. A nationwide network of trade adjustment assistance centers offers low-cost, effective professional assistance to certified firms in developing and implementing recovery strategies.

International Trade Administration

[For the International Trade Administration statement of organization, see the *Federal Register* of Jan. 25, 1980, 45 FR 6148]

The International Trade Administration was established on January 2, 1980, by the Secretary of Commerce to promote world trade and to strengthen the international trade and investment position of the United States.

The Administration is headed by the Under Secretary for International Trade, who coordinates all issues concerning trade promotion, international commercial policy, market access, and trade law enforcement. The Administration is responsible for nonagricultural trade operations of the U.S. Government and supports the trade policy negotiation efforts of the U.S. Trade Representative.

Imports The Office of the Assistant Secretary for Import Administration

defends American industry against injurious and unfair trade practices by administering efficiently, fairly, and in a manner consistent with U.S. international trade obligations the antidumping and countervailing duty laws of the United States. The Office ensures the proper administration of foreign trade zones and advises the Secretary on establishment of new zones; and administers programs governing watch assemblies, and other statutory import programs.

Market Access and Compliance The Office of the Assistant Secretary for Market Access and Compliance advises on the analysis, formulation, and implementation of U.S. international economic policies and carries out programs to promote international trade, improve access by U.S. companies to overseas markets, and strengthen the

international trade and investment position of the United States. The Office analyzes and develops recommendations for region- and country-specific international economic, trade, and investment policy strategies and objectives. In addition, the Office is responsible for implementing, monitoring, and enforcing foreign compliance with bilateral and multilateral trade agreements.

Trade Development The Office of the Assistant Secretary for Trade Development advises on international trade and investment policies pertaining to U.S. industrial sectors, carries out programs to strengthen domestic export competitiveness, and promotes U.S. industry participation in international markets. The Office manages an integrated trade development program that includes industry analysis, major

projects, advocacy support, and trade assistance organized by industry sectors.

U.S. and Foreign Commercial Service

The U.S. and Foreign Commercial Service develops, produces, markets, and manages an effective line of high-quality products and services geared to the export needs of the U.S. business community. The Service delivers programs through 105 U.S. export assistance centers located in the United States, and 150 posts located in 83 countries throughout the world. It supports overseas trade promotion events; manages a variety of export promotion services and products; promotes U.S. products and services throughout the world market; conducts conferences and seminars in the United States; and assists State and private-sector organizations on export financing.

Minority Business Development Agency

[For the Minority Business Development Agency statement of organization, see the *Federal Register* of Mar. 17, 1972, 37 FR 5650, as amended]

The Minority Business Development Agency was established by Executive order in 1969. The Agency develops and coordinates a national program for minority business enterprise.

The Agency was created to assist minority businesses in achieving effective and equitable participation in the American free enterprise system and in overcoming social and economic disadvantages that have limited their participation in the past. The Agency provides national policies and leadership in forming and strengthening a partnership of business, industry, and government with the Nation's minority businesses.

Business development services are provided to the minority business community through three vehicles: the minority business opportunity

committees which disseminate information on business opportunities; the minority business development centers that provide management and technical assistance and other business development services; and electronic commerce which includes a Web page on the Internet that will show how to start a business and use the service to electronically match business with contract opportunities.

The Agency promotes and coordinates the efforts of other Federal agencies in assisting or providing market opportunities for minority business. It coordinates opportunities for minority firms in the private sector. Through such public and private cooperative activities, the Agency promotes the participation of Federal, State, and local governments, and business and industry in directing resources for the development of strong minority businesses.

National Oceanic and Atmospheric Administration

Department of Commerce, Washington, DC 20230
Phone, 202-482-2985. Internet, www.noaa.gov.

[For the National Oceanic and Atmospheric Administration statement of organization, see the *Federal Register* of Feb. 13, 1978, 43 FR 6128]

The National Oceanic and Atmospheric Administration (NOAA) was formed on October 3, 1970, by Reorganization Plan No. 4 of 1970 (5 U.S.C. app.).

NOAA's mission entails environmental assessment, prediction, and stewardship. It is dedicated to monitoring and assessing the state of the environment in order to make accurate and timely forecasts to protect life, property, and natural resources, as well as to promote the economic well-being of the United States and to enhance its environmental security. NOAA is committed to protecting America's ocean, coastal, and living marine resources while promoting sustainable economic development.

National Weather Service

The National Weather Service (NWS) provides weather, water and climate warnings, forecasts and data for the United States, its territories, adjacent waters, and ocean areas. NWS data and products form a national information database and infrastructure used by Government agencies, the private sector, the public, and the global community to protect life and property and to enhance the national economy. Working with partners in Government, academic and research institutions and private industry, NWS strives to ensure their products and services are responsive to the needs of the American public. NWS data and information services support aviation and marine activities, wildfire suppression, and are used by many sectors of the economy. NWS supports national security efforts with long- and short-range forecast, air quality and cloud dispersion forecasts, and broadcasts of warnings and critical information over

the 800 station NOAA Weather Radio network.

For further information, contact the National Weather Service, 1325 East-West Highway, Silver Spring, MD 20910-3283. Phone, 301-713-0689. Fax, 301-713-0610. Internet, www.nws.noaa.gov.

National Environmental Satellite, Data, and Information Service

The National Environmental Satellite, Data, and Information Service (NESDIS) operates the Nation's civilian geostationary and polar-orbiting environmental satellites. It also manages the largest collection of atmospheric, geophysical, and oceanographic data in the world. From these sources, NESDIS develops and provides, through various media, environmental data for forecasts, national security, and weather warnings to protect life and property. This data is also used to assist in energy distribution, the development of global food supplies, the management of natural resources, and in the recovery of downed pilots and mariners in distress.

For further information, contact the National Environmental Satellite, Data, and Information Service, 1335 East-West Highway, Silver Spring, MD 20910-3283. Phone, 301-713-3578. Fax, 301-713-1249. Internet, www.noaa.gov/nasdis/nasdis.html.

National Marine Fisheries Service

The National Marine Fisheries Service (NMFS) supports the management, conservation, and sustainable development of domestic and international living marine resources. NMFS is involved in the stock assessment of the Nation's multi-billion dollar marine fisheries, protecting marine mammals and threatened species, habitat conservation operations, trade and

industry assistance, and fishery enforcement activities.

For further information, contact the National Marine Fisheries Service, 1315 East-West Highway, Silver Spring, MD 20910. Phone, 301-713-2239. Fax, 301-713-2258. Internet, kingfish.ssp.nmfs.gov.

National Ocean Service

The National Ocean Service (NOS), works to balance the Nation's use of coastal resources through research, management, and policy. NOS monitors the health of U.S. coasts by examining how human use and natural events impact coastal ecosystems. Coastal communities rely on NOS for information about natural hazards so they can more effectively reduce or eliminate the destructive effects of coastal hazards. NOS assesses the damage caused by hazardous material spills and works to restore or replace the affected coastal resources. Through varied programs, NOS protects wetlands, water quality, beaches, and wildlife. In addition, NOS provides a wide range of navigational products and data that help vessels move safely through U.S. waters and provides the basic set of information that establishes the latitude, longitude, and elevation framework necessary for the Nation's surveying, navigation, positioning, and mapping activities.

For further information, contact the National Ocean Service, Room 13231, SSMC 4, 1305 East-West Highway, Silver Spring, MD 20910. Phone, 301-713-3070. Fax, 301-713-4307. Internet, www.nos.noaa.gov.

Office of Oceanic and Atmospheric Research

The Office of Oceanic and Atmospheric Research (OAR) carries out research into such phenomena as El Niño, global warming, ozone depletion, solar storms that can disrupt telecommunications and electrical power systems, and coastal and Great Lakes ecosystems. OAR conducts and directs its research programs in coastal, marine, atmospheric, and space sciences through its own laboratories and offices, as well as through networks of university-based programs across the country.

For further information, contact the Office of Oceanic and Atmospheric Research, Room 11627, 1315 East-West Highway, Silver Spring, MD 20910. Phone, 301-713-2458. Fax, 301-713-0163. Internet, www.oar.noaa.gov.

Office of Marine and Aviation Operations

NOAA also maintains a fleet of ships and aircraft under the auspices of its Office of Marine and Aviation Operations (OMAO). These are used for scientific, engineering, and technical services, as well as to serve as research platforms for gathering critical marine and atmospheric data in support of a number of NOAA's research programs. This includes flying "hurricane hunter" aircraft into nature's most turbulent storms to collect data critical to hurricane research.

For further information, contact the Office of Marine and Aviation Operations, Room 12857, 1315 East-West Highway, Silver Spring, MD 20910-3282. Phone, 301-713-1045.

National Telecommunications and Information Administration

[For the National Telecommunications and Information Administration statement of organization, see the *Federal Register* of June 5, 1978, 43 FR 24348]

The National Telecommunications and Information Administration (NTIA) was established in 1978 by Reorganization Plan No. 1 of 1977 (5 U.S.C. app.) and

Executive Order 12046 of March 27, 1978 (3 CFR, 1978 Comp., p. 158), by combining the Office of Telecommunications Policy of the Executive Office of the President and the Office of Telecommunications of the Department of Commerce to form a new agency reporting to the Secretary of Commerce.

The Administration's principal responsibilities and functions include:

- serving as the principal executive branch adviser to the President on telecommunications and information policy;
- developing and presenting U.S. plans and policies at international communications conferences and related meetings;
- prescribing policies for and managing Federal use of the radio frequency spectrum;
- serving as the principal Federal telecommunications research and

engineering laboratory, through NTIA's Institute for Telecommunication Sciences (ITS), headquartered in Boulder, CO;

- providing grants through the Technology Opportunities Program for demonstration projects to promote the widespread availability of digital network technologies in the public and non-profit sectors, which will help stimulate economic development, improve learning at all levels, improve delivery of health care, strengthen public safety efforts, and allow greater access for citizens to nationwide information resources; and

- providing grants through the Public Telecommunications Facilities Program to extend delivery of public telecommunications services to U.S. citizens, to increase ownership and management by women and minorities, and to strengthen the capabilities of existing public broadcasting stations to provide telecommunications services.

For further information, contact the National Telecommunications and Information Administration, Department of Commerce, Washington, DC 20230. Phone, 202-482-1551. Internet, www.ntia.doc.gov.

Patent and Trademark Office

[For the Patent and Trademark Office statement of organization, see the *Federal Register* of Apr. 14, 1975, 40 FR 16707]

The patent system was established by Congress “. . . to promote the progress of . . . the useful arts. . .” The registration of trademarks is based on the commerce clause of the U.S. Constitution.

The Office examines applications for patents to determine if the applicants are entitled to patents and grants the patents when they are so entitled. The patent law provides for the granting of patents in three major categories: utility patents, design patents, and plant patents. The term of a design patent is 14 years from the date of grant. It also issues statutory invention registrations, which have the defensive but not the enforceable attributes of a patent. It also processes international applications for patents.

PTO registers and renews trademarks.

A trademark includes any distinctive word, name, symbol, device, or any combination thereof adopted and used or intended to be used by a manufacturer or merchant to identify his goods or services and distinguish them from those manufactured or sold by others. Trademarks are examined by the Office for compliance with various statutory requirements to prevent unfair competition and consumer deception.

In addition to the examination of patent and trademark applications, issuance of patents, and registration of trademarks, the Patent and Trademark Office:

- sells printed copies of issued patents and trademark registrations;
- records and indexes documents transferring ownership;
- maintains a scientific library and search files containing over 30 million

documents, including U.S. and foreign patents and U.S. trademarks;

- provides research facilities for the public;

- hears and decides appeals from prospective inventors and trademark applicants;

- participates in legal proceedings involving the issue of patents or registration of trademarks;

- advocates strengthening intellectual property protection worldwide;

- compiles the *Official Gazettes*, a weekly notice of patents issued and

trademarks registered by the Office, including other information; and

- maintains a roster of patent agents and attorneys qualified and recognized to practice before the Office.

Patents and trademarks may be reviewed and searched at PTO in over 80 patent and trademark depository libraries throughout the country and online. The patent system fosters innovation, investment in developing and marketing inventions, and prompt disclosure of technological information.

For further information, contact the Office of Public Affairs, Patent and Trademark Office, Washington, DC 20231. Phone, 703-305-8341. Internet, www.uspto.gov. The Office's operations are located at 2121 Crystal Drive, Arlington, VA 22202.

Technology Administration

The Technology Administration was established by Congress in 1988 (15 U.S.C. 3704). It is headed by the Under Secretary for Technology, who serves as a principal adviser to the Secretary of Commerce and as the Department's spokesperson for science and technology issues.

The Technology Administration serves as the premier technology agency working with U.S. industry in addressing competitiveness and in exercising leadership both within the Department of Commerce and governmentwide. It advocates coherent policies for maximizing the impact of technology on economic growth; carries out technology programs with U.S. industry; and disseminates technology information.

Office of Technology Policy

The primary role of the Office of Technology Policy is to offer assistance to private sector and communities in advocating and pursuing policies that maximize the impact of technology on economic growth, and by exercising leadership to define the role of government in supporting U.S. industrial competitiveness in the post-cold war environment. The Office serves as a liaison to the private sector, identifying

barriers to the rapid commercialization of technology, eliciting support for Administration civilian technology policies, and ensuring that industry's interests are reflected in standards and technology agreements and civilian technology policy. It also assists Federal, State, and local officials, industry, and academic institutions in promoting the technological growth and competitiveness of the U.S. economy.

For further information, call 202-482-5687.

National Institute of Standards and Technology

The National Institute of Standards and Technology (NIST) assists industry in developing technology to improve product quality, modernize manufacturing processes, ensure product reliability, and facilitate rapid commercialization of products based on new scientific discoveries.

The Institute's primary mission is to strengthen the U.S. economy and improve the quality of life by working with industry to develop and apply technology, measurements, and standards. It carries out this mission through four major programs:

- measurement and standards laboratories that perform research in the

areas of electronics, electrical engineering, manufacturing engineering, chemical science and technology, physics, materials science and engineering, building and fire research, and information technology;

—a rigorously competitive advanced technology program that provides cost-shared awards to industry to develop high-risk enabling technologies with broad economic potential;

—a manufacturing extension partnership offering technical and business assistance to smaller manufacturers in adopting new technologies and business practices; and

—a highly visible quality outreach program associated with the Malcolm Baldrige National Quality Award that recognizes continuous improvements in quality management by U.S. manufacturers, service companies, education institutions, and health care organizations.

For further information, call 301-975-NIST (301-975-6478). Fax, 301-926-1630. E-mail, inquiries@nist.gov. Internet, www.nist.gov.

National Technical Information Service

The National Technical Information Service (NTIS) is the Nation's largest central clearinghouse and governmentwide resource for scientific, technical, engineering, and other business-related information. It acquires

information from U.S. Government agencies and their contractors and grantees, as well as from foreign sources, primarily governments.

The NTIS collection of more than 3 million works covers a broad array of subjects and includes reports on the results of research and development and scientific studies on manufacturing processes, current events, and foreign and domestic trade; business and management studies; social, economic, and trade statistics; computer software and databases; health care reports, manuals, and data; environmental handbooks, regulations, economic studies, and applied technologies; directories to Federal laboratory and technical resources; and global competitive intelligence. The collection also includes audiovisual training materials in such areas as foreign languages, workplace safety and health, law enforcement, and fire services.

Information products in the NTIS collection are cataloged in the *NTIS Bibliographic Database*, which is available online through commercial vendors, on CD-ROM from NTIS, and for recently acquired materials, via FedWorld, NTIS' online information network (Internet, www.ntis.gov).

For further information, contact the National Technical Information Service, 5285 Port Royal Road, Springfield, VA 22161. Phone, 800-553-NTIS. Internet, www.ntis.gov.

For further information about the Technology Administration, contact the Office of Technology Policy, U.S. Department of Commerce, Room 4814C HCHB, Washington, DC 20230. Phone, 202-482-1575. Internet, www.ta.doc.gov.

Sources of Information

Age and Citizenship Age search and citizenship information is available from the Personal Census Search Unit, Bureau of the Census, National Processing Center, P.O. Box 1545, Jeffersonville, IN 47131. Phone, 812-218-3046.

Economic Development Information Clearinghouse The EDA will host on its Web site the Economic Development Information Clearinghouse, an online

depository of information on economic development (Internet, www.doc.gov/eda).

Employment Information is available electronically through the Internet, at www.doc.gov/ohrm. Phone, 202-482-5138.

The National Oceanic and Atmospheric Administration has field employment offices at the Western

Administrative Support Center, Bin C15700, 7600 Sand Point Way NE., Seattle, WA 98115 (phone, 206-526-6294); the Mountain Administrative Support Center, 325 Broadway, Boulder, CO 80303 (phone, 303-497-6332); the Central Administrative Support Center, 601 East Twelfth Street, Kansas City, MO 64106 (phone, 816-426-2056); and the Eastern Administrative Support Center, 200 World Trade Center, Norfolk, VA 23510-1624 (phone, 757-441-6516).

Environment The National Oceanic and Atmospheric Administration conducts research and gathers data about the oceans, atmosphere, space, and Sun, and applies this knowledge to science and service in ways that touch the lives of all Americans, including warning of dangerous weather, charting seas and skies, guiding our use and protection of ocean and coastal resources, and improving our understanding and stewardship of the environment which sustains us all. For further information, contact the Office of Public and Constituent Affairs, National Oceanic and Atmospheric Administration, Room 6013, Fourteenth Street and Constitution Avenue NW., Washington, DC 20230. Phone, 202-482-6090. Fax, 202-482-3154. Internet, www.noaa.gov.

Patent and Trademark Office The Office has priority programs for advancement of examination of certain patent applications where the invention could materially enhance the quality of the environment of mankind. For further information, contact the Commissioner for Patents, Office of Petitions, Washington, DC 20231. Phone, 703-305-9282.

Inspector General Hotline The Office of Inspector General works to promote economy, efficiency, and effectiveness and to prevent and detect fraud, waste, abuse, and mismanagement in departmental programs and operations. Contact the Hotline, Inspector General, P.O. Box 612, Ben Franklin Station, Washington, DC 20044. Phone, 202-482-2495, or 800-424-5197 (toll free). TTD, 202-482-5923, or 800-854-8407 (toll free). Fax, 202-789-0522. Internet,

Bureau of Industry and Security The Bureau's Web site (Internet, www.bis.doc.gov) provides information for the U.S. business community, including export news, general, subject and policy fact sheets, updates to the Export Administration regulations, Bureau program information, and export seminar event schedules. Publications available on the site include the Bureau's annual report, foreign policy controls report, and international diversification and defense market assessment guides. The Government Printing Office, in conjunction with the Bureau, has created a Web site that contains an up-to-date database of the entire export administration regulations, including the commerce control list, the commerce country chart, and the denied persons list (Internet, www.access.gpo.gov/bis/index.html). The Exporter Counseling Division has offices in Washington, DC (phone, 202-482-4811; fax, 202-482-3617) and on the West Coast (phone 949-660-0144, or 408-998-7402; fax, 949-660-9347, or 408-998-7470). For enforcement-related questions, contact the partnership-in-security hotline (phone, 800-424-2980).

International Trade Administration The Administration maintains a Web site, (Internet, www.trade.gov), which offers the single best place for individuals or firms seeking reports, documents, import case/regulations, texts of international agreements like NAFTA and GATT, market research, and points of contact for assistance in exporting, obtaining remedies from unfair trading practices, or receiving help with market access problems. Customers are able to review comprehensive information on how to export, search for trade information by either industry or by country, learn how to petition against unfairly priced imports, and obtain information on a number of useful international trade related products like overseas trade leads and agent distributor reports. The Web site also features E-mail addresses and locations for trade contacts in Washington, overseas, in major exporting centers in the United States,

and in other parts of the Federal Government.

Minority Business Development Agency Copies of *Minority Business Today* and the *BDC Directory* may be obtained by contacting the Office of Business Development. Phone, 202-482-6022.

Small Business The Office of Small and Disadvantaged Business Utilization (OSDBU) was established under the authority of Public Law 95-507. It is responsible for promoting the use of small, small-disadvantaged, (8a), HUBZone, veteran-owned, service-disabled veteran-owned, and women-owned businesses. It also assists such businesses in obtaining contracts and subcontracts with the Department of Commerce and its prime contractors. The goals of OSDBU are to institutionalize the use of small businesses and to fully intergrate them into the Department of Commerce's competitive base of contractors. Phone, 202-482-1472. Internet, www.doc.gov/osdbu.

For further information concerning the Department of Commerce, contact the Office of Public Affairs, Department of Commerce, Fourteenth Street and Constitution Avenue NW., Room 5040 Washington, DC 20230. Phone, 202-482-3263. Internet, www.doc.gov.
