SECRETARY OF THE INTERIOR

Deputy Secretary	GALE A. NORTON
Chief of Staff	(VACANCY)
Deputy Chief of Staff	BRIAN WAIDMANN
Special Trustee for American Indians	DAVID BERNHARDT
Director of Congressional and Legislative Affairs	ROSS OWEN SWIMMER
Chief Counselor to the Secretary	MATTHEW EAMES
Counselor to the Secretary	(VACANCY)
White House Liaison	(VACANCY)
Science Adviser to the Secretary	DOUGLAS W. DOMENECH
Director, Office of Communications	JAMES TATE
Director of External and Intergovernmental Affairs	ERNESTINE KREISHER
Director, Office of the Executive Secretariat and Regulatory Affairs	KIT KIMBLE
Senior Advisor to the Secretary for Alaskan Affairs	FAY IUDICELLO
Executive Director, Office of Historical Trust Accounting	DRUE PEARCE
Executive Director, Take Pride in America	BERT T. EDWARDS
Solicitor	MARTHA ALLBRIGHT
Deputy Solicitor	SUE ELLEN WOOLDRIDGE
Counselor to the Solicitor	MATTHEW MCKEOWN
Associate Solicitor (Administration)	(VACANCY)
Associate Solicitor (Conservation and Wildlife)	EDWARD KEABLE
Associate Solicitor (Land and Water Resources)	(VACANCY)
Associate Solicitor (General Law)	(VACANCY)
Associate Solicitor (Indian Affairs)	(VACANCY)
Associate Solicitor (Mineral Resources)	(VACANCY)
Director, Office of Ethics	SHAYLA F. SIMMONS
Inspector General	EARL E. DEVANEY
Deputy Inspector General	MARY KENDALL
Associate Inspector General (Whistleblower Protection)	RICHARD TRINIDAD
Assistant Inspector General (Audits)	ROGER LAROCHE
Assistant Inspector General (Administrative Services and Information Management)	MICHAEL F. WOOD
Assistant Inspector General (Investigations)	DAVID A. MONTOYA
Assistant Inspector General (Human Capital Management)	(VACANCY)
General Counsel	(VACANCY)
Assistant Secretary—Water and Science	(VACANCY)

Deputy Assistant Secretary Director, U.S. Geological Survey Commissioner, Bureau of Reclamation Assistant Secretary—Fish and Wildlife and Parks Deputy Assistant Secretaries	R. THOMAS WEIMER CHARLES G. GROAT JOHN W. KEYS III CRAIG MANSON
Director, U.S. Fish and Wildlife Service Director, National Park Service Assistant Secretary—Indian Affairs Counselor to the Assistant Secretary Principal Deputy Assistant Secretary Deputy Assistant Secretary—Policy and Economic Development Deputy Assistant Secretary—Management Deputy Assistant Secretary—Information Resources Management/Chief Information Officer Director, Bureau of Indian Affairs Assistant Secretary—Land and Minerals Management Deputy Assistant Secretary Director, Minerals Management Service Director, Bureau of Land Management Director, Office of Surface Mining Reclamation and Enforcement Assistant Secretary—Policy, Management, and Budget Chief of Staff and Counselor to the Assistant Secretary Chief Information Officer, Office of the Chief Information Officer Deputy Assistant Secretary—Policy and International Affairs Director, Office of Environmental Policy and Compliance Director, Office of Policy Analysis Director, Office of Hawaiian Affairs Deputy Assistant Secretary—Business Management and Wildlife Fire Director, Office of Small and Disadvantaged Business Utilization Director, Office of Budget Director, Office of Financial Management Director, Office of Acquisition and Property Director, National Business Center Director, Office of Wildland Fire Coordination Deputy Assistant Secretary—Performanace, Accountability, and Human Resources Deputy Chief Human Capital Officer Director, Office of Human Resources Director, Office of Civil Rights Director, Office of Occupational Health and Safety	PAUL D. HOFFMAN, JULIE MACDONALD, DAVID P. SMITH (VACANCY) FRAN MAINELLA (VACANCY) MICHAEL OLSEN (VACANCY) (VACANCY) DEBBIE CLARK BRIAN BURNS WILLIAM RAGSDALE REBECCA W. WATSON CHAD CALVERT R.M. JOHNNIE BURTON KATHLEEN B. CLARKE JEFFREY D. JARRETT P. LYNN SCARLETT DANIEL JORJANI W. HORD TIPTON CHRISTOPHER KEARNEY WILLIE R. TAYLOR WILLIAM BETTENBERG (VACANCY) NINA HATFIELD ROBERT W. FAITHFUL JOHN TREZISE (VACANCY) DEBRA SONDERMAN DOUGLAS BOURGEOIS JAMES HUBBARD SCOTT CAMERON KATHLEEN J.H. WHEELER (VACANCY) SHARON ELLER DIANE SCHMITZ

Director, Office of Collaborative Action and Dispute Resolution	ELENA GONZALEZ
Director, Office of Planning and Performance Management	RICHARD T. BECK
Director, Office of Hearings and Appeals	ROBERT S. MORE
Director, Center for Competitive Sourcing Excellence	DONNA KALVELS
Deputy Assistant Secretary—Law Enforcement and Security	LARRY R. PARKINSON
Director, Office of Law Enforcement and Security	STEVEN CALVERY
Deputy Assistant Secretary—Insular Affairs	DAVID COHEN
Director, Office of Insular Affairs	NIKOLAO PULA

The mission of the Department of the Interior is to protect and provide access to our Nation's natural and cultural heritage and honor our trust responsibilities to tribes and our commitments to island communities. The Department manages the Nation's public lands and minerals, national parks, national wildlife refuges, and western water resources and upholds Federal trust responsibilities to Indian tribes and our commitments to island communities. It is responsible for migratory wildlife conservation; historic preservation; endangered species; surface-mined lands protection and restoration; mapping; geological, hydrological, and biological science; and financial and technical assistance for the insular areas.

The Department of the Interior was created by act of March 3, 1849 (43 U.S.C. 1451), which transferred to it the General Land Office, the Office of Indian Affairs, the Pension Office, and the Patent Office. It was reorganized by Reorganization Plan No. 3 of 1950, as amended (5 U.S.C. app.).

Secretary The Secretary of the Interior reports directly to the President and is responsible for the direction and supervision of all operations and activities of the Department. Some areas where public purposes are broadly applied include:

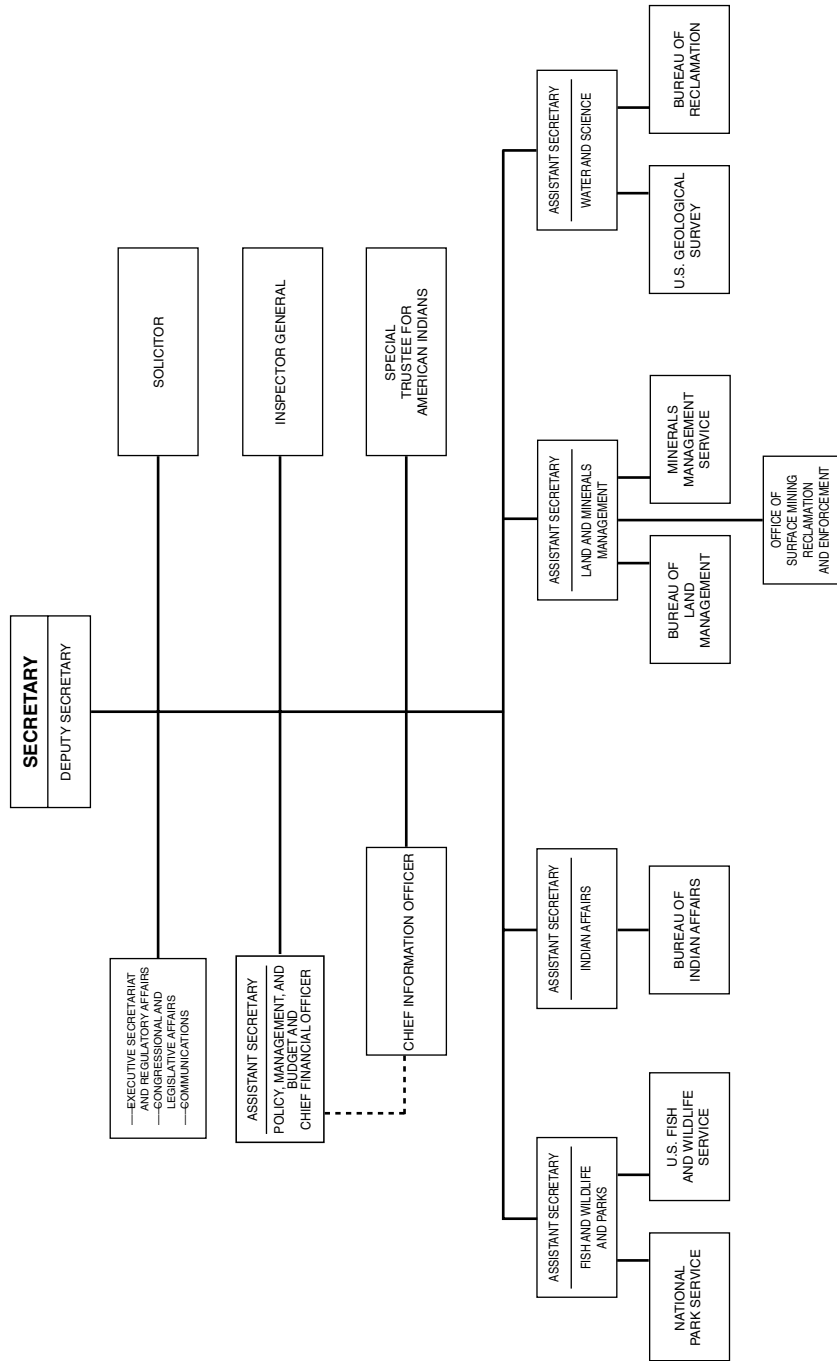

Fish, Wildlife, and Parks The Office of the Assistant Secretary (Fish and Wildlife and Parks) has responsibility for programs associated with the use, management and conservation of natural resources, lands and cultural facilities associated with the National Park and National Refuge Systems, and the conservation and enhancement of fish, wildlife, vegetation, and habitat. The Office represents the Department in the coordination of marine ecosystems and biological resources programs with other Federal agencies. It also exercises secretarial direction and supervision over

the United States Fish and Wildlife Service and the National Park Service.

Water and Science The Office of the Assistant Secretary (Water and Science) provides oversight to the U.S. Geological Survey, the Bureau of Reclamation and the Central Utah Project Completion Act Office. It provides policy direction and oversight in program areas related to water project operations, facility security and natural resource management as well as for geologic, hydrologic, cartographic, biologic, and technological research. It provides guidance in developing national water and science policies and environmental improvement.

Land and Minerals Management The Office of the Assistant Secretary (Land and Minerals Management) has responsibility for programs associated with public land management; operations management and leasing for minerals on public lands, including the Outer Continental Shelf to the outer limits of the United States economic jurisdiction; minerals operations management on Indian lands; surface mining reclamation and enforcement functions; and management of revenues from Federal and Indian mineral leases.

DEPARTMENT OF THE INTERIOR

Indian Affairs The Office of the Assistant Secretary (Indian Affairs) is responsible for establishing and acting on issues affecting Indian policy and programs; exercising direction and supervision of the Bureau of Indian Affairs, including the Office of Indian Education Programs; directly supervising the Federal acknowledgment of tribes, tribal self-determination and self-governance, Indian gaming management, economic development, and all administrative, financial, and information resources management activities; and maintaining liaison and coordination between the Department and other Federal agencies that provide services or funding to Indians.

The Office of the Special Trustee for American Indians (OST) oversees Indian trust reform efforts departmentwide to ensure the establishment of policies, procedures, systems, and practices to allow the Secretary to discharge the Government's fiduciary trust responsibilities to American Indians and tribes. OST also has programmatic

responsibility for the management of financial trust assets, asset appraisals, and fiduciary trust beneficiary services.

Insular Affairs The Office of Insular Affairs (OIA) assists the territories of American Samoa, Guam, the U.S. Virgin Islands, and the Commonwealth of the Northern Mariana Islands in developing more efficient and effective government by providing financial and technical assistance, and serves as a focal point for the management of relations between the United States and the islands by developing and promoting appropriate Federal policies. OIA also carries out the Secretary's responsibilities that are related to the three freely associated states (the Federated States of Micronesia, the Republic of the Marshall Islands, and the Republic of Palau); the Palmyra Atoll Excluded Areas; Wake Atoll's residual administration; and Midway Atoll's nonterrestrial areas.

For further information, contact the Office of Communications, Department of the Interior, Washington, DC 20240. Phone, 202-208-3171. Internet, www.doi.gov.

Bureaus

United States Fish and Wildlife Service

[For the United States Fish and Wildlife Service statement of organization, see the *Code of Federal Regulations*, Title 50, Subchapter A, Part 2]

The United States Fish and Wildlife Service's national responsibility in the service of fish, wildlife, and people spans more than 130 years to the establishment of a predecessor agency, the Bureau of Fisheries, in 1871. First created as an independent agency, the Bureau of Fisheries was later placed in the Department of Commerce. A second predecessor agency, the Bureau of Biological Survey, was established in 1885 in the Department of Agriculture. In 1939, the two Bureaus and their functions were transferred to the Department of the Interior. They were consolidated into one agency and redesignated the Fish and Wildlife

Service in 1940 by Reorganization Plan III (5 U.S.C. app.).

The Service manages more than 95 million acres of land and water consisting of more than 540 national wildlife refuges, thousands of small wetlands, and other special management areas. It also operates 69 national fish hatcheries, 63 fish and wildlife management assistance offices, 64 fishery resource offices, and 81 ecological services field stations. The Service is responsible for migratory birds, endangered species, certain marine mammals, and inland sport fisheries. Its mission is to conserve, protect, and enhance fish and wildlife and their habitats for the continuing benefit of the American people. Within this framework, the Service strives to foster an environmental stewardship ethic based on ecological principles and scientific knowledge of wildlife; works

with the States to improve the conservation and management of the Nation's fish and wildlife resources; and administers a national program providing opportunities for the American public to understand, appreciate, and wisely use these resources.

In the area of resource management, the Service provides leadership for the protection and improvement of land and water environments (habitat preservation) that directly benefit the living natural resources and add quality to human life. Activities include:

- surveillance of pesticides, heavy metals, and other contaminants;
- studies of fish and wildlife populations;
- ecological studies;
- environmental impact assessment, including hydroelectric dams, nuclear power sites, stream channelization, and dredge-and-fill permits; and
- environmental impact statement review.

The Service is responsible for improving and maintaining fish and wildlife resources by proper management of wildlife and habitat. It also helps fulfill the public demand for recreational fishing while maintaining the Nation's fisheries at a level and in a condition that will ensure their continued survival. Specific wildlife and fishery resources programs include:

- migratory birds (wildlife refuge management for production, migration, and wintering; law enforcement; game; and bird population, production, and harvest surveys);
- mammals and nonmigratory birds (refuge management of resident species, law enforcement, protection of certain

marine mammals, and technical assistance);

- coastal anadromous fish (hatchery production and stocking);
- Great Lakes fisheries (hatchery production of lake trout and fishery management in cooperation with Canada and the States); and
- other inland fisheries (hatchery production and stocking of Indian lands, and technical assistance).

The Service provides national and international leadership in identifying, protecting, and restoring endangered species of fish, wildlife, and plants. This program includes:

- developing the Federal Endangered and Threatened Species List, conducting status surveys, preparing recovery plans, and coordinating efforts nationally and internationally;
- operating national wildlife refuges;
- law enforcement;
- foreign importation enforcement; and
- consultation with foreign countries.

Public use and information programs include preparing leaflets and brochures; operating environmental study areas on Service lands; operating visitor centers, self-guided nature trails, observation towers, and display ponds; and providing recreational activities such as hunting, fishing, and wildlife photography.

The Service's Office of Federal Assistance apportions funds for projects designed to conserve and enhance the Nation's fish and wildlife resources. The funds for the projects are generated from excise taxes on sporting arms and fishing equipment.

National Park Service

The National Park Service was established in the Department of the Interior on August 25, 1916 (16 U.S.C. 1).

The National Park Service is dedicated to conserving unimpaired the natural and cultural resources and values of the National Park System for the enjoyment, education, and inspiration of this and future generations. There are 388 units in the National Park System, including national parks, monuments and memorials, scenic parkways, preserves, reserves, trails, riverways, wild and scenic rivers, seashores, lakeshores, recreation areas, battlefields and battlefield parks and sites, national military parks, international historic sites, and historic sites associated with important movements, events, and personalities of the American past.

The National Park Service has a Service Center in Denver that provides planning, architectural, engineering, and other professional services. The Service is also responsible for managing a great variety of national and international programs designed to help extend the benefits of natural and cultural resource

conservation and outdoor recreation throughout this country and the world.

Activities The National Park Service develops and implements park management plans and staffs the areas under its administration. It relates the natural values and historical significance of these areas to the public through talks, tours, films, exhibits, publications, and other interpretive media. It operates campgrounds and other visitor facilities and provides lodging, food, and transportation services in many areas.

The National Park Service also administers the following programs: the State portion of the Land and Water Conservation Fund, nationwide outdoor recreation coordination and information, State comprehensive outdoor recreation planning, planning and technical assistance for the national wild and scenic rivers system, the national trails system, natural area programs, the National Register of Historic Places, national historic landmarks, historic preservation, technical preservation services, the historic American buildings survey, the historic American engineering record, and interagency archeological services.

United States Geological Survey

The U.S. Geological Survey (USGS) was established by the Organic Act of March 3, 1879 (43 U.S.C. 31). USGS classifies public lands, examines the geological structure, and assesses the energy, mineral, and biology resources and products within and outside the national domain.

USGS provides relevant, objective scientific studies and information used to help address issues and solve problems dealing with natural resources, natural hazards, and the environmental effects on human and wildlife health. It is responsible for:

- investigating and assessing the Nation's water, energy, biological, and mineral resources;
- conducting research on global change;
- providing information to land and resource managers in the Department to help them assess and manage the biological and environmental consequences of management practices;
- investigating natural hazards and providing real-time information about the Earth and minimizing loss of life and property from earthquakes, volcanoes, floods, droughts, coastal erosion, and wildland fires;
- maintaining an archive of land-remote sensing data for historical, scientific, and technical purposes, including long-term global environmental monitoring;
- ensuring production and availability of basic biologic, hydrologic, geologic, and geographical spatial data of the Nation; and
- maintaining and analyzing databases of natural resource information.

To attain these objectives, USGS prepares maps and digital and cartographic data; collects and interprets data on energy, mineral, and biological resources; conducts nationwide assessments of the quality, quantity, and use of the Nation's water resources; performs fundamental and applied research in the sciences and techniques

involved; and publishes the results of its investigations through maps, technical reports, and fact sheets.

For further information, contact the U.S. Geological Survey, Department of the Interior, 12201 Sunrise Valley Drive, Reston, VA 20192. Phone, 703-648-4000. Internet, www.usgs.gov. E-mail, ASK@usgs.gov.

Office of Surface Mining Reclamation and Enforcement

The Office of Surface Mining Reclamation and Enforcement (OSM) was established in the Department of the Interior by the Surface Mining Control and Reclamation Act of 1977 (30 U.S.C. 1211).

The Office's primary goal is to assist States in operating a nationwide program that protects society and the environment from the adverse effects of coal mining, while ensuring that surface coal mining can be done without permanent damage to land and water resources. With most coal mining States responsible for regulating coal mining and reclamation activities within their borders, OSM's main objectives are to oversee State mining regulatory and abandoned-mine reclamation programs, assist States in meeting the objectives of the surface mining law, and regulate mining and reclamation activities on Federal and Indian lands, and in those States choosing not to assume primary responsibility.

Activities The Office establishes national policy for the surface mining control and reclamation program provided for in the surface mining law, reviews and approves amendments to previously approved State programs, and reviews and recommends approval of new State program submissions. Other activities include:

- managing the collection, disbursement, and accounting for abandoned- mine land reclamation fees;
- administering civil penalties programs;
- establishing technical standards and regulatory policy for reclamation and enforcement efforts;

- providing guidance for environmental considerations, research, training, and technology transfer for State, tribal, and Federal regulatory and abandoned-mine land reclamation programs;
- monitoring and evaluating State and tribal regulatory programs, cooperative agreements, and abandoned-mine land reclamation programs; and
- coordinating the Appalachian clean streams initiative, a public-private joint effort, at the Federal, State, and local levels, to clean up streams and rivers polluted by acid mine drainage.

For further information, contact the Office of Communications, Office of Surface Mining Reclamation and Enforcement, Department of the Interior, Washington, DC 20240. Phone, 202-208-2565. TDD, 202-208-2694. Internet, www.osmre.gov.

Bureau of Indian Affairs

The Bureau of Indian Affairs (BIA) was created as part of the War Department in 1824 and transferred to the Department of the Interior when the latter was established in 1849. The mission of BIA is to fulfill its trust responsibilities and promote self-determination on behalf of tribal governments, American Indians, and Alaska Natives. BIA provides services directly or through contracts, grants, or compacts to approximately 1.4 million American Indians and Alaska

Natives, members of 562 federally recognized Indian tribes in the 48 contiguous United States and Alaska. The scope of BIA's programs is extensive, covering virtually the entire range of State and local governmental services. The programs administered by either tribes or BIA include: an education system for over 48,000 elementary and secondary students; 25 tribally controlled community colleges; social service programs; management of natural resources on 56 million acres of trust land; fire protection; emergency natural disaster relief; economic development programs in some of the most isolated and economically depressed areas of the United States; law enforcement; administration of tribal courts and detention centers; implementation of legislated land and water claim settlements; replacement and repair of schools; repair and maintenance of roads and bridges; repair of structural deficiencies on high-hazard dams; and Federal acknowledgment of Indian tribes.

BIA works with Indian and Alaska Native people, tribal governments, Native American organizations, other Federal agencies, State and local governments, and other interested groups in the development and implementation of effective programs.

Minerals Management Service

The Minerals Management Service was established on January 19, 1982, by Secretarial order. The Service assesses

the nature, extent, recoverability, and value of leasable minerals on the Outer Continental Shelf. It ensures the orderly and timely inventory and development

and the efficient recovery of mineral resources; encourages utilization of the best available and safest technology; and safeguards against fraud, waste, and abuse.

Offshore Minerals Management The Service is responsible for resource evaluation, environmental review, leasing activities (including public liaison and planning functions), lease management, and inspection and enforcement programs for Outer Continental Shelf lands.

Five-year oil- and gas-leasing programs are developed for leasing on the Outer Continental Shelf in consultation with the Congress, the 23 coastal States, local governments, environmental groups, industry, and the public.

The Service conducts extensive environmental studies and consultations with State officials prior to issuing leases.

Once leases have been issued, inspectors conduct frequent inspections of offshore operations, and environmental studies personnel collect more data to ensure that marine environments are kept free of pollutants. **Minerals Revenue Management** The Service is responsible for collecting, accounting for, and disbursing revenues associated with minerals produced on Federal and Indian-leased lands. The Service also conducts a comprehensive compliance program to ensure that fair market value is received for the mineral assets and that royalties are timely and accurately paid.

The basic organization of the Service consists of a headquarters in Washington, DC, with program components located in Herndon, VA, and Lakewood, CO; three Outer Continental Shelf regional offices; and two administrative service centers.

Bureau of Land Management

The Bureau of Land Management (BLM) was established July 16, 1946, by the consolidation of the General Land Office (created in 1812) and the Grazing Service (formed in 1934).

The Bureau manages more land—262 million surface acres—than any other Federal Government agency. Most of this public land is located in 12 western States, including Alaska. There are also small, scattered parcels in States east of the Mississippi River. The Bureau also administers more than 700 million acres of subsurface mineral estate throughout the Nation. It preserves open space in the fast-growing, fast-changing West by

managing the public lands for multiple uses and by conserving resources so that current and future generations may use and enjoy them.

Resources managed by the Bureau include timber, solid minerals, oil and gas, geothermal energy, wildlife habitat, endangered plant and animal species, rangeland vegetation, recreation and cultural values, wild and scenic rivers, designated conservation and wilderness areas, and open space. Bureau programs provide for the protection (including fire suppression), orderly development, and use of the public lands and resources under principles of multiple use and sustained yield. Land use plans are

developed with public involvement to provide orderly use and development while maintaining and enhancing the quality of the environment. The Bureau also manages watersheds to protect soil and enhance water quality; develops recreational opportunities on public lands; administers programs to protect and manage wild horses and burros; and under certain conditions, makes land available for sale to individuals, organizations, local governments, and other Federal agencies when such transfer is in the public interest. Lands may be leased to State and local government agencies and to nonprofit organizations for certain purposes.

The Bureau oversees and manages the development of energy and mineral leases and ensures compliance with applicable regulations governing the extraction of these resources. It has responsibility to issue rights-of-way, leases, and permits.

The Bureau is also responsible for the survey of Federal lands and establishes and maintains public land records and mining claims records. It administers a program of payments in lieu of taxes based on the amount of federally owned lands in counties and other units of local government.

Bureau of Reclamation

The Bureau of Reclamation was established pursuant to the Reclamation Act of 1902 (43 U.S.C. 371 *et seq.*). The mission of the Bureau of Reclamation is to manage, develop, and protect water and related resources in an

environmentally and economically sound manner. The Bureau is the largest wholesale water supplier in the United States and the Nation's second largest producer of hydroelectric power. Its facilities also provide flood control, recreation, and fish and wildlife benefits.

Bureau of Land Management

Contracts The Bureau of Land Management (BLM) and the Department of the Interior (DOI) are now acquiring goods and services through the Internet Web site at <http://ideasec.nbc.gov>. Requirements that are valued over \$25,000 are also published on the Government Web site at www.eps.gov. To take advantage of future business opportunities with BLM, you must (1) obtain a valid Dun & Bradstreet number from Dun & Bradstreet at www.dnb.com, or by calling them at 800-333-0505; or (2) register your firm on the Central Contractor Registration System at www.ccr.gov.

Also, for information about BLM's purchases, how to do business with BLM, and the BLM acquisition offices and contacts, visit the BLM National Acquisition Web site at www.blm.gov/natacq. You may also view BLM's projected purchases of goods and services, known as the Advanced Procurement Plan.

Employment Inquiries should be directed to the National Human Resources Management Center, any Bureau of Land Management State Office, or the Personnel Officer, Bureau of Land Management, Eastern States Office, Department of the Interior, Washington, DC. Phone, 202-452-5072.

General Inquiries For information about parcels of land that the Bureau occasionally sells, contact any of the State offices or the Bureau of Land Management, Office of Public Affairs, Department of the Interior, Washington, DC 20240. Phone, 202-452-5125. Fax, 202-452-5124.

Publications The annual publication *Public Land Statistics*, which relates to

public lands, is available from the Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Reading Rooms All State offices provide facilities for individuals who wish to examine status records, tract books, or other records relating to the public lands and their resources.

Small Business Activities The Bureau has four major buying offices that provide contacts for small business activities: the Headquarters Office in Washington, DC (phone, 202-452-5177); the national business center in Lakewood, CO (phone, 303-236-9447); the Oregon State office (phone, 503-808-6216); and the BLM Amarillo field office (phone, 806-324-2684). The acquisition plan and procurement office contacts are available through the Internet at www.blm.gov/natacq.

Speakers Local Bureau offices will arrange for speakers to explain Bureau programs upon request from organizations within their areas of jurisdiction.

Bureau of Reclamation

Contracts Information is available to contractors, manufacturers, and suppliers from Acquisition and Assistance Management Division, Building 67, Denver Federal Center, Denver, CO 80225. Phone, 303-445-2499.

Employment Information on engineering and other positions is available from the Diversity and Human Resources Office, Denver, CO (phone, 303-445-2670) or from the nearest regional office.

Publications Publications for sale are available through the National Technical Information Service. Phone, 703-605-6585.
