Administrator CHARLES G. CURIE

The Department of Health and Human Services is the Cabinet-level department of the Federal executive branch most involved with the Nation's human concerns. In one way or another, it touches the lives of more Americans than any other Federal agency. It is a department of people serving people, from newborn infants to persons requiring health services to our most elderly citizens.

The Department of Health and Human Services (HHS) was created as the Department of Health, Education, and

Welfare on April 11, 1953 (5 U.S.C. app.).
Secretary The Secretary of Health and Human Services advises the President on

health, welfare, and income security plans, policies, and programs of the Federal Government; and directs Department staff in carrying out the approved programs and activities of the Department and promotes general public understanding of the Department's goals, programs, and objectives.

Public Health and Science The Office serves as the Secretary's primary adviser on matters involving the Nation's public health. It provides assistance in

implementing and coordinating Secretarial decisions for the Public Health Service and coordination of population-based health, clinical divisions; provides oversight of research conducted or supported by the Department; implements several programs to provide population-based public health services; and provides direction and policy oversight, through the Surgeon General, for the Public Health Service Commissioned Corps.

Regional Offices—Department of Health and Human Services

Area	Address/Areas Served	Telephone
Atlanta, GA	Atlanta Federal Ctr., 61 Forsyth St. SW., 30303 (AL, FL, GA, KY, MS, NC, SC, TN)	404-562-7888

Administration on Aging

The Administration on Aging, the principal agency designated to carry out the provisions of the Older Americans Act of 1965, is responsible for all issues involving the elderly. The Administration develops policies, plans, and programs designed to promote the welfare of the

elderly; promotes their needs by planning programs and developing policy; and provides policy, procedural direction, and technical assistance to States and Native American tribal governments.

For further information, contact the Administration on Aging, One Massachusetts Avenue NW., Washington, DC 20201. Phone, 202-401-4634. Internet, www.aoa.gov.

Administration for Children and Families

The Administration for Children and Families provides advice to the Secretary on issues pertaining to children, youth, and families; child support enforcement;

community services; developmental disabilities; family assistance; Native American assistance; refugee resettlement; and legalized aliens.

For further information, contact the Administration for Children and Families, 370 L'Enfant Promenade SW., Washington, DC 20447. Phone, 202-401-9261. Internet, www.acf.dhhs.gov.

Agency for Healthcare Research and Quality

The Agency for Healthcare Research and Quality (AHRQ) is charged with improving the quality, safety, efficiency, and effectiveness of health care for all

Americans. AHRQ supports health services research that will improve the quality of health care and promote evidence-based decisionmaking.

For further information, contact the Agency for Healthcare Research and Quality, 540 Gaither Road, Rockville, MD 20850. Phone, 301-427-1889. Internet, www.ahrq.gov. E-mail, info@ahrq.gov.

Agency for Toxic Substances and Disease Registry

The Agency for Toxic Substances and Disease Registry, as part of the Public Health Service, is charged with the prevention of exposure to toxic substances and the prevention of the adverse health effects and diminished

quality of life associated with exposure to hazardous substances from waste sites, unplanned releases, and other sources of pollution present in the environment.

For further information, contact the Agency for Toxic Substances and Disease Registry, MS E-60, 1600 Clifton Road NE., Atlanta, GA 30333. Phone, 404-639-0501. Internet, www.atsdr.cdc.gov.

Centers for Disease Control and Prevention

The Centers for Disease Control and Prevention, as part of the Public Health Service, is charged with protecting the public health of the Nation by providing

leadership and direction in the prevention of and control of diseases and other preventable conditions and responding to public health emergencies.

For further information, contact the Centers for Disease Control and Prevention, 1600 Clifton Road NE., Atlanta, GA, 30333. Phone, 404-639-3286, Internet, www.cdc.gov.

Centers for Medicare & Medicaid Services

[For the Health Care Financing Administration statement of reorganization citing their official change of Agency name, see the *Federal Register* of July 5, 2001, 66 FR 35437]

The Centers for Medicare & Medicaid Services was created to combine under

one administration the oversight of the Medicare program, the Federal portion of the Medicaid program and State Children's Health Insurance Program, and related quality assurance activities.

For further information, contact the Centers for Medicare & Medicaid Services, Department of Health and Human Services, 7500 Security Boulevard, Baltimore, MD 21244. Phone, 410-786-3000. Internet, www.cms.gov.

Food and Drug Administration

The Food and Drug Administration (FDA) is responsible for protecting the public health by ensuring the safety, efficacy, and security of human and veterinary drugs, biological products, medical devices, the Nation's food supply, cosmetics, and products that emit radiation. FDA is also responsible for advancing the public health by

accelerating innovations to make medicines more effective and providing the public with accurate, science-based information on medicines and food to improve their health. FDA plays a significant role in addressing the Nation's counterterrorism capability and ensuring the security of the food supply.

For further information, contact the Food and Drug Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 888-463-6332. Internet, www.fda.gov.

Health Resources and Services Administration

The Health Resources and Services Administration (HRSA) provides access to primary healthcare service through its more than 6,500 grantees nationwide, to medically underserved families and individuals who are poor, uninsured, geographically isolated, or vulnerable in some other way. Programs administered by HRSA include maternal and child health services; HIV/AIDS assistance; bioterrorism/hospital emergency preparedness; health information technology; nurse education scholarships

and loan repayments; community health center; organ donation/transplantation; vaccine injury compensation; and Hansen's disease. With HRSA funds, community health care center grantees attend to chronic health care needs; health services in rural, isolated areas; and care and treatment of minorities nationwide, and those living along the U.S.-Mexico border. HRSA also administers the national practitioner databank.

For further information, contact the Office of Communications, Health Resources and Services Administration, 5600 Fishers Lane, Rockville, MD 20857. Phone, 301-443-3376. Internet, www.hrsa.gov.

Indian Health Service

The Indian Health Service, as part of the Public Health Service, provides a comprehensive health services delivery system for American Indians and Alaska Natives, with opportunity for maximum tribal involvement in developing and managing programs to meet their health needs. It assists Native American tribes in developing their health programs; facilitates and assists tribes in coordinating health planning, obtaining

and utilizing health resources available through Federal, State, and local programs, operating comprehensive health programs, and evaluating health programs; and provides comprehensive healthcare services including hospital and ambulatory medical care, preventive and rehabilitative services, and development of community sanitation facilities.

For further information, contact the Management Policy Support Staff, Indian Health Service, Suite 400, 801 Thompson Avenue, Rockville, MD 20852. Phone, 301-443-2650. Internet, www.ihs.gov.

National Institutes of Health

The National Institutes of Health (NIH), as part of the Public Health Service, supports biomedical and behavioral research domestically and abroad, conducts research in its own laboratories and clinics, trains promising young researchers, and promotes acquisition and distribution of medical knowledge.

Aging The Institute conducts and supports biomedical, social, and behavioral research, training, health information, dissemination, and other programs with respect to the aging process and the diseases and other special problems and needs of the aged.

For further information, contact the National Institute on Aging. Phone, 301-496-1752. Internet, www.nih.gov/nia.

Alcohol Abuse and Alcoholism The Institute leads the national effort to reduce alcohol-related problems by conducting and supporting biomedical and behavioral research into the causes, consequences, prevention, and treatment of alcohol-use disorders.

For further information, contact the National Institute on Alcohol Abuse and Alcoholism. Phone, 301-443-3885 or 301-443-3860. Internet, www.niaaa.nih.gov.

Allergy and Infectious Diseases The Institute conducts and supports research, research training, and clinical evaluations on the causes, treatment, and prevention of a wide variety of infectious, allergic, and immunologic diseases.

For further information, contact the National Institute of Allergy and Infectious Diseases. Phone, 301-496-5717. Internet, www.niaid.nih.gov.

Arthritis and Musculoskeletal and Skin Diseases The Institute supports research into the causes, treatment, and

prevention of arthritis and musculoskeletal and skin diseases.

For further information, contact the National Institute of Arthritis and Musculoskeletal and Skin Diseases. Phone, 301-496-4353. Internet, www.niams.nih.gov.

Biomedical Imaging and Bioengineering The Institute conducts, coordinates, and supports research, training, dissemination of health information, and other programs with respect to biomedical imaging, biomedical engineering, and associated technologies and modalities with biomedical applications.

For further information, contact the National Institute of Biomedical Imaging and Bioengineering. Phone, 301-451-6768. Internet, www.nibib.nih.gov.

Cancer The Institute developed a national cancer program to expand existing scientific knowledge on cancer causes and prevention as well as on the diagnosis, treatment, and rehabilitation of cancer patients. Research activities encompass basic biological, clinical, prevention, and behavioral research.

For further information, contact the Cancer Information Service. Phone, 800-422-6237 or 301-435-3848. Internet, www.cancer.gov.

Center for Information Technology The Center provides, coordinates, and manages information technology to advance computational science.

For further information, contact the Center for Information Technology. Phone, 301-496-6203. Internet, www.cit.nih.gov.

Child Health and Human Development The Institute conducts and supports laboratory, clinical, and epidemiological research on the reproductive, neurobiologic, developmental, and behavioral processes that determine and

maintain the health of children, adults, families, and populations.

For further information, contact the National Institute of Child Health and Human Development. Phone, 301-496-5133. Internet, www.nichd.nih.gov.

Clinical Center The NIH Clinical Center is the clinical research hospital for NIH. Through clinical research, physician-investigators translate laboratory discoveries into better treatments, therapies, and interventions to improve the Nation's health. Clinical and laboratory research are both conducted at the NIH Clinical Center. This tandem approach drives all aspects of its operations. More than 350,000 patients from across the Nation have participated in clinical research studies since the Center opened in 1953. About 1,300 clinical research studies are currently in progress.

For further information, contact the Clinical Center. Phone, 301-496-2563. Internet, <http://clinicalcenter.nih.gov>

Complementary and Alternative

Medicine The Center is dedicated to exploring complementary and alternative healing practices in the context of rigorous science; educating and training complementary and alternative medicine researchers; and disseminating authoritative information to the public and professionals. Through its programs, the Center seeks to facilitate the integration of safe and effective complementary and alternative practices into conventional medicine.

For further information, call 888-644-6226. Internet, <http://nccam.nih.gov>.

Deafness and Other Communication

Disorders The Institute conducts and supports biomedical and behavioral research and research training on normal and disordered processes of hearing, balance, smell, taste, voice, speech, and language, and provides health information, based on scientific discovery, to the public. The Institute conducts diverse research performed in

its own laboratories and funds a program of research and research grants.

For further information, contact the National Institute on Deafness and Other Communication Disorders. Phone, 301-496-7243. Internet, www.nidcd.nih.gov.

Dental and Craniofacial Diseases The Institute conducts and supports research and research training into the causes, prevention, diagnosis, and treatment of craniofacial, oral, and dental diseases and disorders.

For further information, contact the National Institute of Dental and Craniofacial Research. Phone, 301-496-4261. Internet, www.nidcr.nih.gov.

Diabetes and Digestive and Kidney

Diseases The Institute conducts, fosters, and supports basic and clinical research into the causes, prevention, diagnosis, and treatment of diabetes, endocrine, and metabolic diseases, digestive diseases and nutrition, kidney and urologic diseases, and blood diseases.

For further information, contact the National Institute of Diabetes and Digestive and Kidney Diseases. Phone, 301-496-3583. Internet, www.niddk.nih.gov.

Drug Abuse The Institute's primary mission is to lead the Nation in bringing the power of science to bear on drug abuse and addiction through the strategic support and conduct of research across a broad range of disciplines and the rapid and effective dissemination and use of the results of that research to significantly improve drug abuse and addiction prevention, treatment, and policy.

For further information, contact the National Institute on Drug Abuse. Phone, 301-443-1124. Internet, www.nida.nih.gov.

Environmental Health Sciences The Institute reduces the burden of human illnesses and disability by understanding how the environment influences the development and progression of human disease. To have the greatest impact on preventing disease and improving human health, Health Sciences focuses on basic science, disease-oriented research,

global environmental health, and multidisciplinary training for researchers.

For further information, contact the National Institute of Environmental Health Sciences. Phone, 919-541-3345. Internet, www.niehs.nih.gov.

Fogarty International Center The Center addresses global health challenges through innovative and collaborative research and training programs. It also supports and advances the NIH mission through international partnerships.

For further information, contact the Fogarty International Center. Phone, 301-496-2075. Internet, www.fic.nih.gov.

General Medical Sciences The Institute supports basic biomedical research and research training in areas ranging from cell biology, chemistry, and biophysics to genetics, pharmacology, and systemic response to trauma.

For further information, contact the National Institute of General Medical Sciences. Phone, 301-496-7301. Internet, www.nigms.nih.gov.

Heart, Lung, and Blood Diseases The Institute provides leadership for a national program in diseases of the heart, blood vessels, lung, and blood; sleep disorders; and blood resources. It conducts, fosters, and supports an integrated and coordinated program of basic research, clinical investigations and trials, observational studies, and demonstration and education projects.

For further information, contact the National Heart, Lung, and Blood Institute. Phone, 301-496-0554. Internet, www.nhlbi.nih.gov.

Human Genome Research The Institute, which helped lead the Human Genome Project, leads and supports a broad range of initiatives and studies aimed at understanding the structure and function of the human genome and its role in health and disease.

For further information, contact the National Human Genome Research Institute. Phone, 301-496-0844. Internet, www.genome.gov.

Medical Library The Library of Medicine serves as the Nation's chief medical information source and is authorized to provide medical library services and online bibliographic search capabilities, such as MEDLINE and

TOXLINE, to public and private agencies, organizations, institutions, and individuals.

For further information, contact the National Library of Medicine. Phone, 301-496-6308. Internet, www.nlm.nih.gov.

Mental Health The National Institute of Mental Health reduces the burden of mental illness and behavioral disorders through research on mind, brain, and behavior. To fulfill this public health mandate, the Institute uses powerful scientific tools to achieve better understanding of, expand and refine treatment for, and prevent these disabling conditions that affect millions of Americans.

For further information, contact the National Institute of Mental Health. Phone, 301-443-3673. Internet, www.nimh.nih.gov.

Minority Health and Health Disparities The Center advises the NIH Director and the Institute and Center Directors on the development of NIH-wide policy issues related to minority health disparities research, research on other health disparities, and related research training; develops a comprehensive strategic plan governing the conduct and support of all NIH minority health disparities research, research on other health disparities, and related research training activities; and administers funds for the support of that research through grants and through leveraging the programs of NIH.

For further information, contact the National Center for Minority Health and Health Disparities. Phone, 301-402-1366. Internet, www.ncmhd.nih.gov.

Neurological Disorders and Stroke The Institute's mission is to reduce the burden of neurological diseases. It conducts, fosters, coordinates, and guides research on the causes, prevention, diagnosis, and treatment of neurological disorders and strokes, and supports basic research in related scientific areas.

For further information, contact the National Institute of Neurological Disorders and Strokes Brain Resources and Information Network (BRAIN), P.O. Box 5801, Bethesda, MD 20824. Phone, 800-352-9424. Internet, www.ninds.nih.gov.

Nursing Research The Institute supports and conducts clinical and basic research and training on acute and chronic illness across the life span. It focuses on health promotion, disease prevention, health disparities, caregiving, management of symptoms, self-management, and the end of life. The Institute promotes and improves the health of individuals, families, communities, and populations. It seeks to extend nursing science by integrating the biological and behavioral sciences, applying new technologies to nursing research questions, improving the quality and effectiveness of interventions, and developing nursing research investigators.

For further information, contact the National Institute of Nursing Research. Phone, 301-496-0207. Internet, <http://nintr.nih.gov/nintr>.

Ophthalmological Diseases The Institute conducts, fosters, and supports research on the causes, natural history, prevention, diagnosis, and treatment of disorders of the eye and visual system. It also directs the National Eye Health Education Program.

For further information, contact the National Eye Institute. Phone, 301-496-5248. Internet, www.nei.nih.gov.

Research Resources The Center provides clinical research facilities for investigators to study a wide range of diseases. It enhances research capabilities in underserved institutions

and States and develops and provides access to new technologies that help researchers study virtually every human disease. The Center also develops and provides access to animal models to gain understanding of human genetics, disease mechanisms, and new therapeutic agents. Other grants programs support the purchase of shared instrumentation; provide training and career development for researchers; and educate the public about health issues.

For further information, contact the National Center for Research Resources. Phone, 301-435-0888. Internet, www.ncrr.nih.gov.

Scientific Review The Center for Scientific Review (CSR) organizes the peer review groups that evaluate the majority of grant applications submitted to NIH. These groups include experienced and respected researchers from across the country and abroad. Since 1946, CSR has ensured that NIH grant applications receive fair, independent, expert, and timely reviews—free from inappropriate influences—so NIH can fund the most promising research. CSR also receives all incoming applications and assigns them to the NIH Institutes and Centers that fund grants.

For further information, contact the Center for Scientific Review. Phone, 301-435-1111. Internet, www.csr.nih.gov.

For further information, contact the National Institutes of Health, 1 Center Lane, Bethesda, MD 20892. Phone, 301-496-4000. Internet, www.nih.gov.

Substance Abuse and Mental Health Services Administration

The Substance Abuse and Mental Health Services Administration (SAMHSA) focuses attention, programs, and funding on promoting life in the community with jobs, homes, and meaningful relationships with family and friends for people with, or at risk for, mental or substance abuse disorders. SAMSHA accomplishes this through an action-oriented, measurable mission of building

resilience and facilitating recovery. SAMSHA has a matrix management system that outlines and guides its activities in pursuit of this mission. The matrix includes 11 program priority areas. They are co-occurring disorders, substance abuse treatment capacity, seclusion and restraint, children and families, mental health system transformation, disaster readiness and

response, homelessness, older adults, HIV/AIDS and Hepatitis, and criminal and juvenile justice.

For further information, contact the Substance Abuse and Mental Health Services Administration, 1 Choke Cherry Road, Rockville, MD 20857. Phone, 240-276-2130. Internet, www.samhsa.gov.
