Harvest, Employment, Exports, and Prices in Pacific Northwest Forests, 1965–2010

Debra D. Warren

The **Forest Service** of the U.S. Department of Agriculture is dedicated to the principle of multiple use management of the Nation's forest resources for sustained yields of wood, water, forage, wildlife, and recreation. Through forestry research, cooperation with the States and private forest owners, and management of the National Forests and National Grasslands, it strives—as directed by Congress—to provide increasingly greater service to a growing Nation.

The U.S. Department of Agriculture (USDA) prohibits discrimination in all its programs and activities on the basis of race, color, national origin, age, disability, and where applicable, sex, marital status, familial status, parental status, religion, sexual orientation, genetic information, political beliefs, reprisal, or because all or part of an individual's income is derived from any public assistance program. (Not all prohibited bases apply to all programs.) Persons with disabilities who require alternative means for communication of program information (Braille, large print, audiotape, etc.) should contact USDA's TARGET Center at (202) 720-2600 (voice and TDD). To file a complaint of discrimination, write USDA, Director, Office of Civil Rights, 1400 Independence Avenue, SW, Washington, DC 20250-9410 or call (800) 795-3272 (voice) or (202) 720-6382 (TDD). USDA is an equal opportunity provider and employer.

Debra D. Warren is an economist, Pacific Northwest Research Station, 620 SW Main, Suite 400, Portland, OR 97205. The mailing address is P.O. Box 3890, Portland, OR 97208-3890.

Abstract

Warren, Debra D. 2011. Harvest, employment, exports, and prices in Pacific Northwest forests, 1965–2010. Gen. Tech. Rep. PNW-GTR-857. Portland, OR: U.S. Department of Agriculture, Forest Service, Pacific Northwest Research Station. 17 p.

Provides historical information on log harvest; employment in the forest industries; international trade in logs, lumber, and chips; and volume and average prices of sawtimber stumpage sold by national forests.

Keywords: Log harvest, employment (forest products industries), exports (forest products), stumpage prices.

Summary

The following tables have been compiled from historical publications of “Production, Prices, Employment, and Trade in Northwest Forest Industries” (1968–2010).¹ This report presents data from 1965 through 2010 for the Pacific Northwest forest industries. In most industries, dramatic changes are shown through the years. In the Oregon and Washington harvest statistics, high peaks occurred in 1968 and 1973, and the lowest harvests were in 2009 for both Oregon and Washington. Employment in the forest industries has continued to decline steadily. Enormous changes are shown in log exports from the Pacific Northwest: the highest volumes were in 1988 and 1989, and now the volumes are back to the 1960s level. The chip market remained fairly steady in volume, with prices hitting their peaks in 1995. The lumber exports (like the logs) peaked in 1988 and 1989, but the total average prices were highest in 2006. The national forest sawtimber volume was highest in 1970 and dropped off to the lowest in 2000 with only 155 million board feet.

^a In 2006, west-side and east-side Douglas-fir were combined.

Source: Forest Service, U.S. Department of Agriculture, Pacific Northwest Region; includes Oregon and Washington and a small portion of northern California.

Common Name Scientific Name

Cedars	<i>Juniperus</i> spp.
Douglas-fir	<i>Pseudotsuga menziesii</i> (Mirb.) Franco
Engelmann spruce	<i>Picea engelmannii</i> Parry ex Engelm.
Jeffrey pine	<i>Pinus jeffreyi</i> Grev. & Balf.
Larch	<i>Larix</i> spp.
Lodgepole pine	<i>Pinus contorta</i> Dougl. ex Laws.
Noble fir	<i>Abies procera</i> Rehd.
Ponderosa pine	<i>Pinus ponderosa</i> Dougl. ex Laws.
Shasta red fir	<i>Abies shastensis</i> (Lemmon)
Sitka spruce	<i>Picea sitchensis</i> (Bong.) Carr.
Sugar pine	<i>Pinus lambertiana</i> Dougl.
True firs	<i>Abies</i> spp.
Western hemlock	<i>Tsuga heterophylla</i> (Raf.) Sarg.
Whiteback pine	<i>Pinus albicaulis</i> Engelm.

Metric Equivalents

When you know:	Multiply by:	To get:
Board feet (logs)	4.53	Cubic meters
Board feet (lumber)	2.36	Cubic meters
Tons (short)	.907	Metric tons
