

Serving Vegetables in the Child and Adult Care Food Program

Offering vegetables at meals and snacks:

- Helps children and adults get important nutrients like potassium, folate (folic acid), vitamin A, and vitamin C.
- Provides dietary fiber, which contributes to a feeling of fullness.
- Adds color, crunch, and flavor to meals and snacks.
- Helps reduce the risk of certain diseases, like heart disease and Type 2 diabetes, later in life.

Adding Vegetables to Your CACFP Menu

You can serve vegetables as part of a reimbursable breakfast, lunch, supper, or snack in the Child and Adult Care Food Program (CACFP).

Breakfast

Example 1

Example 2

Example 3

(up to three times per week)

Lunch and Supper

Example 1

Example 2

▲ A second vegetable can be served in place of fruit at lunch and supper.

Snacks

Example 1

Test Your CACFP Vegetable Knowledge!

Does this food count as a vegetable in the CACFP? Mark Yes or No, and then check your answers on page 4.

- | | | | |
|------------------------|--|--------------------------------------|--|
| 1. White Potatoes | <input type="checkbox"/> Yes <input type="checkbox"/> No | 8. Canned Tomatoes (store-bought) | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 2. Avocados | <input type="checkbox"/> Yes <input type="checkbox"/> No | 9. Ketchup | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 3. Macaroni and Cheese | <input type="checkbox"/> Yes <input type="checkbox"/> No | 10. Black Beans | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 4. Strawberry Jelly | <input type="checkbox"/> Yes <input type="checkbox"/> No | 11. Rice | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 5. Cornbread | <input type="checkbox"/> Yes <input type="checkbox"/> No | 12. Canned Green Beans (home-canned) | <input type="checkbox"/> Yes <input type="checkbox"/> No |
| 6. Pumpkin | <input type="checkbox"/> Yes <input type="checkbox"/> No | | |
| 7. Hominy (whole) | <input type="checkbox"/> Yes <input type="checkbox"/> No | | |

Meal Planning Considerations

The chart below shows examples of amounts of food needed to credit as $\frac{1}{4}$ -cup and $\frac{1}{2}$ -cup of vegetables in the CACFP. For more information, visit the Food Buying Guide for Child Nutrition Programs at <https://foodbuyingguide.fns.usda.gov>.

Vegetable	$\frac{1}{4}$ cup	$\frac{1}{2}$ cup
Carrot, Baby	3 baby carrots	6 baby carrots
Carrot Stick ($\frac{1}{2}$ " by 4")	3 sticks	6 sticks
Celery Stick ($\frac{1}{2}$ " by 4")	3 sticks	6 sticks
Corn, on cob (about 5" - 6" long)	$\frac{1}{2}$ ear	1 ear
Cucumber Sticks (3" by $\frac{3}{4}$ ")	3 sticks	6 sticks
Leafy Greens (collard greens, kale, spinach, etc.), Cooked	$\frac{1}{4}$ cup	$\frac{1}{2}$ cup
Leafy Greens (kale, lettuce, spinach, etc.), Raw	$\frac{1}{2}$ cup	1 cup
Potato, Sweet (2 $\frac{1}{4}$ " or more in diameter)	$\frac{1}{4}$ sweet potato	$\frac{1}{2}$ sweet potato
Potato, White or Russet (about 6 oz)	$\frac{1}{2}$ potato	1 potato
Tomato, Cherry	3 cherry tomatoes	6 cherry tomatoes
Tomato Slice ($\frac{1}{8}$ " thick)	4-5 slices	8-10 slices

Giving Vegetables Credit: How Vegetables Count in the Child and Adult Care Food Program

- ✓ **Vegetables in amounts** smaller than $\frac{1}{8}$ cup do not credit toward a reimbursable lunch, supper, or snack.
- ✓ **Raw leafy green vegetables** (spinach, kale, collards, and lettuce) credit for half of the amount served. For example, one cup of raw leafy greens credits as $\frac{1}{2}$ cup of vegetables.
1 cup raw spinach = $\frac{1}{2}$ cup of vegetables
- ✓ **Cooked leafy green vegetables** credit for the entire amount served.
1 cup steamed spinach = 1 cup of vegetables
- ✓ **Dried vegetables** credit for twice the amount served. For example:
 $\frac{1}{4}$ cup sun-dried tomatoes = $\frac{1}{2}$ cup of vegetables
- ✓ **Dry beans and peas** (legumes), including black beans, split peas, and lentils, can credit as vegetables or as meat alternates, but cannot credit toward both components in the same meal.
- ✓ **Pureed vegetables** used in smoothies credit as 100 percent vegetable juice. Juice may only be served once per day in the CACFP.
- ✓ **A second, different vegetable** can be served in place of the fruit component at lunch and supper.

Other Considerations

Reduce the risk of choking by:

- Cutting raw vegetables into smaller pieces.
- Cooking raw vegetables until slightly soft.
- Cutting round, soft vegetables like cherry tomatoes into small pieces no larger than one-half inch ($\frac{1}{2}$ ").

Make Fridays Try-Days in the CACFP

Look for vegetables that are grown in your area and have a taste-testing event. Look for recipes, nutrition education resources, and Try Day stickers at: <https://teamnutrition.usda.gov>.

 Spring	 Summer	 Fall	 Winter
Asparagus	Bell Peppers	Brussels Sprouts	Beets
Broccoli	Corn	Cauliflower	Cabbage
Lettuce	Crookneck Squash	Pumpkins	Kale
Spinach	Tomatoes	Sweet Potatoes	Winter Squash
