MODERN BOOKS ON HOROLOGY

Contents

1. General Information
2. Historical and Descriptive Books
3. Technical Books
4. Government Publications

1. General Information

The purpose of this letter circular is to present a list of books which will be found valuable for the use of watchmakers, collectors, and others interested in timepieces and in their performance and repair. No attempt has been made to include books earlier than 1900 or to list books in other than the English language, or numerous articles published in trade journals and horological magazines.

Some of the books listed are obtainable from dealers; some, now unobtainable, can be found in public libraries. Price lists of books now on the market may be obtained from the watchmakers' supply dealers or from the following:

The American Horologist, 226 Sixteenth St., Denver, Colo.

The American Library Service, 117 West 48th St., New York, N. Y.

Henry Paulson & Co., 37 South Wabash Ave., Chicago, Ill.

Jewelers Circular - Keystone, Book Department, 100 East 42nd St.,  
New York, N. Y.

National Jeweler, 531 South LaSalle St., Chicago, Ill.

Books not found at these sources may often be found by advertising in the jewelers' trade journals.

A more extensive list of references on time, timepieces, and related subjects will be found in Time and Timepieces by Willis I. Milham, Appendix V, page 569 (1923).

2. Historical and Descriptive Books

1. Time Telling Through the Ages - Harry C. Brearly  
Doubleday, Page & Co., New York, N.Y. 1920
2. Old Clocks and Watches and Their Makers - F. J. Britten  
E. & F.N. Spon, Ltd., London, England, 5th Ed. 1922
3. Time and Timepieces Willis I. Milham  
MacMillan Co., New York, N. Y. 1923
4. Time Measurement L. Bolton  
D. Van Nostrand Co., New York, N.Y. 1924
5. North Country Clockmakers of the 17th, 18th and 19th  
Centuries, Andrew Reid & Co., Newcastle-on-Tyne,  
England 1925
