AN ACT To provide for the compiling and publishing of the Official Register of the United States

Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled, That the United States Civil Service Commission shall cause to be compiled, edited, indexed, and published each year an Official Register of the United States, which shall contain a full and complete list of all persons occupying administrative and supervisory positions in the legislative, executive, and judicial branches of the Government, including the District of Columbia, in connection with which salaries are paid from the Treasury of the United States. The register shall show the name; official title; salary, compensation, and emoluments; legal residence and place of employment for each person listed therein: *Provided, however,* That the Official Register shall not contain the name of any postmaster or assistant postmaster, or any officer of the Army, Navy, and Marine Corps, unless such officer is assigned as an administrative officer.

SEC. 2. To enable the United States Civil Service Commission to compile and publish the Official Register of the United States as early as practicable after the first of June of each year, the Executive Office, the legislative and judicial branches of the Government, the Commissioners of the District of Columbia, and the head of each executive department, independent office, establishment, and commission of the Government shall, as of the 1st day of May of each year, beginning with May 1, 1936, supply to the United States Civil Service Commission the data required by this Act, upon forms approved and furnished by the Commission, in due time to permit the publication of the Official Register as herein provided; and no extra compensation shall be allowed to any officer, clerk, or employee of the United States Civil Service Commission for compiling the Official Register.

The head of each executive department, independent office, or establishment of the Government, not mentioned above, desiring copies of the Official Register shall issue, on or before May 1 of each year, a requisition upon the Public Printer for the number of copies of the Official Register necessary to meet its official requirements, the cost of such supply to be charged to the appropriations available for printing and binding for such executive department, independent office, or establishment.

SEC. 5. That section 510 of the Revised Statutes of the United States and section 2 of the Act discontinuing the printing of certain Government publications, and for other purposes (43 Stat. 1105), approved March 3, 1925, and all Acts or parts of Acts amendatory thereof or supplementary thereto be, and the same are hereby, repealed.

Approved, August 28, 1935.

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS

The National Advisory Committee for Aeronautics was established by act of Congress approved March 3, 1915 (U. S. C., title 50, sec. 151), and the membership increased from 12 to 15 by act approved March 2, 1929 (U. S. C., Suppl. V, title 50, sec. 151 (a)). Its membership is appointed by the President and consists of two representatives each of the War and Navy Departments from the offices in charge of military and naval aeronautics, two representatives of the Civil Aeronautics Authority (Civil Aeronautics Act of 1938), one representative each of the Smithsonian Institution, the United States Weather Bureau, and the National Bureau of Standards, together with six additional persons who are "acquainted with the needs of aeronautical science, either civil or military, or skilled in aeronautical engineering or its allied sciences." All the members, as such, serve without compensation. The law provides that the Committee shall "supervise and direct the scientific study of the problems of flight, with a view to their practical solution * * *," and also "direct and conduct research and experiment in aeronautics." Under the rules and regulations formulated by the Committee and approved by the President, there are technical subcommittees organized along lines similar to the main Committee and including specially appointed representatives of the War and Navy air organizations and the Civil Aeronautics Authority, with all members serving as such without compensation. The major technical subcommittees are those dealing with aerodynamics, power plants for aircraft, aircraft materials, and aircraft structures. The aeronautical research needs of the War and Navy Departments and the Civil Aeronautics Authority are referred to and coordinated by the Committee, and programs of fundamental research as agreed upon to meet the needs of all governmental agencies are executed under the centralized and direct control of the Committee at its research stations known as the Langley Memorial Aeronautical Laboratory, at Langley Field, Va., the Ames Aeronautical Laboratory, at Moffett Field, Calif., and the Aircraft Engine Research Laboratory, at Cleveland, Ohio. The Committee also operates at its Washington headquarters the Office of Aeronautical Intelligence, for the collection, classification, and dissemination of scientific and technical data on aeronautics comprising the results of Committee researches and similar information obtained from all parts of the world. The Committee also passes upon the merits of aeronautical inventions and designs submitted to any branch of the Government.
