Pay tables are included and a name index closes the Register. In addition there is issued every quarter a Navy Directory which lists alphabetically "Officers of the United States Navy and Marine Corps; also including officers of the U. S. Naval Reserve (Active), Marine Corps Reserve (Active) and Foreign Officers Serving with the Navy." This Directory gives complete information concerning the organization of the Navy Department and of the Naval Establishment including ships and shore stations. Copies of the Register can be secured by purchase at \$1.25 a copy from the Superintendent of Public Documents, Washington, D. C., and copies of the Directory at 25 cents a copy.

COLUMBIA INSTITUTION FOR THE DEAF

Columbia Institution for the Deaf is a corporation established in 1857 by private enterprise. It is now maintained by direct appropriations by Congress, by tuition fees, and by endowment. The act of Congress in 1857 incorporating the institution allowed \$150 per annum from the United States Treasury for each indigent pupil from the District of Columbia. In 1858 Congress granted \$3,000 a year for five years for salaries and incidental expenses of the institution, and authorized free admission of deaf and dumb or blind children of men in the military or naval service of the United States. In 1865 Congress provided for the transfer of the blind children and removed the words "and the blind" from the corporate name of the institution. In 1864 Congress authorized the institution to confer collegiate degrees. With this new departure Congress made a considerable increase in its annual grants and provided that a limited number of students be admitted to the collegiate department from the several States and Territories free of charge. The number of students thus admitted free was at first 10; the number has been increased by acts of Congress until now it is 145. In 1887 the college was opened to young women and in 1891 a department for the training of hearing teachers of the deaf was established.

UNITED STATES COUNCIL OF NATIONAL DEFENSE

The Council of National Defense, composed of the Secretary of War, the Secretary of the Navy, the Secretary of the Interior, the Secretary of Agriculture, the Secretary of Commerce, and the Secretary of Labor, was charged by the act of August 29, 1916, among other things, with the "coordination of industries and resources for the national security and welfare" and with the "creation of relations which will render possible in time of need the immediate concentration and utilization of the resources of the Nation." No appropriations have been made for nor any meetings held by the council since the fiscal year 1921. The records of the Council of National Defense, as well as those of the War Industries Board and the Committee on Public Information, are now under the jurisdiction of the Assistant Secretary of War, who is charged by law (act of June 4, 1920), with the "assurance of adequate provision for the mobilization of material and industrial organization essential to war-time needs." The records of the Council of National Defense are in the custody of the Archivist of the United States.

NATIONAL ADVISORY COMMITTEE FOR AERONAUTICS

The National Advisory Committee for Aeronautics was established by act of Congress approved March 3, 1915 (U. S. C., title 50, sec. 151), and the membership increased from 12 to 15 by act approved March 2, 1929 (U. S. C., Suppl. V, title 50, sec. 151 (a)). Its membership is appointed by the President and consists of two representatives each of the War and Navy Departments from the offices in charge of military and naval aeronautics, two representatives of the Civil Aeronautics Authority (Civil Aeronautics Act of 1938), one representative each of the Smithsonian Institution, the United States Weather Bureau, and the National Bureau of Standards, together with six additional persons who are "acquainted with the needs of aeronautical science, either civil or military, or skilled in aeronautical engineering or its allied sciences." All the members, as such, serve without compensation. The law provides that the Committee shall "supervise and direct the scientific study of the problems of flight, with a view to their practical solution, * * *" and also "direct and conduct research and experiment in aeronautics." Under the rules and regulations formulated by the Committee and approved by the President, there are technical subcommittees organized along lines similar to the main Committee and including specially appointed representatives of the War and Navy air organizations and the Civil Aeronautics Authority, with all members serving as such without compensation. The major technical subcommittees are those dealing with aerodynamics, power plants for aircraft, aircraft materials, and aircraft structures. The aeronautical research needs of the War and Navy Departments and the Civil Aeronautics Authority are referred to and coordinated by the Committee, and programs of fundamental research as agreed upon to meet the needs of all governmental agencies are executed under the centralized and direct control of the Committee at its research station, known as the Langley Memorial Aeronautical Laboratory, at Langley Field, Virginia. The Committee also conducts in Washington the Office of Aeronautical Intelligence, for the collection, classification, and dissemination of scientific and technical data on aeronautics obtained from all parts of the world, and passes upon the merits of aeronautical inventions and designs submitted to any branch of the Government.

The Pan American Sanitary Bureau is the central coordinating sanitary agency as well as the general collection and distribution center of sanitary information of the American Republics. It was created by the Second International Conference of American Republics (1901-2), organized by the First Pan American Sanitary Conference (1902), and reorganized by the Sixth Pan American Sanitary Conference (1920). Its functions and duties are fixed by the Pan American Sanitary Code (1924) and modified and amplified by the various international sanitary and other conferences of the American Republics. The Bureau is concerned in maintaining and improving the health of all the people of the 21 American Republics and in preventing the international spread of communicable diseases. It acts as a consulting office for the national directors of health of the American Republics, prepares the programs and publishes the proceedings of the Pan American Sanitary Conferences and the Conferences of the National Directors of Health, and carries out epidemiological and other scientific studies and investigations. It also publishes in three languages a monthly Pan American Sanitary Bulletin, weekly reports on disease prevalence, and a series of other publications on sanitary subjects. The Bureau is governed by a council elected at each Pan American Sanitary Conference. Its executive officer is a director, also chairman of the board, who is elected at the same conference. The necessary personnel, including an assistant director, editor, traveling representatives, epidemiologists, experts, translators, and clerks, is assigned or employed by the director to attend to the various duties imposed on the Bureau by the Pan American Sanitary Code and the Pan American Sanitary Conferences. The Bureau is supported by a fund contributed by all the American Republics in proportion to their populations. Address all correspondence to the Director, Pan American Sanitary Bureau, Washington, D. C.

The Pan American Union (formerly International Bureau of the American Republics) is the official international organization of all the republics of the Western Hemisphere, founded and maintained by them for the purpose of exchanging mutually useful information and fostering commerce, intercourse, friendship, and peace. It is supported through their joint contributions, each nation annually paying that part of the budget of expenses which its population bears to the total population of all the republics. Its general control is vested in a governing board made up of the representatives in Washington of all the Latin-American governments and the Secretary of State of the United States. It is strictly international in its scope, purpose, and control, and each nation has equal authority in its administration. The Pan American Union occupies and owns a monumental building on extensive grounds in Washington, D. C., overlooking the White House park.
