## INTRODUCTION

The book holdings of the Air Force Academy Library in Psychology and its related disciplines are large, and represent the many sub-areas of research and interest within the broad subject divisions of the field. This bibliography is intended to indicate these many areas, and each title is only a representative for its fellows, to show the types of material available.

Further study will be facilitated by use of the suggested subject headings in the Library card catalog, the list of reference sources included, and the list of periodical indexes useful in the field.

In cooperation with the Department of Psychology and Leadership, this bibliography was prepared by Mrs. Oattie K. Sutton, Reference Librarian.
