

Full Cord Firewood Storage

- Easy to build
- Inexpensive materials
- Video instructions at:
www.epa.gov/burnwise/videos

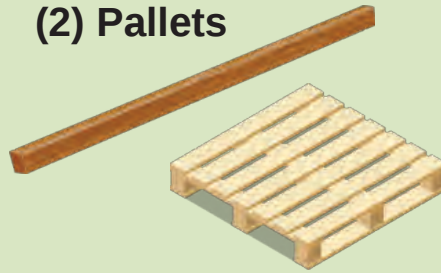

Base

- (4) Cinder blocks
- (2) Pallets
- (2) 8' landscape timbers

Ends

- (2) 2"x4"x6' treated lumber
- (2) Pallets

Roof

- (1) 10'x12' tarp

Tools: Gloves

Tips

- Leave some space between the stacks to allow air to circulate
- Pallets are often available for free at retail shops and hardware stores
- Slide treated lumber into cinder block to support upright pallets, see video
- Use a large enough roof so the overhang protects wood from rain & snow
