## THE CONGRESSIONAL RECORD.

Under the joint resolution of Congress, approved June 20, 1874, the Congressional Printer is directed to keep a separate and exact account in detail of all expenditures for printing, mailing, and binding the Congressional Records, &c.; and that he shall publish the amounts thus yearly expended in his next succeeding annual report, and each succeeding report, separately from the other disbursements of his office.

The first session of the Forty-fourth Congress closed on the 15th day of last August, and this office has used its best efforts to print, bind, and deliver the Record at the earliest practicable moment. This end has just been reached, and hence the completion of my annual report has been delayed necessarily, under the law, until the full expense of the Congressional Record for the last session could be ascertained and reported in detail.

I would most respectfully call your attention to table No. 6 of this report for information relating to the expenditures on account of the daily and bound editions of the Record for the last session of Congress. I would call your attention, also, to table No. 9, which exhibits the names of those employed on the Record and the amount paid to each.

The number of bound volumes of the Record for the 1st session, 44th Congress, including the index, are eight, comprising 7,128 pages. The number of copies of each volume printed and bound are 7,400, aggregating 59,200 volumes. These have been disposed of as follows:

Delivered to Senate folding-room.....	20,680 volumes.
Delivered to House folding-room.....	36,680 volumes.
Delivered to House library .....	800 volumes.
Delivered to Library of Congress.....	416 volumes.
Delivered to officers of the House .....	72 volumes.
Delivered to Executive Departments on requisition .....	160 volumes.
Sold .....	16 volumes.
On hand.....	376 volumes.
	59,200 volumes.

The cash receipts on account of Congressional Record for 1st session 44th Congress are as follows:

From sales of Record.....	\$4,913 02
From sales of paper-shavings .....	1,235 40
From sales of paste-board cuttings.....	80 41
	6,228 81
The amount received for speeches printed from matter contained in Record .....	\$16,674 04

#### PRINTING AGRICULTURAL REPORTS.

By an act to provide for the printing and distribution of the reports of the Commissioner of Agriculture for the year 1874 and 1875, approved August 14, 1876, it was ordered "that the Public Printer be, and he is hereby, directed to cause to be printed one hundred thousand copies of the Report of the Commissioner of Agriculture for the year eighteen hundred and seventy-four, twenty thousand copies of which shall be for the use of the Senate and eighty thousand copies for the use of the House of Representatives; and that he also cause to be printed two hundred thousand copies of the Report of the Commissioner of Agriculture for the year eighteen hundred and seventy-five, forty-three thousand seven hundred and fifty copies of which shall be for the

use of the Senate, one hundred and thirty-one thousand two hundred and fifty copies shall be for the use of the House of Representatives, and twenty-five thousand copies shall be for the use of the Commissioner of Agriculture; and that the sum of one hundred and thirty thousand dollars, or so much thereof as may be necessary, is hereby appropriated for the execution of the work, to be paid out of any money in the Treasury not otherwise appropriated."

Of the report of 1874, which makes 464 pages, 100,000 copies have been printed, and the entire edition has been bound and delivered as required by the order.

The report of 1875 makes 536 pages of printed matter, while 1874 makes 464 pages. The report of 1874 contains 18 pages of cuts, while that of 1875 contains 128 pages. The expense for printing the 72 additional pages of letter-press, the 110 pages of cuts not contained in the report of 1874, together with the labor of folding and pasting the same in the volumes, is \$37,911.64, in excess of the basis of estimate. This was estimated for by this office upon the basis of the number of pages contained in that of 1874, (that being the data furnished by the House Printing Committee for that purpose.) The sum appropriated being considerably less than the estimate made upon the basis furnished, it may not be possible for this office to furnish the full number called for by the appropriation. The work of printing and binding the report of 1875 is in progress, and 25,274 copies have been already delivered.

In conclusion, it affords me unalloyed satisfaction to state that my efforts in the discharge of my duties during the past year have been earnestly, faithfully, and efficiently seconded by my subordinates, to an extent that challenges grateful acknowledgment. With their aid a very large amount of printing and binding has been executed with admirable skill, taste, and expedition.

All of which is respectfully submitted.

A. M. CLAPP,  
*Public Printer.*
