## Brief History of the Monthly Catalog

---

The Printing Act of 1895 specified two products for the description and collocation of public documents.

- The Catalogue of the Public Documents of the [...] Congress and of All Departments of the Government of the United States (Document Catalogue) fulfilled the requirement for a “comprehensive index of public documents” to be prepared “at the close of each regular session of Congress.”
- The Monthly Catalog of United States Government Publications (MoCat) met the stipulation for a “Monthly Catalogue . . . which shall show the publications printed during a month, where [those publications are] obtainable, and the price thereof.”

Thus, the original relationship was a current awareness listing (in the MoCat) and a permanent, authoritative, and comprehensive catalog (in the Document Catalogue).

In 1947, the cost and perennial difficulty of compiling the Document Catalogue led the Superintendent of Documents to recommend to the Joint Committee on Printing that the Catalogue be discontinued after the edition for 1940 was completed. The MoCat began to serve in the capacity of a single source for bibliographic information, fulfilling the requirements of the 1895 act, which stand to this day in 44 USC §1710-1711.

From 1895 until 1976, the Government Printing Office (GPO) arranged and

described documents according to its own standards and systems. A major revision of the appearance and functionality of the MoCat took place in July 1976. GPO catalogers began producing machine-readable cataloging records (MARC) conforming to Anglo-American Cataloging Rules (AACR), Library of Congress Subject Headings (LCSH), the Ohio College Library Center (later the Online Computer Library Center, OCLC) bibliographic standards and formats, and other applicable national level standards. Since that time, GPO has gradually expanded the emphasis of its cataloging and indexing program from the production of a single printed product to the creation and maintenance of a database of high-quality, standards-based bibliographic records. These records are used by GPO and the library community to support an expanding array of bibliographic control activities.

The bibliographic data used to produce this abridged paper edition is also used to produce a World Wide Web (WWW) edition. The Web edition links users directly from bibliographic citations to electronic publications, and assists the public to locate information in depository libraries and through GPO sales. GPO bibliographic data is also available to libraries from the Library of Congress and from a variety of commercial sources for the creation of high quality local databases and public access catalogs.

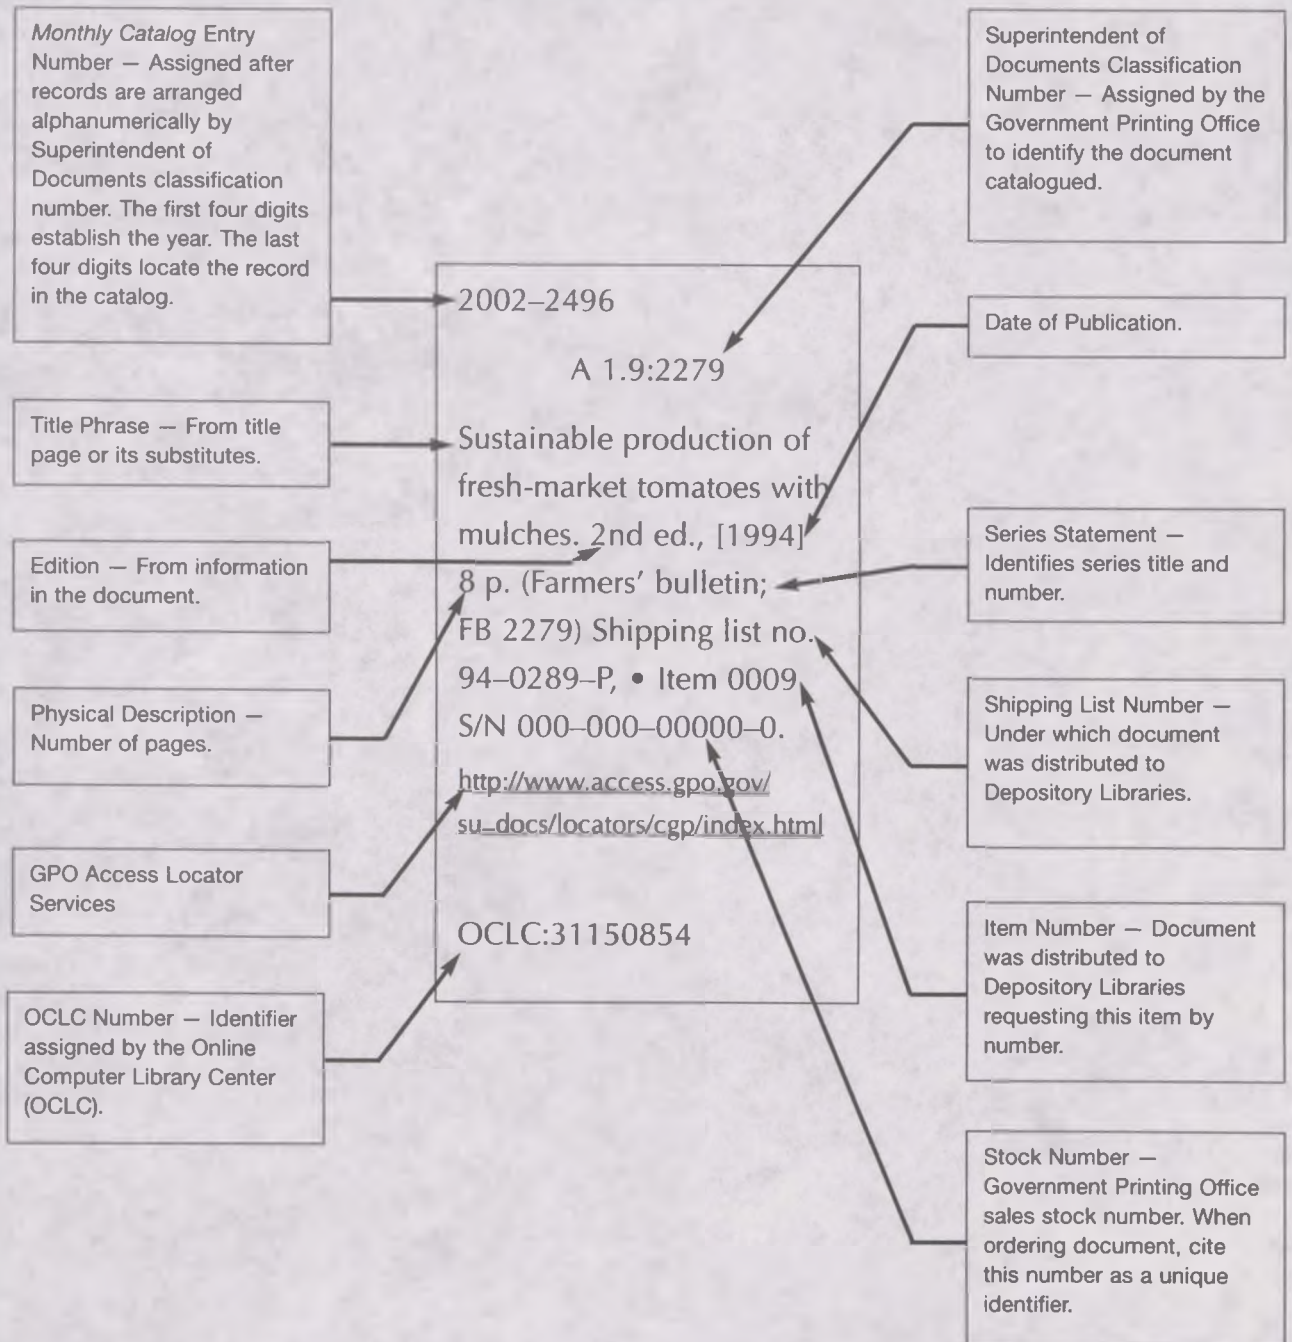

[The body of the document contains extremely faint and illegible text, likely bleed-through from the reverse side of the page. The text is too light to transcribe accurately.]

# Catalog Arrangement/Sample Entry

This catalog contains brief descriptions of Federal publications arranged in Superintendent of Documents classification number order and may be accessed by title keyword index (alphabetical list of truncated titles, arranged by important words selected from publication titles). These brief

records are based on the full bibliographic records available in the "online version of the *Monthly Catalog* which is cumulated from 1994, available as the *Catalog of Government Publications (CGP)* on the GPO Access locator services" at [http://www.access.gpo.gov/su\\_docs/locators/cgp/index.html](http://www.access.gpo.gov/su_docs/locators/cgp/index.html).

# Documents Sales Information

The Superintendent of Documents (SuDocs) of the U.S. Government Printing Office (GPO) is authorized by law to sell copies of Government Publications. SuDocs currently sells more than 10,000 titles, just a small portion of the publications issued each year by the Federal Government. Prices for Publications sold by the Superintendent of Documents are established in accordance with Title 44 of the United States Code. All prices include cost of regular shipping and handling.

SuDocs offers several convenient ways to order publications. The most recent information concerning publications sold through GPO is available online at <http://bookstore.gpo.gov>

Customers on DIALOG system may transfer their orders via DIALORDER.

An order form is included in the Preliminary Pages of this catalog. Photocopies of this form are acceptable. All orders should indicate the complete title, 12-digit GPO stock number and price for each title requested, and payment. Checks and money orders should be payable to the Superintendent of Documents. Orders charged to a VISA, MasterCard, Discover/NOVUS or American Express account should include the account number and expiration date. Orders also may be charged to a Superintendent of Documents (SOD) deposit account.

If a GPO stock number does not appear in Monthly Catalog text entry or if it does not say "For sale by the Superintendent of Documents," the publication cannot be purchased from the Government Printing Office.

All sales are final. Product returns are accepted only when an error was made by GPO. To report a problem or request return authorization, please contact the appropriate service section.

# FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Over 1,300 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-three of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. To determine which depository libraries have selected copies of publications listed in this catalog, consult the Superintendent of GPO Access Web site. A complete listing of regional depositories follows. Locate the depository libraries in your area online at [http://www.access.gpo.gov/su\\_docs/locators/findlibs/index.html](http://www.access.gpo.gov/su_docs/locators/findlibs/index.html).
