MEMORANDUM

TO : [Illegible]

FROM : [Illegible]

SUBJECT : [Illegible]

[Illegible text follows, including a paragraph of text and a signature block area.]

INTRODUCTION

Since the *Monthly Catalog of United States Government Publications (MOCAT)* was first published one hundred years ago, there have been few major format changes. Before this year, the most dramatic changes occurred in 1976, when the Anglo-American Cataloging Rules were first used to create catalog records for the MOCAT and, at the same time, these records were made available in electronic form through entry into the OCLC system. Of equal, or perhaps greater significance, are the changes to the MOCAT that are now taking place.

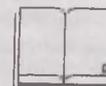

Beginning in 1996, a new CD-ROM version of the MOCAT will be introduced. Most of the features of the traditional paper version are included in the CD-ROM version. An online version of the catalog is now available on the World Wide Web. These new MOCAT formats will make it easier for users to retrieve information on Federal publications. The paper version of the MOCAT will continue to be available with shorter entries and a keyword title index. The microfiche version will be discontinued after the December 1995 issue. The magnetic tape version of the MOCAT will continue in its present form.

Users now have access to cataloged records of Federal publications in the following formats:

*Monthly Catalog of United States
Government Publications on CD-ROM*
(Monthly issues cumulate from beginning of year includes cumulative indexes)

*Monthly Catalog of United States
Government Publications (paper edition)*
(This new paper version of the MOCAT has short entries and a title keyword index (the CD-ROM version will include other indexes formerly included in paper version))

Online version of MOCAT available on GPO Access Federal Locator service via World Wide Web. (Users of the online Locator service can identify publications and locate a depository library that includes them in their collection. New records may be accessed daily on the Internet at: http://www.access.gpo.gov/su_docs)

GPO Cataloging Tapes may be purchased from:

USERS' GUIDE

Catalog Arrangement and Indexes

The bibliographic entries in the *Monthly Catalog* are arranged in Superintendent of Documents classification number order. Each record is also assigned a unique catalog number, which consists of a two-digit prefix representing the catalog year, followed by a sequential number beginning with 1 in the first issue of each year. Within this arrangement, the publications of each Government author are further identified by the name and address of the issuing agency.

Catalog entries in this catalog may be accessed by title keyword index (an alphabetical list of truncated titles, arranged by important words selected from publication titles).

Please consult the CD-ROM version of the MOCAT for indexing accessed by:

Indexes in the *CD-ROM version of the Monthly Catalog* will cumulate from the beginning of the calendar year through the current issues.

Abbreviations

The abbreviations used in the bibliographic records all versions of the *Monthly Catalog* are those described in the *Anglo-American Cataloguing Rules*, 2nd ed., and the *GPO Classification Manual: A Practical Guide in the Superintendent of Documents Classification System*.

CHAPTER 1

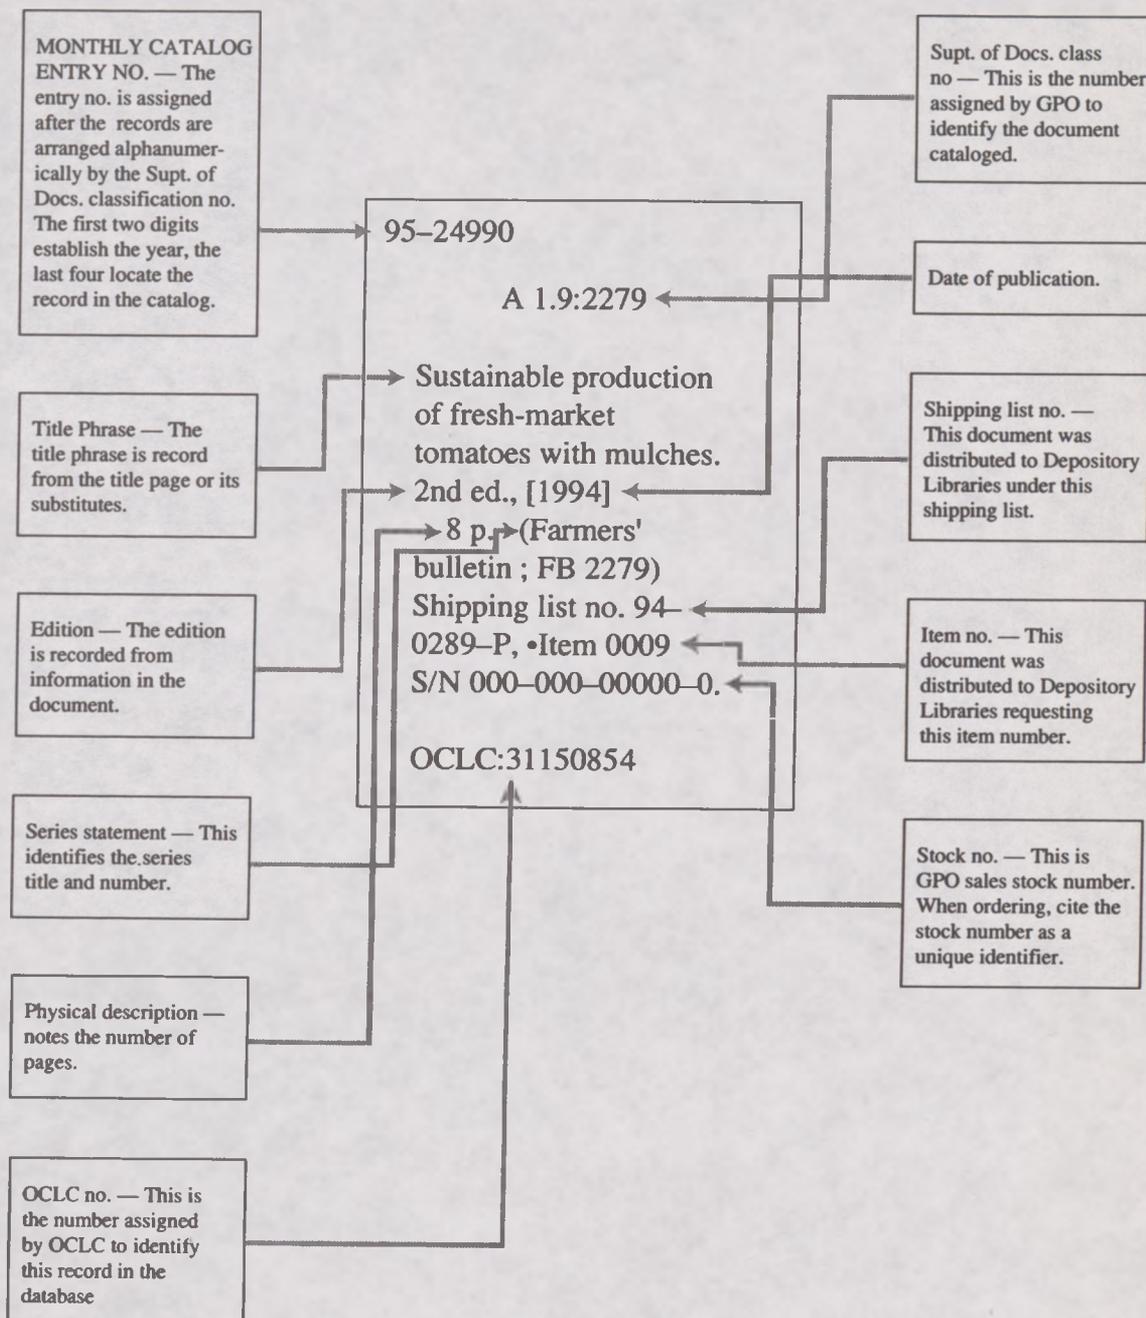

The first part of the book discusses the history of the subject and the various methods used to study it. It covers the development of the field from its early beginnings to the present day, highlighting the contributions of key researchers and the evolution of theoretical frameworks. The text also explores the practical applications of the research and the challenges faced by the community.

CHAPTER 2

The second part of the book focuses on the methodology and data analysis. It provides a detailed overview of the experimental techniques used to collect data and the statistical methods employed to analyze the results. The author discusses the strengths and limitations of these approaches and offers guidance on how to design and conduct effective research. The final section of the book summarizes the findings and discusses the implications for future research.

SAMPLE ENTRY

This catalog contains brief descriptions of Federal publications. These brief records are based on the full bibliographic records that are available in the CD-ROM version of the *Monthly Catalog* and the online version of the *Monthly Catalog* available on the GPO ACCESS Locator services.

B	200	kg
C	300	kg
D	400	kg
E	500	kg

The data shows a steady increase in values over the period. The growth rate is consistent, indicating a stable trend. The overall performance is positive, with significant improvements in key areas. The results are in line with the objectives set at the beginning of the project. The methodology used was effective in capturing the necessary data points. The discussion highlights the challenges faced and the solutions implemented. The conclusion summarizes the findings and provides recommendations for future work.

Thank you for your attention. I hope these notes provide a clear overview of the project. Please feel free to reach out if you have any questions or need further information.

U.S. GOVERNMENT BOOKSTORES

In addition to the mail order service provided by the Superintendent of Documents, the U.S. Government Printing Office operates 24 bookstores around the country. These bookstores are located in major metropolitan areas across the country. Each store carries many of the Government's most popular publications, along with a selection of other books tailored to suit the interests and needs of its local clientele. They will be happy to special order any Government book currently for sale. All of our bookstores also accept VISA, MasterCard, and Superintendent of Documents Deposit account orders. FEDERAL DEPOSITORY LIBRARY PROGRAM

The Federal Depository Library Program was established by Congress to provide free public access to Government publications. Nearly 1400 public, academic, State, and law libraries serve as an information link with the Federal Government by maintaining collections of Government publications. These collections, which are tailored to local needs, are open to the public. Fifty-three of the libraries are designated as regional depository libraries. They have the responsibility of retaining material permanently and providing inter-library loan and reference services in their regions.

Copies of documents no longer available through the GPO Sales Program can usually be found in regional depository collections. To determine which depository libraries have selected copies of publications listed in this catalog, consult the Superintendent of Documents World Wide Web site and use the Locator Service. A complete listing of regional depositories follows. To obtain a complete listing of all depository libraries, write to:
