Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. Size is not given for octavo publications. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, administrative and confidential (or restricted) publications are omitted.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the Office of Technical Services, Commerce Department, are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C., 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington, D.C., 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

20679 Federal specifications. ● Item 563

GS 2.8:

NOTE.—These specifications are now so completely covered by the Index of Federal specifications, standards, and handbooks with cumulative monthly supplements, that listing in the Monthly Catalog of United States Government Publications represents unnecessary and wasteful duplication of effort. For that reason they will no longer be listed.

Complete information on the Index of Federal specifications will be found in the Appendix to the February 1963 issue of the Monthly Catalog under Entry number 3778 and in the April 1963 issue under Entry number 6447.

Aerodynamic heating—Continued	
flat-faced cylinder, free-flight data at Mach nos. to 10.9	14534
flat single-bay panels, effects of thermal stress and buckling on flutter characteristics	1290
glass shields of re-entering ICBM, heating and melting process at stagnation point	11037
heat transfer to blunt conical bodies having cavities to promote separation	14590
helium film cooling on hemisphere at Mach no. of 10	1311
missile stabilizers, tests	11002
nylon as ablative material for ballistic missiles	10995
tests, in methane-air combustion products and in air	1290
thermal protection materials at moderate heating rates and high total heat loads	16382
wing leading edge, influence of internal modifications on transient temperature rise	16354
X-15 airplane, skin and structural temperatures during flight	18133
Z-function solutions for motion, etc., during atmosphere entry from equatorial orbits of rotating planet	5583
Aerodynamics:	
behavior of spheres ablating under constant conditions, study	11030
blunt bodies at transonic speeds, aerodynamic characteristics	10986
characteristics of full-scale propeller tested with rigid, flapping blades, and cyclic pitch control	11054
characteristics of X-15/B-52 combination	5539
coefficients from Newtonian expressions for conic and spheric bodies at combined angles of attack and sideslip	11089
cone configuration at Mach no. 0.77 at angles of attack up to 180°	7265
effect of cross-section shape on bodies at Mach numbers from 2.50 to 4.63	7275
equations for Newtonian static and dynamic aerodynamic coefficients for body of revolution with offset center-of-gravity location	14546
ground effect machines, experimental studies	3385
interaction effects ahead of rectangular sonic jets exhausting perpendicularly from flat plate	11069
low-wave-drag hypersonic body, effects of cross-section shape on low-speed aerodynamic characteristics	19929
space vehicles, papers	7234
static characteristics:	
blunt bodies, effects of nose bluntness, fineness ratio, cone angle, etc.	11058
rocket-vehicle configurations at Mach numbers from 1.80 to 4.63	14579
short blunt cones, transonic investigation of effects of nose bluntness, etc.	16399
short blunt 10° semivertex angle cone in helium	5600
transonic of blunt cone-cylinder body with flared afterbodies	10994

Osburn, Max R., controlling insects and diseases of pecan.....	11448	print as Senate document, reports.....	6278, 7930
Oscillations:		Our Capitol, print as Senate document, reports.....	6281, 7935
damped processes applicable to processes in 3d order systems.....	3168	Our flag, print as House document, reports.....	7929, 8081
free, of earth, study.....	7301	Our foreign assistance act, message from the President.....	7868
hinge moment and flutter characteristics of flap type control at transonic speeds, effect of control trailing-edge thickness or aspect ratio.....	14536	Our Lady of Lourdes Memorial Hospital, claim, report.....	11806
large-amplitude, effect on heat transfer.....	5615	Our southern partners, story of inter-American cooperation.....	1512
longitudinal electron, in thermal plasmas, dispersion and damping factors.....	12867	Our women of the sixties.....	11609
resonant, nonlinear, nonplanar free surface, of fluid in tank.....	11073	Oura Branco quadrangle, Brazil, geology and ore deposits.....	602
Oscillations (electric):		Outboard motors, unnecessary procurement, Army Dept. modernization program, GAO review.....	6533
internal oscillations of 3-dimensional resonators with grate partition, USSR study.....	20842	Outdoor recreation, <i>see</i> Recreation.	
Oscillators:		Outdoor Recreation Bureau:	
audio—		and other agencies, recreation resource specialists, examination announcement.....	13331
Hewlett Packard 200C, test instrument calibration procedure.....	9281	functions and needs (remarks).....	5665
TS-382 A/U through TS-382 F/U, Navy calibration program, technical manual.....	9291	new bureau, general information.....	9320
unit, general radio 1214-M, Navy calibration program technical manual.....	20004	role in promotion of Federal coordination and State governments (remarks).....	1379
Oscilloscopes:		Outdoor Recreation Resources Review Commission:	
AN/USM-105, and plug-in-units, Navy calibration program, technical manual.....	21060	audit report, 1958-62.....	6529
General Electric ST-2A, Navy calibration program technical manual.....	20005	implement recommendations, reports.....	7925, 7946
Hewlett-Packard 130A and 130B, Navy calibration program, technical manual.....	9295	study reports.....	1380, 3248-50, 7382, 16473
Tektronix 535 or 545, test instrument calibration procedure.....	9285	Outer space:	
TS-O, technical manual.....	11150	acceleration hodograph and its application to space trajectory analysis, research study.....	19899
Osmonic demineralizers, process, practicality determination.....	14057	activities of Federal depts., etc., investigation authorization, report.....	6238
Osseous tissue, <i>see</i> Bones.		aeronautics and space bibliography—
