NOTE.—Nearly all of the departments of the Government make a limited free distribution of their publications. When an entry shows a * price, it is possible that upon application to the issuing office a copy may be obtained without charge.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. When place and printer are not given, it is to be understood that the publication is printed at the United States Government Printing Office, Washington, D.C. When size is not given octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The date, including day, month, and year, given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

GENERAL INFORMATION

The Superintendent of Documents, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and quantity purchasers on condition that the purchasers will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be used for, or in connection with, advertising purposes.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

The accumulation of publications in this Office amounts to several millions, of which over five million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold regardless of their age or scarcity. Many of the books have been in stock some time, and are apt to be shopworn. In filling orders the best copy available is sent.

PRICE LISTS

A general price list of public documents is not available, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, if the person interested will state the subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

WEEKLY LIST

In addition to the Price lists, the Documents Office issues a Weekly List of Selected United States Government Publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by a star (*) preceding the price. A dagger (†) indicates that application should be made to the department, bureau, or division issuing the document. A double dagger (‡) indicates that the document is printed for official use. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or division, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress and session, e.g., H. doc. 230, 73-2.

Do not use the L.C. card number in ordering a publication.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D.C., by coupons, postal money order, express order, or check. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Postage stamps, foreign money, defaced or smooth coins, will not be accepted.

For the convenience of the general public, coupons that are good until used in exchange for Government publications sold by the Superintendent of Documents may be purchased from his Office in sets of 20 for \$1. Address order to Superintendent of Documents, Government Printing Office, Washington, D.C.

No charge is made for postage on documents forwarded to points in United States, Alaska, Guam, Hawaii, Philippine Islands, Puerto Rico, Samoa, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-third of the price of the publication.

TO LIBRARIANS

The number given at the extreme right of each entry (except for congressional documents and reports) is the classification number by which the publication is arranged in the Library and in the sales stock of the Office of the Superintendent of Documents. It can be used as a classification number by such libraries as are using, for the departmental publications, the arrangement of public documents advocated in the Checklist of United States Public Documents, 1789-1909. In using this number as a classification number in a library, it should be noted that the shilling mark (/) is used to separate what would ordinarily be a superior number or letter (the numbers or letters immediately following the line) from the main classification number, it not being practicable to print these numbers and letters as superiors in the Monthly Catalog, e.g., the number A 1.23/a: So 96/4 listed in the Monthly Catalog would be A 1.23^a: So 96⁴ in a library.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the printed catalog cards of the Library of Congress are appended to entries for the more important publications. These are given at the left, with "L.C. card" prefixed. Do not confuse with the Documents Office classification number given at the right. Orders for these cards, remittances in payment for them, and requests for information about them should be addressed to the Librarian of Congress, *not* to the Superintendent of Documents.

MONTHLY CATALOG DISTRIBUTION

The Monthly Catalog is sent to public libraries free on application. Subscription price to individuals, \$1.00 a year, including index; foreign subscription \$1.60 a year. Back numbers cannot be supplied. Notify the Superintendent of Documents of any change of address.

INDEX

An Index to the Monthly Catalog will be issued later, and can be bound with the numbers as an index to the volume. Persons desiring to bind the catalog should be careful to retain the numbers received monthly, as duplicate copies cannot be supplied.

NOTES OF GENERAL INTEREST

CHANGES IN GOVERNMENT ORGANIZATIONS

The Entomology Bureau and the Plant Quarantine Bureau in the Department of Agriculture were consolidated and became the Entomology and Plant Quarantine Bureau effective July 1, 1934. The new organization will take over from the Bureau of Plant Industry control and eradication work on plant pests and diseases. The consolidation is expected to permit greater economy.

To bring about a closer coordination of research along related lines in the Department of Agriculture, Secretary Wallace announces the transfer of the divisions of Soil Fertility and of Soil Microbiology from the Bureau of Chemistry and Soils to the Bureau of Plant Industry and the transfer of the Insecticide Division of the Bureau of Chemistry and Soils to the Bureau of Entomology and Plant Quarantine. The order becomes effective September 1, 1934. More than 100 persons are employed in the three divisions.

MISCELLANEOUS ITEMS

The Interior Department recently stated that "fully 35 million acres of formerly cultivated land, worth \$1,750,000, have been ruined by unrestrained erosion, and the products of wastage have clogged stream channels and filled costly reservoirs." A large sum of money has been allotted out of the Public Works fund for a soil-erosion program.

The National Resources Board, established by the President's Executive order 6777, June 30, 1934, will prepare "a program and plan of procedure dealing with the physical, social, governmental, and economic aspects of public policies for the development and use of land, water, and other national resources." The Board is required to submit a report on land and water use by December 1 of this year. The plan is to include "the coordination of projects of Federal, State, and local governments and the proper division of responsibility and the fair division of cost among the several governmental authorities."

A recent press release states that the largest single project of land classification ever undertaken by the Soil Survey Division of the Department of Agriculture was to be started in July in Washington State. The detailed soil survey will be the basis for land classification and land use. The State planning council of Washington has available nearly \$100,000 for the work.

The Bureau of Labor Statistics announces that it will make a survey of wages, hours, and working conditions in the petroleum industry. The survey has been requested by the planning and coordinating committee of the petroleum industry and the Petroleum Administration because of the great demand for such information.

The present series of standard air-navigation maps issued by the Department of Commerce, regarded as the best in the world for air-navigation purposes, are becoming too small for the man who travels 3 miles a minute. To accommodate the high-speed pilots, it was announced by Rex Martin, acting director of air commerce, that new maps drawn to a scale of 1-1,000,000, or about 16 miles to the inch, will be issued covering the whole United States. Each of the maps will cover more than six times as much territory as a sectional map, and 17 of them will cover the entire United States, instead of 87, as in the case of the sectional maps.

Reorganization of the Historic American Buildings Survey as a permanent institution functioning through the National Park Service, the Library of Congress, and the American Institute of Architects has been announced along with an agreement by these three organizations to coordinate all future work of recording historic structures. The drawings already made by the Survey are now being transferred from the National Park Service to the Library of Congress, which, according to Dr. Leicester B. Holland, chief of the Library's Division of Fine Arts, will soon have copies ready for public distribution. Many requests have been received for prints from libraries, historical, and other organizations

Progress maps

NOTE.—These maps show the status of improvement of the Federal-aid system in each State, regardless of whether the construction has been done with the aid of the Federal Government, by the States, by the counties, or by the townships. A system of symbols indicates the type of improvement of all the roads and whether the work was done with or without the assistance of the Federal Government. Sheets are of uniform size, some States requiring 2 or more, and are so issued that they may be punched and put in a loose-leaf atlas. The maps are called progress maps, and the series will be issued periodically to show any change in improvement of the highways.

COAST AND GEODETIC SURVEY

NOTE.—The monthly Notice to Mariners, formerly issued by the Coast and Geodetic Survey has been consolidated with and made a part of the Notice to mariners issued by the Lighthouses Bureau, thus making it a joint publication. The United States coast and intracoastal waterways pilots, tide tables, current tables, and charts of the Coast and Geodetic Survey are sold at the office of the Survey in Washington, and also by one or more sales agents in each of the important American seaports.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of Annual reports, Monographs, Professional papers, Bulletins, Water-supply papers, topographic maps (some of which bear descriptive texts), base and contour and other maps of the United States and of the States, folios of the Geologic atlas of the United States, and the World atlas of commercial geology (pt. 1, out of print). Practically all of them are sale publications; the exceptions are indicated by the dagger (†). The maps and folios and the World atlas of commercial geology, pt. 2, are sold by the Geological Survey at Washington, D.C. Except as otherwise indicated, a discount of 40 percent is allowed on any order for maps or folios that amounts to \$5.00 at the retail price. This discount applies to an order for either maps or folios alone or for maps and folios together. Remittance for these publications should be made by money order payable to the Director of the Geological Survey, Washington, D.C. Orders for other publications that are for sale should be sent to the Superintendent of Documents, Washington, D.C.

NATIONAL RECOVERY ADMINISTRATION

Blue Eagle. Blue Eagle.

NOTE.—Beginning May 1, 1934, the National Recovery Administration initiated the distribution of individual Blue Eagle cards for display by employers operating under approved codes. The new Blue Eagle, with the former phrase "We do our part" replaced by the single word "Code" serves to identify the employer who did his part and who now, under an approved code, is cooperating with others in his trade or industry, to complete the work of recovery. Beneath the word "Code" appears the name of the trade or industry to which the employer belongs and his individual registration number. The individual Blue Eagle cards are not listed separately in the Monthly catalog.

- Blue Eagle, v. 1, no. 9-12; Aug. 6-27, 1934. [1934.] Each 8 p. il. f° [Weekly. No. 11 includes supplement, 4A p., containing additional Administrative orders.] † Y 3.N 21/8: 19/1-9 to 1-12

NOTE.—In the interest of economy, coordination, and cooperation with industry, the National Recovery Administration publishes the Blue Eagle for the purpose of maintaining contact with all code authorities, compliance boards, administrative members on the code authorities, trade associations, and other individuals and bodies interested in rulings and policies of NRA. Others who may wish to follow NRA activities may also find interest in the Blue Eagle and here turn for authentic viewpoints and policies.

Codes of fair competition.

NOTE.—The codes for the following industries (except those designated as approved) merely reflect the proposals of the industries, and none of the provisions contained therein are to be regarded as having received the approval of the National Recovery Administration as applying to those industries.

TOPOGRAPHY DIVISION

NOTE.—The Division of Topography has on file maps showing all roads used by the rural free delivery mail service. There are available 1,460 county maps showing all the rural free delivery routes in each county, sold at 50 cents each, and 6,767 local center maps, each showing the rural free delivery routes from a single post office, sold at 75 cents each. The scale of each type map is 1 inch equals 1 mile. County maps are furnished in the form of blue-line prints made from negatives that are prepared about once a year. Late changes in rural service do not always show on these maps. A list of available county maps will be furnished upon application to the Disbursing Clerk, Post Office Department, Washington, D.C. Blueprints from drawings brought up to date are furnished when local center maps are ordered. Remittances should be made by postal money order direct to the Disbursing Clerk, Post Office Department, Washington, D.C. Rural delivery maps should not be confused with the State post route maps which are listed in the Monthly catalog for February 1934, page 734.

SMITHSONIAN INSTITUTION

NOTE.—In a recent price list the Smithsonian Institution publishes this notice: "Applicants for the publications in this list are requested to state the grounds for their requests, as the Institution is able to supply papers only as an aid to the researches or studies in which they are especially interested. These papers are distributed *gratis*, except where price is given, and should be ordered by the *publication numbers*, arranged in *sequence*. The serial publications of the Smithsonian Institution are as follows: 1, Smithsonian contributions to knowledge; 2, Smithsonian miscellaneous collections; 3, Smithsonian annual reports. No sets of these are for sale or distribution, as most of the volumes are out of print. Special publications are also issued from time to time. The papers issued in the series of Contributions to Knowledge and Miscellaneous Collections are not public documents, but are printed in limited editions at the expense of the Smithsonian Fund. They are distributed without charge to public libraries, educational establishments, and learned societies in this country and abroad; and are supplied to other institutions, and to individuals at the prices indicated. Remittances should be made payable to the 'Smithsonian Institution.' A discount of 20 percent is allowed to bookdealers. The Smithsonian report volumes and the papers reprinted in separate form therefrom, are distributed *gratuitously* by the Institution to libraries and individuals throughout the world. Very few of the Report volumes are now available at the Institution, but many of those of which the Smithsonian edition is exhausted can be purchased from the Superintendent of Documents, Government Printing Office, Washington, D.C. The Institution maintains mailing-lists of public libraries and other educational establishments, but no *general mailing-list of individuals*. A library making application to be listed for Smithsonian publications should state the number of volumes which it contains and the date of its establishment, and have the endorsement of a Member of Congress."

Although the annual reports are the only Smithsonian publications that are regularly issued as public documents, the others are usually regarded as such and have free transmission by mail, therefore they are listed in the Monthly catalog.

STATE DEPARTMENT

NOTE.—With the publication of the first number of the printed Press releases on Oct. 5, 1929, the Department of State inaugurated a new publication program. The daily mimeographed releases are made available to the public weekly in printed form; also, all publications (except laws, Executive orders, proclamations, and treaties) are numbered consecutively in the order in which they are sent to press. Publications of a similar character are brought within well-defined series, and each series publication bears a series number in addition to its publication number. The diplomatic correspondence of the United States is published in the volumes entitled Foreign relations of the United States. Laws, Executive orders, and proclamations are issued in separate series and are numbered within each series in the order in which they are signed. Treaties are issued in a separate series and are numbered in the order in which they are proclaimed. Treaties are also published in the compilation Treaties and other international acts of the United States of America, which contains literal copies of the documents, followed by notes of a textual and procedural character. Indexes to the Press releases are supplied semiannually, as of December 31 and June 30. The Department of State includes in the Press release series, each quarter, a complete list of its publications for the preceding quarter.

The list below frequently includes certain relevant publications issued by other agencies of the Government under requisition of the Department of State and certain relevant congressional documents.

Under the practice of the State Department prior to the inauguration of the Executive agreement series (no. 63 of which is listed below) the material would have been published in the Treaty series. Those desiring to maintain a joint file of the Treaty series and the Executive agreement series may insert each number of the Executive agreement series in its appropriate place in the Treaty series, which place will be indicated in each number of the Executive agreement series.

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Charts of the Great Lakes and connecting waters and St. Lawrence River to the international boundary at St. Regis, of Lake of the Woods, of Lake Champlain, and of the natural navigable waters of the New York State canals are prepared and sold by the U.S. Lake Survey Office, 649 Federal Building, Detroit, Mich. Charts may also be purchased at the following U.S. engineer offices: 710 Army Building, New York, N.Y.; 486 Broadway, Albany, N.Y.; 540 Federal Building, Buffalo, N.Y.; and Canal Office, Sault Ste. Marie, Mich. A catalog (with index map), showing localities, scales, prices, and conditions of sale, may be had upon application at any of these offices.

A descriptive bulletin, which supplements the charts and gives detailed information as to harbors, shore lines and shoals, magnetic determinations, and particulars of changing conditions affecting navigation, is issued free to chart purchasers, upon request. The bulletin is revised annually and issued at the opening of navigation (in April), and supplements thereto are published monthly during the navigation season.

Complete sets of charts and publications may be seen at the U.S. engineer offices in Duluth, Minn., Milwaukee, Wis., Chicago, Ill., and Cleveland, Ohio, but they are obtainable only at the sales offices above mentioned.

FINANCE DEPARTMENT

Finance circulars. †

NOTE.—Finance circulars contain instructions and information of a relatively permanent character pertaining to the performance of the technical duties of finance and disbursing officers and of property and contract auditors. Though bearing a date, they are issued in a single lettered series without regard to calendar year, each to contain subject matter of related character. Each circular is designated by a letter and is published in a numbered series of separate pamphlets classified according to subject matter. Changes to Finance circulars are published in a single numerical series.
