Topographic sheets

NOTE.—The topographic sheets, projected without reference to political divisions, are designated by some prominent feature found on them. Three scales are used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch on the map. The size, unless otherwise given, is about 20 by 16 inches. They are issued as working editions for the use of geologists of the United States Geological Survey, and are not published for general distribution or for sale. About 900 sheets have been produced since 1883, covering, more or less, every State and Territory except Alaska, Massachusetts, Rhode Island, New Jersey, and the District of Columbia are completely mapped.

- Arkansas, Dardanelle sheet, lat. 35°-35° 30', long. 93°-93° 30'. Scale 1:125,000, contour interval 50 ft. [Reprint 1896.]
- California, Sacramento sheet, lat. 38° 30'-39°, long. 121°-121° 30'. Scale 1:125,000, contour interval 100 ft. Edition of July, 1892 [reprint 1896].

Courts of United States

COURT OF CLAIMS

NOTE.—Many documents of the Court of Claims are printed at the Government Printing Office, but only for the use of the Court, and in very limited editions. They are not accessible to the public except by consent of the attorneys in interest. The Court makes an annual report to Congress, which is a public document, and its decisions are printed in annual volumes, of which only a limited edition, for official use, is issued by the Court. Private publishers, however, may, and usually do, order from the Public Printer separate editions, which they offer for sale.

Sale of Documents

For documents not priced in this Catalogue, it is best to apply to the Bureau issuing them and not to the Superintendent of Documents.

Section 61 of the act providing for the public printing and binding and the distribution of public documents, approved January 12, 1895, provides as follows:

“The Superintendent of Documents is hereby authorized to sell at cost any public document in his charge, the distribution of which is not herein specifically directed, said cost to be estimated by the Public Printer and based upon printing from stereotyped plates; but only one copy of any document shall be sold to the same person, excepting libraries or schools by which additional copies are desired for separate departments thereof, and Members of Congress; and whenever any officer of the Government having in his charge documents published for sale shall desire to be relieved of the same, he is hereby authorized to turn them over to the Superintendent of Documents, who shall receive and sell them under the provisions of this section.”

In accordance with the foregoing provisions, prices are fixed on the documents named in the Catalogue. Except as otherwise stated in the body of the Catalogue, these computed prices call for paper or cloth covers, and a corresponding increase will be made for books bound in leather or half leather.

Remittances should be made by postal money order. Individual checks or postage stamps can not be received in payment for books.

All public documents, from whatever Department or Bureau they may be bought or procured, will be forwarded to the purchaser free of postage.
