Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications. A 25 per cent discount is allowed to purchasers of 100 or more copies of a single publication mailed to one address. Bookdealers, buying for the purpose of resale, may receive the same discount regardless of quantity if the publications are mailed to their place of business. No discount is allowed when the publications are mailed to a third party unless in quantities of 100 or more.

Publications cannot be supplied free nor forwarded in advance of payment. Prices of Government Publications are subject to change without notice.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and these will be furnished, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the subject bibliographies, the Office of the Superintendent of Documents issues a monthly list of Selected United States Government Publications for sale by the Superintendent of Documents. Each list contains annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL PUBLICATIONS

Subscription service has been implemented for the following groups of Congressional publications: House and Senate Documents; House and Senate Hearings; House and Senate Reports on Public Bills; House and Senate Reports on Private Bills; Public Bills; Private Bills; Public Laws; and Private Laws. In most cases, single copies of publications in these groups of Congressional publications are not sold. Sales copies of a few of the more important ones are printed, and you will find the sales prices listed in the individual entries. The current subscription prices may be obtained from the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the National Technical Information Service are indicated by the sign (§) preceding the price. A black dot (●) indicates that the publication has been, or will be, sent to depository libraries. A plus sign (+) indicates that application should be made to the department, bureau, or agency issuing the document. A number sign (#) indicates that the document is printed for official use and is not obtainable. When additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give the name of the publishing department, bureau, or agency, the title, the classification number which is added to the entry at the extreme right, and the stock number (if given following the price). Order Congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 1, 94th Congress.

Do *not* use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Foreign remittances should be made by international money order, payable to the Superintendent of Documents, or draft on an American bank. The Superintendent of Documents will also accept International Response Coupons and UNESCO coupons.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢, 10¢, 25¢, and 50¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address the order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$50.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, and the amount of charge.

No charge is made for postage on documents forwarded to points in United States and its possessions. There is a special handling charge on all orders mailed to a foreign country (including Canada). The charge is one-fourth of the current selling price of publications and subscription services ordered. This is to cover the special handling required to comply with the customs and international mailing regulations.

LIBRARY CLASSIFICATION OF GOVERNMENT DOCUMENTS

The classification given at the right of entries for departmental publication is that used in the Library Division of the Office of the Superintendent of Documents. The shilling mark (/) separates what ordinarily would be superior or inferior numbers or letters. It is not practicable to print these numbers or letters as *superiors* or *inferiors* in the Monthly Catalog.

LIST OF DEPOSITORY LIBRARIES AS OF SEPTEMBER 1, 1975

Under provisions of Title 44 of the United States Code, certain libraries are designated depositories for Government publications. Through them Federal Government documents are made available to residents of every State, District of Columbia, Guam, Puerto Rico, and the Virgin Islands. Distribution to the libraries is made by the Office of the Superintendent of Documents.

It is sometimes impossible to obtain desired publications by purchase from the Superintendent of Documents. Stocks may have been exhausted or the document may be permanently out of print. In these instances the depositories render an invaluable service by keeping such publications permanently available. Every Government publication cannot be consulted at all depository libraries. Designated Regional Depositories are required to receive and retain one copy of all Government publications made available to depository libraries either in printed or microfacsimile form. All other libraries are allowed to select the classes of publications best suited to the interests of their particular clientele.

The following list shows the location, the name of the library, the year the library became a depository, and the administrative control number assigned to each.

 manual DSAM series, 13667-9

Deflectors:
 on deflection of projectiles due to rotation of
 earth, 14677

Deformities:
 congenital malformations surveillance, 13139

Degrees (colleges, universities, etc.):
 earned degrees conferred, 14545

Dehydration:
 freeze-dehydration by microwave energy,
 12960

Del Rio, Tex.:
 flood plain information, Cienegas Creek, and
 Cantu Branch, 13817

Delaware:
 census of mineral industries, 13005
 forest-land owners, 14193

Demography:
 reconstruction of demographic profiles from
 ossuary skeletal samples, case study from
 tidewater Potomac, 14718

Denitrification, *see* Nitrification and denitrifica-
 tion.

Density:
 feed rate and batt density on operation of saw-
 cylinder lint cleaners, effects, 12892

Dental instruments and apparatus:
 measurements of radiation emissions from
 nuva-lite dental appliance, 14707

Dental laboratories:
 medical service, dental laboratory technology,
 12924

Denver, Colo.:
 Project Independence Blueprint, transcript of
 public hearing, 13990

Dependents:
 your exemptions and exemptions for depen-
 dents, 14308

Depreciation:
 business building statistics, 14817

Derby, Kans.:
 flood plain information, Arkansas River, Mul-
 vane, Kans., 13814

DES, *see* Diethylstilbestrol.

Desegregation in education, *see* Discrimination
 in education.

Designs (aircraft):
 design and fabrication of composite wing
 panels containing production splice, 14458

Designs (industrial):
 capacity analysis techniques for design and
 operation of freeway facilities, 14082
 engineering and design manual, coal refuse
 disposal facilities, 14450
 multicell fluidized-bed boiler design, construc-
 tion and test program, 13784
 relationship between diameter and height for
 design of swirl concentrator as combined
 sewer overflow regulator, 13919

Detectors:
 bridge inspection system, operator's manual,
 acoustic crack detector, ACD, 14091

Detention of persons, *see* Arrest.

Detergents:
 cleaning compound, synthetic detergent, non-
 abrasive, Federal standard, 14133

Detroit, Mich.:
 area wage survey, 14384
 transportation planning and priorities for
 Seventies—
 hearings, 13629

Development (economics), *see* Economic
 development—Underdeveloped areas.

Development assistance, *see* Foreign aid.

Dewatering:
 chemical coagulation/mixed-media filtration of
 aerated lagoon effluent, 13916

Diamonds:
 before and after simulations and field studies
 of diamond interchange operations, 14056
 diamond interchange traffic control, 14054-7
 instrumentation considerations for compu-
 terized traffic control of diamond in-
 terchange complex, 14057
 traffic signal control diamond interchange
 complexes, design manual, 14054

Dielectric properties:
 remote method for determining thicknesses
 and constitutive properties of planar
 layered media, 13803

Diesel engines:
 methodology for determining fuel effects on
 diesel particulate emissions, 13903

Diet:
 relationship of intestinal bacteria and diet com-
 position to amino acid requirements of
 white mice, 12952

Diethylstilbestrol:
 regulation, prohibit administration to any
 animal intended for use as food—
 report, 13503

Diffusion:
 separation of isotopes by thermal diffusion,
 13776
 turbulent diffusion in liquid jets, 13865

Digests, *see* Index digests.

Diggs, Charles C., jr.:
 unveiling of portrait, proceedings, print as

census of mineral industries, 13005
census of wholesale trade, area statistics, 13025
hearings and inquiries conducted for Florida on medicare program, 13574
Flour mills:
flour milling products, summary for 1974, 13049
Flow:
computer program for network flow problems, 14683
computer user's guide for chemically reacting viscous shock-layer program, 14459
control of shock wave-boundary layer interactions by bleed in supersonic mixed-compression inlets, 14472
crossflow in two-dimensional asymmetric nozzles, 14504
effect of 180°-extent inlet pressure distortion on internal flow conditions of TF30-P-3 engine, 14486

Flow—Con.

- FORTRAN program for predicting off-design performance of radial-inflow turbines, 14517
- network flow simulation for urban traffic control system, phase 2, applications manual for UTCS-I network simulation model, 14071
- numerical study of sound propagation in jet flow, 14507
- reduction in water consumption and flow of sewage, report to Congress, 13937
- subsonic aerodynamic characteristics of interacting lifting surfaces with separated flow around sharp edges predicted by vortex-lattice method, 14496
- supersonic turbulent boundary-layer flows with mass injection through slots and/or porous walls, 14470
- transonic airfoil flowfield analysis using cartesian coordinates, 14466
- visual study of effect of grazing flow on oscillatory flow in resonator orifice, 14493

Flue dust:

- chemical composition on surface resistivity of fly ash, effect, 13890

Fluids:
