Common abbreviations for names of States and months are also used.

H. or S. followed by a number stands for House bill or Senate bill, respectively.

* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 63d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents **can not** be supplied by this Office free to individuals **nor forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.**, are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents, give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to several millions, of which over a million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, \$1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the

number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and $\frac{1}{2}$ c. for each additional card for the same title ordered at the same time. Remittances should be made to the Librarian of Congress. Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

Beginning with July, 1912, the Index to the Monthly catalogue has been issued semiannually instead of quarterly as heretofore, and will cumulate for the twelve months ending June, 1913. That is, the December number is an Index to the Monthly catalogue for July to December, 1912, and the June number will be the Index for the fiscal year 1913. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Reprint 124, from Public health reports, the weekly magazine published by the Public Health Service, has the title: Epidemic cerebrospinal meningitis, information relative to the prevention of the spread of the disease and the management of cases. This paper in popular form is printed in a separate leaflet, that it may have a wider circulation than in the pages of the magazine, which circulates mostly among those who are especially interested in the conservation of health. The disease discussed is one of those which are most fatal and least understood, and a general distribution of the pamphlet giving information concerning it is most desirable. 5 cents.

A unique volume is House document 1458, 62d Congress, 3d session. It is a compilation of the prayers addressed to the Supreme Being at the opening of the daily sessions of the House of Representatives of the 62d Congress by the blind Chaplain, the Rev. Henry Noble Couden, D. D. Speaker Clark supplies a Foreword, in which he pays a fervid tribute to Dr. Couden's worth, certifies to the "excellence" of his prayers, and comments upon the fact that though the Chaplain is a Republican and a Universalist he has been twice reflected by Houses in which there were few Republicans and still fewer Universalists. Chaplain Couden was first elected in the 54th Congress and has been continuously reflected since. His blindness was caused by wounds received in a battle of the Civil War, in which he was a soldier on the Union side. He is a native of Indiana. 15 cents.

Senate document 50, 63d Congress, 1st session, is a report of unusual interest at the present time. It is made by the President's Commission on Economy and Efficiency and the subject is: The apportionment of appointments made from the registers of the Civil Service Commission to the apportioned service at Washington. The report holds that the apportionments required by the law have been made without proper regard to the qualifying clause "as nearly as the conditions of good administration will warrant," and that by making equality of apportionment predominant and good administration subordinate, candidates of inferior standing in the examinations have been preferred to those of higher standing, to the detriment of good administration. A different application of the law is strongly recommended.

Vol. 43, Proceedings of the National Museum, is now on sale by the Superintendent of Documents at \$1.25.

The present water supply of the District of Columbia, brought 16 miles from the Great Falls of the Potomac, has been in use for about 60 years without enlargement of its capacity. The necessity of enlargement has long been foreseen, and during the 20 years last past several official reports on the subject have been published. The latest proceeds from the Engineer Department of the Army, and is published as House document 1400, 62d Congress, 3d session, having for title Report of examination on water supply of the District of Columbia and the availability of the water power at Great Falls, Potomac River, for supplying light and power for the use of the United States [Government] and

the District of Columbia. The Report fills 143 pages of text and is accompanied by a large case of maps. The subject should be of more than local interest.

The Interior Department's latest descriptive circulars concerning the Glacier National Park and the Crater Lake National Park are on sale by the Superintendent of Documents at 5 cents each. These are two of the most picturesque of the Government's mountain reservations, and really wonderful in their natural scenic attractions. Similar circulars have been newly issued for the Yosemite National Park and the Yellowstone National Park.

No. 11, Miscellaneous series of the Foreign and Domestic Commerce Bureau, has for title American manufactures in foreign markets. It is a general statistical review of the whole field of the exportation of American manufactures for the 60 years, 1852-1912. In an introductory note, the Bureau says: "The ability of American manufactures to compete successfully with those of other countries may be measured by the success which they have made in establishing for themselves permanent markets in the lands where they come into direct competition with the products of other industrial nations." Applying this measure, the demonstration of the ability of American manufactures to compete in foreign countries seems indisputable. The statistics given show that while in 1852 the exports of American manufactures amounted to but 47 million dollars in value, in 1912 they exceeded 1300 millions, while for the first ten months of the fiscal year 1913 there was a gain of more than 160 millions over the like period of 1912. The magnificent total value of American exports, manufactured and unmanufactured, for the fiscal year 1912 was 2 billion, 107 million, 873 thousand, 911 dollars. Miscellaneous series 11 gives the statistics in detail, showing the values of the exports of the various kinds of manufactured merchandise. Copies from the Superintendent of Documents, 15 cents each.

The publication of the Education Bureau's Monthly record of current educational publications has been suspended for the summer. The announcement is made in the June number, which can be supplied by the Superintendent of Documents at 5 cents, presenting a list of the most recent educational publications, including several items of rather unusual interest.

The Labor Statistics Bureau, which is the former Labor Bureau with a change of title, takes up under its new name the work of publication where it left it off under its old name. Bulletin 114 is in continuation of the long series begun by the former Labor Department in 1895 and continued by the Labor Bureau up to the present year. This bulletin is also the beginning of a new series or subseries, being no. 1 of the Wholesale prices series. It gives tables of prices from 1890 to 1912, both dates inclusive. 15 cents.

Water-supply paper 314, Surface water supply of Seward Peninsula, Alaska, is one of the most complete publications in this series published by the United States Geological Survey. The Seward Peninsula is perhaps more generally known as the Nome region. It is a district which has already produced about \$65,000,000 in gold and where mining operations are still actively prosecuted, though its territory touches the Arctic circle. Though the paper has for main title Surface water supply, it gives also a sketch of the geography and geology of the Peninsula and a description of methods of placer mining, with many views and maps. This publication was listed in the Monthly catalogue for May, 1913, page 616.

Sugar and its value as food is the title of Farmers' bulletin 535, entered in this catalogue under Experiment Stations Office and sold by the Superintendent of Documents at 5 cents. The various facts cited and discussions of them bring the author, Mrs. Mary Hinman Abel, to the conclusion that "Sugar is a useful and valuable food. It must, however, be remembered that it is a con-

centrated food, and therefore should be eaten in moderate quantities. It is generally assumed that 4 or 5 ounces of sugar per day is as much as it is well for the average adult to eat under ordinary conditions."

Amateur botanists who expend 5 cents for a copy of Plant Industry Bureau Circular 126 C will find in it Directions for collecting plants, giving just the information which amateur collectors might acquire for themselves by years of painful experience.

The 1912 volume of Patent decisions is now on sale by the Superintendent of Documents at \$1.00 in paper and \$2.00 in cloth, these prices being fixed by the Patent Office.

The Friedmann treatment for tuberculosis, a report on the present status of its investigation by a board of officers of the Public Health Service, is Reprint 125 from the weekly Public health reports, May 16, 1913. The price is favorable, though the report is unfavorable. 5 cents.

A third edition has been printed of Mines Bureau Bulletin 1. The volatile matter of coal. Sold by the Superintendent of Documents at 10 cents.

An advance pamphlet from the Geological Survey annual known as Mineral resources gives interesting information as to the production of anthracite in Pennsylvania during the calendar year 1912. Though the production fell off 5,448,633 tons from 1911, amounting altogether to only 75,322,855 tons, yet the producers didn't mind, because advanced prices enabled them to get \$177,622,626 for the smaller quantity mined in 1912, which was \$2,670,021 more than they received for the larger quantity mined in 1911. Besides, they saved the cost of mining 5,448,633 tons. The falling-off in production was due to the strike of April and May, 1912. The strike was ended by an extension of the settlement made by the Anthracite Coal Strike Commission in 1902. The awards of the Commission were to continue in force for three years from Apr. 1, 1903. At the expiration of this period, Mar. 31, 1906, an extension was agreed upon until Mar. 31, 1909. When this date was reached, a further extension was arranged, ending Mar. 31, 1912. After last year's strike the agreement was extended to Mar. 31, 1916. Under this agreement the hard-coal region is now peaceful and prosperous, with good prospect of the continuance of these favorable conditions for nearly 3 years longer. At the close of each of the periods of agreement the miners asked and received some advantage as a condition of extending the agreement, and last year they gained the substantial advantage of an advance of 10 per cent. in the rate of wages.

There is a new print of the Judicial code, including all amendments made prior to Mar. 4, 1913. 35 cents.

Immigration Bureau, Labor Department, has issued in 24 languages a leaflet entitled Information for immigrants. The 24 languages are: English, Swedish, German, Dutch and Flemish, Norwegian and Danish, Italian, Spanish, French, Greek, Turkish, Syrian, Bulgarian, Roumanian, Slovak, Croatian, Slovenian, Bohemian, Polish, Ruthenian, Russian, Finnish, Magyar, Lithuanian, Yiddish. And these are not by any means all the languages in which the Information Division of the Immigration Bureau, Labor Department, does business. The 24 languages in the foregoing list are all European. Men and women are also bringing to us other strange languages from Africa, Asia, and the isles of the sea. The leaflet in 24 languages is for distribution to immigrants on their arrival and informs them that at the Immigration Branch of the United States Immigration Service, 17 Pearl street, New York City, Government officers who are able to talk with them in their own languages are ready to give them, without charge, information as to localities where settlers are needed, where farm lands are for sale or rent and at what cost, and also where different kinds of

work can be obtained. Thus Uncle Sam extends the helping hand to the stranger looking for a spot to rest the soles of his weary feet.

Standards Bureau Bulletin vol. 9, no. 2, is erroneously dated on its cover and title-page as issued April 1, 1912, instead of April 1, 1913. While librarians, subscribers, and others have been notified (see Monthly catalogue of public documents, Sept. 1912, p. 141) that the Standards Bureau Bulletin should be colated and shelved by volume and number and not by date, because the dating is liable to be irregular, yet so extreme an irregularity as dropping a whole year might be confusing to many. It would hardly be appropriate to undertake here to explain, or even to state, the reasons why a periodical whose purpose it is to report the results of scientific research cannot well be issued with the mechanical regularity common to periodicals of the ordinary literary variety. Suffice it to say, the reasons are sufficient, and their sufficiency is generally recognized. It should be noted, however, that the dating of vol. 9, no. 2, was not an irregularity. It was a mistake, the intention having been to make the date 1913, not 1912. The Standards Bureau Bulletin is nominally a quarterly, four numbers composing each annual volume. The publication dates of the numbers of the two most recent volumes have been: Volume 8: no. 1, Jan. 1, 1912; no. 2, June 15, 1912; no. 3, Nov. 1, 1912; no. 4, Mar. 1, 1913. Volume 9: no. 1, Mar. 15, 1913; no. 2, Apr. 1, 1912 (misprint for 1913); no. 3, Apr. 15, 1913. No. 4 of vol. 9 has not yet been published.

The 28th annual report of the Bureau of American Ethnology for the fiscal year ended June 30, 1907, is now available, price \$1.25 in cloth. The 27th annual report of this Bureau was issued in the late fall of 1911.

No. 2 in the new series of bulletins issued from the office of the Surgeon General of the Army is made up of 18 papers by officers of the Medical Corps of the Army which were read before the 15th International Congress on Hygiene and Demography, held in Washington, Sept. 1912. Price 15 cents.

An 8th reprint of the Rules of practice in the U. S. Patent Office, with a supplement of amendments is now available. Price 10 cents.

Commercial relations for 1911 has been printed as House document 959, 62d Congress, 3d session. It is not in 2 big red-bound volumes as for the year 1908 and many of the preceding years, but is a pamphlet of about 200 pages, mainly statistical, and guaranteed in the letter of submittal to "prove highly valuable for reference purposes." The annual reports of American consuls, which formerly were withheld from publication until the contents of two big volumes had accumulated, are now printed in the Daily consular and trade reports promptly on their receipt. This new method has given the annual Commercial relations a new character, the pamphlet now issued under that title containing only trade statistics by countries and by articles and the share of the United States in this trade.

The advance chapter from Mineral resources, 1912, on potash salts, recording the progress of investigation in 1912 into the sources of supply of this essential fertilizer and giving statistics of production, etc., has been published. From the Superintendent of Documents, 5 cents.

The Information Division of the Immigration Bureau of the Labor Department has issued a Polish edition of Agricultural opportunities no. 1, which describes the resources, products, physical characteristics, etc., of the North Atlantic States, Maine, New Hampshire, Vermont, Massachusetts, Rhode Island, Connecticut, New York, New Jersey, and Pennsylvania. Other numbers in the series give similar information as to the other States. The publication is a part of the effort of the Immigration Bureau to induce immigrants to settle on the land instead of huddling in city slums.

The official report, in several volumes, of the 15th International Congress on Hygiene and Demography, held in Washington, Sept. 15-Oct. 5, 1912, has been delayed in issue, may not be available for many months yet, and when published will probably be hard to get. In the meantime, an acceptable substitute, at least for the more prominent educational features of the Congress, is supplied by Fletcher B. Dresslar's *Some lessons and suggestions from the exhibition* [given in connection with the Congress] and the same author's *Digests* of some of the papers presented at the Congress, both of Mr. Dresslar's articles having been printed by the Education Bureau as Bulletin 13, series of 1913, price 10 cents. This bulletin and Bulletin 2 of the Surgeon General's Office, the latter giving the text of the 18 papers presented at the Congress by medical officers of the U. S. Army, will be welcomed by the numerous interested persons who have been so long awaiting the publication of the official report. The Surgeon General's bulletin is sold at 15 cents.

Bulletin 19, series of 1913, Education Bureau, is likely to be in active demand. It is a pamphlet of 154 pages, the subject German industrial education and its lessons for the United States. It is an undisputed fact that for a generation past Germany has led the world in technical education, and to this fact is generally attributed the remarkable material progress which that country has made despite the enormous burden of a great standing army which it has carried. The very wide and earnest interest in industrial education now existing in the United States should ensure this bulletin a popular welcome. From the Superintendent of Documents, 15 cents.

Thirty-five cents will buy from the Superintendent of Documents a copy of the 5th edition of Special publication 14 of the Coast and Geodetic Survey, entitled *Determination of time, longitude, latitude, and azimuth*. Though this is the 5th edition of this document, in which the instruments and methods of the Survey are described, making it a working manual in carrying on the astronomical work of the Survey, its first appearance as Special publication 14 is in the present print. The previous editions were published as appendixes to the annual reports, the 4th edition having been Appendix 7 to the 1898 report. The present print includes most of the matter found in the 4th edition, but with several changes and important additions in both text and illustrations.

Reprint 121 from Public health reports is an important compilation, giving the text of all municipal ordinances, rules, and regulations pertaining to public health adopted from July 1 to Dec. 31, 1911, in cities of the United States having over 10,000 population by the census of 1910. Though the period covered is so short, the compiled ordinances fill more than 200 closely printed pages and show an active interest throughout the communities of the country in the promotion of health. Price 15 cents.

PHYSICAL VALUATION OF RAILROADS

The United States Civil Service Commission has announced competitive examinations for the purpose of creating lists of eligibles from which the Interstate Commerce Commission may choose the several hundred assistants which it must have in making the physical valuation of the properties of common carriers as provided by the act of Mar. 1, 1913 (Public 400, 62d Congress, 3d session; 37 Stats. p. 701).

The examinations will be held July 21, 23, and 28, simultaneously at several hundred convenient points throughout the country. It is intended to secure eligible lists for the following classes of experts: Architects, architectural draftsmen, civil engineers, electrical engineers, examiners of accounts, inspectors

of car equipment, inspectors of motive power, mechanical engineers, railway signal engineers, senior architects, senior civil engineers, senior inspectors of car equipment, senior inspectors of motive power, senior mechanical engineers, senior railway signal engineers, senior structural engineers, and structural engineers.

CANADA REPRINTS UNITED STATES PUBLIC DOCUMENT

Handbook of Indians of Canada, appendix to the 10th report of the Geographic Board of Canada; 2 George V; Sessional paper no. 21 a; A. 1912; Reprinted by permission of Mr. F. W. Hodge, Ethnologist-in-charge, from Handbook of American Indians north of Mexico, published as Bulletin 30, Bureau of American Ethnology, and edited by Frederick Webb Hodge; Reprinted under the direction of James White, F. R. G. S., Secretary, Commission of Conservation. Ottawa: printed by C. H. Parmelee, printer to the King's Most Excellent Majesty, 1913.

All of these inscriptions appear on the title-page of a work of over 600 pages made up by selecting and reprinting from Bulletin 30, United States Bureau of American Ethnology, those articles descriptive of such tribes of Indians as are now living or have formerly lived in whole or in part in Canada. To this reprinted matter has been added a list of Indian reservations in Canada, while new articles entitled Indian affairs, Department of, Indian Reserves, and Treaties have been substituted for those in Bulletin 30 on the subjects of Treaties, Office of Indian Affairs, and Reservations. Words like color and favor, are spelled colour and favour, restoring the superfluous "u" which Noah Webster of Connecticut took out several generations ago. New maps also have been supplied. Altogether, the Handbook of Indians in Canada is a notable work, a worthy addition to the public records of "our Lady of the Snows." The editor makes full acknowledgment of his indebtedness to Ethnology Bulletin 30, a work which, he says, "can be correctly described as monumental."

COMPENSATION TO INJURED GOVERNMENT EMPLOYEES

The first three years of the operation of the law of Aug. 1, 1908, providing compensation for accidental injuries to certain employees of the Government of the United States are reported upon by the Labor Bureau in a document bearing date Feb. 27, 1913, but just now out of press.

This sort of protection is now extended to about 95,000 Government employees, which is about one fourth of the total number. In the protected number are included artisans and laborers in manufactories, arsenals, and navy yards or engaged in river, harbor, fortification, and reclamation work or on Isthmian Canal construction. It also takes in those engaged in hazardous work under the Mines Bureau, the Lighthouses Bureau, and the Forest Service.

The total number of accidents reported for the first year was 4,887, for the second year 6,987, and for the third year 9,159, a total of 21,033 for the three years, of which 670 were fatal. The claims allowed as entitled to compensation were 7,158 and the total sum paid was \$959,616.32. For fatal cases the payments averaged \$704 for the first year, \$633 for the second year, and \$596 for the third year. For accidents not fatal the average payments were \$121 the first year, \$113 the second year, and \$114 the third year. Employees of the Isthmian Canal Commission were the most numerous recipients, those of the Navy Department second, of the War Department third, and of the Reclamation Service fourth.

The administration of the compensation act was originally entrusted to the Commerce and Labor Department, and was transferred to the Labor Department when that Department was created, Mar. 4, 1913. The Commerce and Labor Department had acted in this matter through the Labor Bureau, and owing to the vagueness in the language of the act of transfer the Secretary of Labor, on Mar. 12, 1913, submitted to the Attorney General the question whether under the organic act creating the Labor Department the authority to make final determination of claims arising under the workmen's compensation act rests in the Secretary of Labor or in the Commissioner of Labor Statistics. April 3 the Attorney General decided that this authority belonged to the Secretary and not to the Commissioner.

While, as the report says, the new law, "despite its incompleteness, has been one of great benefit to a very considerable number of injured employees and their dependents," yet it "results in very inadequate compensation" in many cases. Such cases cited show that broken arms and legs have drawn compensation less than \$25, the loss of an eye between \$25 and \$50, the loss of a right arm less than \$50, while in three cases of the loss of both legs the average compensation was \$377.40. Such payments for such injuries seem more like mockery than like compensation, and doubtless laws providing more liberally against the hazards of Government employment will be found on the statute books before many years.

FROM TRIPE TO TERRAPIN AND BACK AGAIN

The particular variety of tortoise known in the United States as the diamond-back terrapin has become a luxury so rare and costly that only those epicures with whom appetite is stronger than greed think of eating the uncouth and repulsive looking reptile. But epicures have become numerous of late years in this prosperous land, and by their appetites terrapin is threatened with extinction. Should the reptile really become extinct, and our epicures be compelled to drop from terrapin to tripe, it would be a surprising change, but not without a precedent.

It is still within the memory of man that tripe was the costlier and the more desired dish. It is credibly related that in the early days of agriculture along the Chesapeake terrapin were so plentiful that the slaves on the plantations, who had no choice in the matter, were compelled to gorge themselves with the reptilian luxury, while the masters, who could choose for themselves, stuck to tripe and like products and despised terrapin.

By one of the most remarkable revulsions of taste recorded in the cookbooks, terrapin has become the height of luxury in eating, and tripe—well, tripe—there are still some people left who think tripe a luxury also, and these have the advantage of being able to satisfy their longing at about a hundredth part of the cost the terrapin-eater must pay.

The general situation has aroused the Fisheries Bureau to radical action. Though terrapin is no more fish than tripe is fowl, the Bureau has been making prolonged experiments in breeding the former, and now reports that the experiments have been successful, and that in favorable localities the artificial propagation of terrapin will probably be profitable.

In the Fisheries Bureau's Economic circular no. 5 (14 pages, price 5 cents), the story of the terrapin experiments is briefly told, and a promise is given that a more complete report will be published later.

Thus the prospect that terrapin is to become more plentiful and therefore cheaper is flattering, while the Agriculture Department and other eminent authorities declare that the production of the bovine creatures from whose

digestive tract tripe is produced is falling off alarmingly. The inference is plain that as the price of terrapin goes down the price of tripe must go up, and when tripe becomes more costly than terrapin the two will almost certainly exchange places in epicurean favor, for your real epicure does not fancy anything that is cheap and accessible to all kinds of people.

At present the price-gap between tripe and terrapin is very wide, and it may seem a freakish notion to suggest their exchanging places again. But surely the change of places from terrapin to tripe in the 20th century would not be a whit more surprising than the change from tripe to terrapin which actually occurred in the 19th.

Binding the Catalogue

The Documents Office will soon issue a consolidated index to all entries in the twelve numbers of the Monthly catalogue, July, 1912, to June, 1913. The index for the catalogues from July-December, 1912, heretofore published, may therefore be thrown aside in binding the catalogue for the year. A title-page for the twelve numbers of the catalogue will accompany the consolidated index. Duplicate numbers of the Monthly catalogue can not be supplied.

MONTHLY CATALOGUE

No. 222

JUNE

1913

AGRICULTURE DEPARTMENT

NOTE.—Those publications of the Department of Agriculture which are for sale will be supplied by the Superintendent of Documents, Washington, D. C. The Department issues a monthly list of publications, which is mailed to all applicants, enabling them to select such reports and bulletins as interest them.

Amendment 20 and 21 to National forest manual. [1913.] Each 1 p. [Manual issued by Forest Service.] †

[Bureau of Animal Industry] order 186 amendment 4, and 196; May 14 and 31, 1913. [1913.] 1 p. and 8 p. [Consist of orders concerning quarantine of cattle, etc.] †

Foreign inspection and marking requirements under plant quarantine act. May 29, 1913. 4 p. 4^o (Federal Horticultural Board. Circular of information 3.) †

Influence of vegetables greened with copper salts on nutrition and health of man: Report of referee board of consulting scientific experts; Action of coppered vegetables on health and nutrition of man, by Alonzo E. GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to \$11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least \$5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 672.

- Barite. Production of barytes, [calendar year] 1912 [with bibliography, and] with note on Strontium ore and salts; by James M. Hill. 1913. 8 p. [From Mineral resources, 1912.] †Paper; * paper, 5c.
- Bauxite. Production of bauxite and aluminum, [calendar year] 1912 [with bibliography]; by W. C. Phalen. 1913. 16 p. il. [From Mineral resources, 1912.] †Paper; * paper, 5c.
- Cascade Mountains. Water powers of Cascade Range: pt. 2, Cowlitz, Nisqually, Puyallup, White, Green, and Cedar drainage basins; by Fred F. Henshaw and Glenn L. Parker. 1913. 170 p. il. 5 pl. 2 p. of pl. 25 maps. (Water-supply paper 313; H. doc. 980, 62d Cong. 3d sess.) [Prepared in cooperation with Washington State Board of Geological Survey.] * Paper, 55c. GS10-588/7
- Coal. Production of anthracite, [calendar year] 1912; by Edward W. Parker. 1913. 19 p. [From Mineral resources, 1912.] †Paper; * paper, 5c.

- Ellijay folio, Ga.-N. C.-Tenn.; by Laurence LaForge and W. C. Phalen. [Library edition.] Washington, Geological Survey, 1913. cover-title, 18 p. il. 4 maps, large 4° (Geologic atlas of United States 187.) † Paper, 25c.
- Fluorspar. Production of fluorspar and cryolite, [calendar year] 1912; by Ernest F. Burchard. 1913. 9 p. il. [From Mineral resources, 1912.] † Paper; * paper, 5c. GS 13—480/5
- Fullers' earth. Production of fuller's earth, [calendar year] 1912 [with bibliography]; by Jefferson Middleton. 1913. 8 p. [From Mineral resources, 1912.] † Paper; * paper, 5c.
- Gems and precious stones. [calendar year] 1912 [with list of text and reference books]; by Douglas B. Sterrett. 1913. 42 p. [From Mineral resources, 1912.] † Paper; * paper, 5c.
- Hudson Bay. Surface water supply of United States, 1911: pt. 5, Hudson Bay and upper Mississippi River; by Robert Follansbee, A. H. Horton, and H. J. Jackson. 1913. 197 p. il. 2 p. of pl. 2 maps. (Water-supply paper 305.) * Paper, 15c. GS 13—479/5
- Same. (H. doc. 883, 62d Cong. 2d sess.)
- Iron ores. Production of chromic iron ore, [calendar year] 1912; by J. S. Diller. 1913. 10 p. [From Mineral resources, 1912.] † Paper; * paper, 5c.
- Pacific Coast. Surface water supply of United States, 1910: pt. 12, North Pacific Coast; by F. F. Henshaw, E. C. La Rue, and G. C. Stevens. 1913. 685 p. 1 pl. 2 p. of pl. (Water-supply paper 292.) * Paper, 50c. GS 13—469/5
- Same. (H. doc. 1513, 61st Cong. 3d sess.)
- Peat. Production of peat, [calendar year] 1912; by Charles A. Davis. 1913. 7 p. [From Mineral resources, 1912.] † Paper; * paper, 5c.
- Potash salts, summary for 1912 [with bibliography], compiled by W. C. Phalen; [and with article on saline deposits at Searles Lake, Cal., by H. S. Gale]. 1913. 36 p. [From Mineral resources, 1912.] † Paper; * paper, 5c.
- Pottery. Statistics of pottery industry in United States, [calendar year] 1912; by Jefferson Middleton. 1913. 16 p. [From Mineral resources, 1912.] † Paper; * paper, 5c.
- Precious and semiprecious metals in Central States, [calendar year] 1912, mine production [with list of Geological Survey publications on gold, silver, copper, lead, and zinc in Central States; articles] by B. S. Butler and J. P. Dunlop. 1913. 87 p. [From Mineral resources, 1912.] † Paper; * paper, 10c.
- Publications. New publications, list 67; May, 1913. [1913.] 3 p. [Monthly.] †
- Rampart, Alaska. Geologic reconnaissance of part of Rampart quadrangle [with list of recent Geological Survey publications on Alaska]; by Henry M. Eakin. 1913. 38+viii p. 4 pl. 4 maps, 2 are in pocket. (Bulletin 535.) * Paper, 20c. GS 13—481
- Same. (H. doc. 1430, 62d Cong. 3d sess.)
- Sulphur deposits in Park County, Wyo.; by D. F. Hewett. 1913. 6 p. (Bulletin 540 R.) †
- Tropidoleptus. Recurrent Tropidoleptus zones of upper Devonian in New York; by Henry S. Williams. 1913. 103 p. il. 6 pl. 1 tab. 4° (Professional paper 79.) * Paper, 20c. GS 13—471/3
- Same. (H. doc. 1250, 62d Cong. 3d sess.)
- Yentna district, Alaska [with list of recent Geological Survey publications on Alaska]; by Stephen R. Capps. 1913. 75+viii p. il. 4 pl. 6 p. of pl. 3 maps, 2 are in pocket. (Bulletin 534.) * Paper, 20c. GS 13—472/2
- Same. (H. doc. 1429, 62d Cong. 3d sess.)

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

Nearly two-fifths of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 10c. each; but in lots of 50 or more copies, whether of the same sheet or of different sheets, the price is 6c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least \$3.00.

- California, Monterey quadrangle, lat. $36^{\circ} 30' - 36^{\circ} 45'$, long. $121^{\circ} 45' - 122^{\circ}$. Scale 1:62,500, contour interval 25 ft. [Washington, Geological Survey] edition of Apr. 1913. 17.5×14.1 in. $\dagger 10c$.
- California, Panoche quadrangle, lat. $36^{\circ} 30' - 37^{\circ}$, long. $120^{\circ} 30' - 121^{\circ}$. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Mar. 1913. 17.5×14.1 in. $\dagger 10c$.
- California, Weaverville quadrangle, lat. $40^{\circ} 30' - 41^{\circ}$, long. $122^{\circ} 30' - 123^{\circ}$. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of May, 1913. 17.5×13.3 in. $\dagger 10c$.
- California-Nevada, Ballarat quadrangle, lat. $36^{\circ} - 37^{\circ}$, long. $117^{\circ} - 118^{\circ}$. Scale 1:250,000, contour interval 100 ft. [Washington, Geological Survey] edition of Mar. 1913. 17.5×14.2 in. $\dagger 10c$.
- Colorado, Hahns Peak quadrangle, lat. $40^{\circ} 30' - 41^{\circ}$, long. $106^{\circ} 30' - 107^{\circ}$. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Feb. 1913. 17.5×13.3 in. $\dagger 10c$.
- Idaho-Montana, Priest Lake quadrangle, lat. $48^{\circ} - 49^{\circ}$, long. $116^{\circ} - 117^{\circ}$. Scale 1:250,000, contour interval 200 ft. [Washington, Geological Survey] edition of May, 1913. 17.5×11.8 in. $\dagger 10c$.
- Illinois, Colchester quadrangle, lat. $40^{\circ} 15' - 40^{\circ} 30'$, long. $90^{\circ} 45' - 91^{\circ}$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Apr. 1913. 17.5×13.4 in. $\dagger 10c$.
- Illinois, Waterloo quadrangle, lat. $38^{\circ} 15' - 38^{\circ} 30'$, long. $90^{\circ} - 90^{\circ} 15'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1913. 17.5×13.8 in. $\dagger 10c$.
- Illinois-Iowa, Galena quadrangle, lat. $42^{\circ} 15' - 42^{\circ} 30'$, long. $90^{\circ} 15' - 90^{\circ} 30'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Apr. 1913. 18.1×13 in. $\dagger 10c$.
- Maine, Skowhegan quadrangle, lat. $44^{\circ} 45' - 45^{\circ}$, long. $69^{\circ} 30' - 69^{\circ} 45'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of June, 1913. 17.5×12.5 in. $\dagger 10c$.
- Maryland, Brandywine quadrangle, lat. $38^{\circ} 30' - 38^{\circ} 45'$, long. $76^{\circ} 45' - 77^{\circ}$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Feb. 1913. 17.5×13.8 in. $\dagger 10c$.
- Minnesota, Ashby quadrangle, lat. $46^{\circ} - 46^{\circ} 15'$, long. $95^{\circ} 45' - 96^{\circ}$. Scale 1:62,500, contour interval 10 ft. [Washington, Geological Survey] edition of Apr. 1913. 17.5×12.2 in. $\dagger 10c$.
- Missouri, Queen City quadrangle, lat. $40^{\circ} 15' - 40^{\circ} 30'$, long. $92^{\circ} 30' - 92^{\circ} 45'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1913. 17.5×13.4 in. $\dagger 10c$.
- New York, Lowville quadrangle, lat. $43^{\circ} 45' - 44^{\circ}$, long. $75^{\circ} 15' - 75^{\circ} 30'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of Apr. 1913. 17.5×12.7 in. $\dagger 10c$.
- Oklahoma, Antlers quadrangle, lat. $34^{\circ} - 34^{\circ} 30'$, long. $95^{\circ} 30' - 96^{\circ}$. Scale 1:125,000, contour interval 50 ft. [Washington, Geological Survey] edition of Dec. 1912. 17.5×14.6 in. $\dagger 10c$.
- Oregon-Washington, Mount Hood quadrangle, lat. $45^{\circ} 20' - 45^{\circ} 44'$, long. $121^{\circ} 40' - 122^{\circ} 15'$. Scale 1:125,000, contour interval 100 ft. [Washington, Geological Survey] edition of Mar. 1913. 15.2×14.9 in. $\dagger 10c$.
- Pennsylvania-Maryland, Gettysburg battlefield and vicinity, lat. $39^{\circ} 30' - 40^{\circ}$, long. $77^{\circ} - 77^{\circ} 30'$. Scale 1:62,500, contour interval 20 ft. [Washington, Geological Survey] edition of May, 1913. 34.9×27.1 in. [No description on reverse.] $\dagger 40c$.
- South Dakota, Newell quadrangle, lat. $44^{\circ} 30' - 45^{\circ}$, long. $103^{\circ} - 103^{\circ} 30'$. Scale 1:125,000, contour interval 50 ft. [Washington, Geological Survey] edition of Jan. 1913. 17.5×12.6 in. $\dagger 10c$.
- Texas, Millican quadrangle, lat. $30^{\circ} 22' 30'' - 30^{\circ} 30'$, long. $96^{\circ} 07' 30'' - 96^{\circ} 15'$. Scale 1:31,680, contour interval 5 ft. [Washington, Geological Survey] edition of Feb. 1913. 17.3×14.9 in. $\dagger 10c$.

INDIAN AFFAIRS OFFICE

Amendments to Regulations of Sept. 3, 1912, governing leasing of restricted allotted Indian lands for mining purposes under act of Mar. 3, 1909, effective June 1, 1913. [May 28, 1913.] 2 p. †

Statement of expense on account of Indian Service, fiscal year 1912, including all claims paid on account of fiscal year 1912 up to Apr. 1, 1913; presented by Mr. Stone. June 17, 1913. 11 p. (S. doc. 107.) †

MINES BUREAU

Coal. Smokeless combustion of coal in boiler furnaces, with chapter on central heating plants, by D. T. Randall and H. W. Weeks; revised by Henry Kreisinger. [2d edition.] [May, 1913.] 188 p. il. (Bulletin 40.) [Includes list of Mines Bureau and Geological Survey publications on fuel testing. Imprint date incorrectly given as 1912.] * Paper, 20c. 13-35515

— Volatile matter of coal [with list of bureau publications on fuel technology]; by Horace C. Porter and F. K. Ovitiz. [3d edition.] [May] 1913. 58 p. il. 1 pl. (Bulletin 1.) * Paper, 10c. 13-35494/4

Furnace-gas. Foundry-cupola gases and temperatures [with list of bureau publications on fuel technology]; by A. W. Belden. [1st edition.] [Mar.] 1913. 29 p. il. 3 pl. (Bulletin 54.) * Paper, 10c. 13-35493

Gas and oil engines. Petroleum technology 5: Heavy oil as fuel for internal-combustion engines [with bibliography and list of bureau publications on petroleum technology]; by Irving C. Allen. [1st edition.] [May] 1913. 36 p. (Technical paper 37.) * Paper, 5c. 13-35516

Iron. Electrolytic method of preventing corrosion of iron and steel [with list of bureau publications on mine accidents and methods of mining]; by J. K. Clement and L. V. Walker. [1st edition.] [May] 1913. 19 p. il. (Technical paper 15.) * Paper, 5c. 13-35480

Mine accidents. Coal-mine accidents in United States, 1896-1912, with monthly statistics for 1912 [with list of bureau publications on mine accidents and methods of mining]; compiled by Frederick W. Horton. [2d edition.] [May] 1913. 74 p. il. (Technical paper 48.) * Paper, 10c. 13-35488

— Monthly statement of coal-mine fatalities in United States, Apr. 1913, with revised figures for preceding months [and list of bureau publications on mine accidents and methods of mining]; compiled by Albert H. Fay. [1st edition.] [June] 1913. 15 p. * Paper, 5c. 12-29024/5

Petroleum technology 10: Flash point of oils, methods and apparatus for its determination [with bibliography]; by Irving C. Allen and A. S. Crossfield. [1st edition.] [May] 1913. 31 p. il. (Technical paper 49.) * Paper, 5c. 13-35446

Publications. Mining publications of bureau, July, 1913. [1913.] 6 p. † 13-35514

— New publications, list 19; May, 1913. [1913.] oblong 48° [These lists are published in the form of postal cards.] †

PATENT OFFICE

NOTE.—The Patent Office publishes Specifications and drawings of patents, both in single copies and monthly volumes. The single copies are not enumerated in this catalogue, but may be obtained for 5c. each at the Patent Office.

A variety of indexes, giving a complete view of the work of the Patent Office from 1790 to date, are published at prices ranging from 25c. to \$10 per volume and may be obtained from the Superintendent of Documents. The Rules of practice and pamphlet Patent laws are furnished free of charge upon application to the Patent Office. The Patent Office issues coupon orders in packages of 20 at \$1.00 per package, or in books containing 100 coupons at \$5.00 per book. One coupon will procure a specification with

drawing. These coupons are good until used, but are only to be used for orders sent to the Patent Office. For schedule of office fees, address Chief Clerk, Patent Office.

Alphabetical list of patentees to whom patents were issued, Apr. 1913 [with list of inventions]. [1913.] cxii p. large 8° [Monthly index to Official gazette.]

* Paper, 10c. single copy, included in price of Official gazette for subscribers.

Same, May, 1913 [with list of inventions]. [1913.] cxii p. large 8° [Monthly index to Official gazette.] * Paper, 10c. single copy, included in price of Official gazette for subscribers.

Changes in classification [of inventions, order 2051-52; May 16 and 17, 1913]. [1913.] [3] p. large 8° [From Official gazette, v. 190, no. 4.] †

LABOR DEPARTMENT

NOTE.—The act to create a Department of Labor, approved Mar. 4, 1913 (public act 426), includes the following provisions: That there is hereby created an executive department in the Government to be called the Department of Labor, with a Secretary of Labor, who shall be the head thereof, to be appointed by the President, by and with the advice and consent of the Senate; * * * and the Department of Commerce and Labor shall hereafter be called the Department of Commerce, and the Secretary thereof shall be called the Secretary of Commerce, and the Act creating the said Department of Commerce and Labor is hereby amended accordingly. The purpose of the Department of Labor shall be to foster, promote, and develop the welfare of the wage earners of the United States, to improve their working conditions, and to advance their opportunities for profitable employment. * * *

Sec. 2. That there shall be in said department an Assistant Secretary of Labor, to be appointed by the President. * * * He shall perform such duties as shall be prescribed by the Secretary or required by law. There shall also be one chief clerk and a disbursing clerk, and such other clerical assistants, inspectors, and special agents as may from time to time be provided for by Congress. * * *

Sec. 3. That the following-named offices, bureaus, divisions, and branches of the public service now and heretofore under the jurisdiction of the Department of Commerce and Labor, and all that pertains to the same, known as the Commissioner General of Immigration, the Commissioners of Immigration, the Bureau of Immigration and Naturalization, the Division of Information, the Division of Naturalization, and the Immigration Service at Large, the Bureau of Labor, the Children's Bureau, and the Commissioner of Labor, be, and the same hereby are, transferred from the Department of Commerce and Labor to the Department of Labor, and the same shall hereafter remain under the jurisdiction and supervision of the last-named department. The Bureau of Immigration and Naturalization is hereby divided into two bureaus, to be known hereafter as the Bureau of Immigration and the Bureau of Naturalization, and the titles Chief Division of Naturalization and Assistant Chief shall be Commissioner of Naturalization and Deputy Commissioner of Naturalization. The Commissioner of Naturalization or, in his absence, the Deputy Commissioner of Naturalization, shall be the administrative officer in charge of the Bureau of Naturalization and of the administration of the naturalization laws under the immediate direction of the Secretary of Labor, to whom he shall report directly upon all naturalization matters annually and as otherwise required, and the appointments of these two officers shall be made in the same manner as appointments to competitive classified civil-service positions. The Bureau of Labor shall hereafter be known as the Bureau of Labor Statistics, and the Commissioner of the Bureau of Labor shall hereafter be known as the Commissioner of Labor Statistics; and all the powers and duties heretofore possessed by the Commissioner of Labor shall be retained and exercised by the Commissioner of Labor Statistics; and the administration of the Act of May thirtieth, nineteen hundred and eight, granting to certain employees of the United States the right to receive from it compensation for injuries sustained in the course of their employment. * * *

Sec. 7. That there shall be a solicitor of the Department of Justice for the Department of Labor. * * *

Sec. 11. That this Act shall take effect March fourth, nineteen hundred and thirteen, and all Acts or parts of Acts inconsistent with this Act are hereby repealed.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 5 cents each; the other, the rural free delivery routes in an entire county, sold at 20 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department. These maps should not be confused with the post route maps for which see Monthly catalogue for January, 1913, page 370.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1, Contributions to knowledge; 2, Miscellaneous collections; 3, Annual reports; 4, Special publications. No sets of these are for sale or distribution, as most of the volumes are out of print. The volumes of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for free distribution. The publications should be ordered by the serial number. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.

Description of skull of extinct horse, found in central Alaska; by Oliver P. Hay. Washington, Smithsonian Institution, June 4, 1913. [2]+18 p. il. 2 pl. (Publication 2181; Smithsonian miscellaneous collections, v. 61, no. 2.) † Paper, 10c. 13—35448

Report on fresh-water Copepoda from Panama, with descriptions of new species [with bibliography]; by C. Dwight Marsh. Washington, Smithsonian Institution, June 20, 1913. [2]+30 p. il. 1 pl. (Publication 2182; Smithsonian miscellaneous collections, v. 61, no. 3.) † Paper, 10c. 13—35484

ETHNOLOGY BUREAU

28th annual report, [fiscal year] 1907, [with accompanying papers]. 1912. 308+[2]+xxxv p. il. 103 pl. map, 1 tab. large 8° [For contents see entry of this publication with Congressional document number in Monthly catalogue for May, 1913, page 631.] * Cloth, \$1.25. 9—871/6

Antiquities of upper Verde River and Walnut Creek valleys, Ariz.; by Jesse Walter Fewkes. 1913. [1]+181-220 p. il. 24 pl. large 8° [From 28th report, 1907.] * Cloth, 50c.

Casa Grande, Ariz.; by Jesse Walter Fewkes. 1913. [1]+25-179 p. il. 79 pl. large 8° [From 28th report, 1907.] * Cloth, 95c.

Preliminary report on linguistic classification of Algonquian tribes; by Truman Michelson. 1913. [1]+221-308+[2] p. map, 1 tab. large 8° [Pages 291-308 contain an index to the 28th report, 1907. From 28th report, 1907.] * Cloth, 45c.

NATIONAL MUSEUM

NOTE.—The publications of the National Museum comprise bulletins, annual reports, and an annual volume of Proceedings. The annual report is included in the Congressional set. The editions of the bulletins and Proceedings are too limited to admit of general distribution, and the volumes of the latter are sent only to libraries.

Amphipods. Notes on small collection of amphipods from Pribilof Islands, with descriptions of new species; by A. S. Pearse. June 4, 1913. [1]+571-573 p. il. [From Proceedings, v. 45; no. 1998.] †

Batrachians. Results of Yale Peruvian expedition of 1911: Batrachians and reptiles; by Leonhard Stejneger. June 4, 1913. [1]+541-547 p. [From Proceedings, v. 45; no. 1992.] †

Beetles. Fossil Coleoptera from Florissant in National Museum; by H. F. Wickham. June 13, 1913. [1]+283-303 p. 5 pl. [From Proceedings, v. 45; no. 1982.] †

Butterflies. Three interesting butterflies from eastern Massachusetts; by Austin Hobart Clark. June 13, 1913. [1]+363-364 p. 1 pl. [From Proceedings, v. 45; no. 1987.] †

Cactus. Genus *Epiphyllum* and its allies; by N. L. Britton and J. N. Rose. [June 6] 1913. vii+255-262 p. 7 pl. (Contributions from national herbarium, v. 16, pt. 9.) * Paper, 10c. Agr 13—1419

- Cephalopods. Some new Hawaiian cephalopods; by S. Stillman Berry. June 4, 1913. [1]+563-566 p. [From Proceedings, v. 45; no. 1996.] †

NORTHERN AND NORTHWESTERN LAKES SURVEY

NOTE.—Lake Survey charts may be obtained from U. S. Lake Survey Office, Detroit, Mich., or from U. S. Engineer Office, Buffalo, N. Y. Payments must be made before charts are sent, and if made by mail must be by postal or express money order payable to the order of U. S. Lake Survey Office if ordered from Detroit, or to the order of U. S. Engineer Office if ordered from Buffalo. These charts may also be obtained, for cash only, at U. S. Canal Office at Sault Ste. Marie, Mich. They will be sent by express, the express charges to be paid by the purchaser on receipt of the charts, or free by mail at the purchaser's risk. Purchasers should indicate, when ordering the charts, whether they wish them sent by express or mail. The latter will be used when no choice is indicated.

The bulletins and supplements of the Lake Survey may be obtained free upon application at U. S. Lake Survey Office, Detroit, Mich., and at the engineer offices in Duluth, Milwaukee, Chicago, Grand Rapids, Cleveland, Buffalo, and Oswego.

Supplement 2, 1913, corrections and additions to Bulletin 22; to supplement information given upon charts of Great Lakes. U. S. Lake Survey Office, Detroit, Mich., [June 20] 1913. p. 1-3+1. 4-14+[2] p. 4° ‡
