Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication going to one address, on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list contains annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of Congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress. Sales copies of a few of the more important ones are printed. The availability of those not for sale is indicated in the individual entries.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the National Technical Information Service are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been, or will be, sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. When additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give the name of the publishing department, bureau, or agency, the title, the classification number which is added to the entry at the extreme right, and the stock number (if given following the price). Order Congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 103, 88th Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Foreign remittances should be made by international money order, or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in denomination of 5¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address the order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and its possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Public Documents Department. The *shilling* mark (/) separates what ordinarily would be superior or inferior numbers or letters. It is not practicable to print these numbers or letters as *superiors* or *inferiors* in the Monthly Catalog.

- Abel, Irving, wind-tunnel evaluation of analytical techniques for predicting static stability and control characteristics of flexible aircraft, 8666
- Abel transforms, *see* transformations (mathematical).
- Ablene, Tex., census of population and housing, 1970, census tracts, 7636
- Ablating materials:
demonstration of range over which Langley Research Center digital computer be used with confidence, comparisons of charring ablation program (CHAP) can CHAP predictions and test data for 3 ablation materials, 8638
flight and ground test evaluation of pyrene foams, 8690
- Academy of Sciences, USSR, chief results of biological investigations at Siberian Department, 8503
- Acadia National Park, historic basic data, 8901
- Acarina, *see* Mites.
- Acceleration, effects of normal acceleration on transient burning-rate augmentation of aluminized solid propellant, 8662
- Accelerators, analytical and experimental investigation of coaxial plasma gun for use as particle accelerator, 8678
- Accidents:
guidelines for telephone reassurance service, 7439
investigation of frequency of accidents with small power tools, 7777
see also Marine accidents—Motor vehicle accidents—Safety of life.
- Accountants, criminal investigators, Internal Revenue Service, career opportunities, 8437
- Accounting, *see* Accounts and accounting.
- Accounts and accounting:
accounting interpretations for rural electric borrowers, 8895
cumulative regulatory effects on cost of automotive transportation (RECAT), final report, 8897
Improved production cost data for individual nuclear weapon systems to be provided to Congress by Atomic Energy Commission, GAO report, 8375
Mines Bureau, cost reimbursement, research and development contracts with commercial organizations, 8596
- Acetates, development of cellulose triacetate hollow fiber reverse osmosis modules for brackish water desalination, 8426
- Acetylene, 300 mm lbs/yr. acetylene plant AVCO arc-coal process, review and evaluation, 7750
- Acoustic neuroma, hope through research, 8774
- Acoustic projectors, *see* Sound projectors.
- Acoustics, *see* Sound.
- ACP, *see* Agricultural conservation program.
- Action, Deputy Director, nomination of Walter C. Howe, jr., hearing, 8030
- Acts of Congress, *see* Law.

- Allen, Jerry M., pitot-probe displacement in supersonic turbulent boundary layer, 8714
- Allen Landing, Fla., Ochlockonee River, Lake Talquin to Allen Landing, special flood hazard information report, 8202
- Allenport, Pa., Monongahela River, flood plain information, 8173
- Alloys:**
 anisotropy of mechanical properties of heat-resistant alloys on nickel base, USSR study, 8495
 cyclic furnace oxidation of clad WI-52 systems at 1040° and 1090° C, for superalloy protection, 8700
 influence of semifabricate-production technology on mechanical characteristics of heat-resistant alloys, USSR study, 8489
 investigation of influence of oxidation-resistant coatings on fatigue strength of heat-resistant alloy, USSR study, 8517
see also names of metals, etc.
- Altoona, Pa., census of population and housing, 1970, census tracts, 7637
- Alumina:**
 silica-alumina system, stability of colloidal silica, 8424
 thermophysical properties of powdered metal compositions of the system, Al₂O₃-Mo, USSR study, 8496
- Aluminum:**
 atomic energy levels derived from analyses of optical spectra, 8726
 effects of normal acceleration on transient burning-rate augmentation of aluminumized solid propellant, 8662
 recovery of aluminum—
 base and precious metals from electronic scrap, 8620
 from aluminum-silicon alloys, 8609
