## Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [ ] are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C. Size is not given for octavo publications. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e.g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents. Requests for them, if they are available, should be addressed to the issuing office or to the Office of Technical Services, as indicated by the distribution symbol.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, administrative and confidential (or restricted) publications are omitted.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

# General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

## PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

## LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

## CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

## HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (\*) preceding the price. Those for sale by the Office of Technical Services, Commerce Department, are indicated by a farad (⚡) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. doc. 108, 82d Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

### HOW TO REMIT

Remittances for documents marked with an asterisk (\*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C., by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

*Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.*

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

### LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

water resources review, annual summary, 1960-----	1317
712	White House Conference on Aging, significance, purpose, etc-----
713-722	1575
water supply papers-----	White pine blister rust, Lake States, economics of control-----
713-722	653
Water systems:	Whitman National Monument, general information-----
Laos, installation of necessary equipment-----	1355
770	Wichita, Kans.:
UFA, decontamination results by ultraviolet irradiation from AKKh apparatus, USSR study-----	occupational wage survey—departmental edition-----
941	1179
Waterborne commerce, <i>see</i> Commerce.	document edition-----
Watercraft, <i>see</i> Ships.	372
Watersheds, management, research program in California's lower conifer zone-----	Wildlife:
688	and water resources, report-----
1451	miscellaneous legislation, hearings—useful, making land produce-----
Waterways, bridge, hydraulics-----	70
1451	Wildlife refuges:
Waubay National Wildlife Refuge, general information-----	national, southeast region 4, general information-----
574	570
Waves, <i>see</i> Shock waves—Sound.	refuge leaflets-----
Weapons:	569-575
atomic, necessity for preparedness (remarks)-----	<i>see also</i> names of refuges.
235	Williamson, W. Va., railroad accident-----
mutual development program, agreement with Australia-----	753
1501	Williamsport, Pa., aircraft accident-----
nuclear-----	297
comparison test of reinforcing steels in blast-resistant construction-----	Wills, do you need a will?-----
233	742
tests, Geneva discontinuance conference, progress, etc., analysis-----	Wind tunnels:
387	interference effects in two-dimensional and axisymmetric flows with free-stream Mach number 1-----
production program, agreement with-----	1328
Norway-----	supersonic aircraft with forebody strakes for improving directional stability investigation-----
1504	1282
Portugal-----	
1527	

# INDEX

	Entry		Entry
<b>Winds:</b>		<b>Wood:</b>	
tail loads caused by blast induced gust, experimental investigation-----	1271	comprehensive use in Communist China-----	1023
wing loads caused by blast-induced gusts-----		modified woods-----	682
experimental investigation-----	1266	moisture content, coatings for minimizing changes-----	665
experimental results-----	1273	shrinkage or swelling with change in moisture content-----	657
<b>Wings (aircraft):</b>		tariff classification study, explanatory and background materials-----	1548
aerodynamic load caused by blast-induced gust increasing angle of attack into stall region, investigation-----	1266	<i>see also</i> Hardwoods—Lumber—also names of articles manufactured from wood.	
cranked-wing configuration, interaction of shock-wave patterns-----	1293	Wood preservatives, <i>see</i> Creosote.	
delta, drag due to lift at Mach nos. up to 2.0-----	1312	Wood pulp, sulfate and prehydrolysis-sulfate for nitration, relation of characteristics to preparation variables-----	661
effects of frequency and amplitude of oscillation in sideslip on lateral stability derivatives, low-speed investigation-----	1281	Woods, <i>see</i> Wood	
flat-plate, pressure loads produced by rocket jets exhausting in spanwise direction below wing and perpendicular to free-stream flow of Mach no. 2.0-----	1285	Woolley, Robert W., papers in Library of Congress, register-----	1192
flutter of varying aspect ratio, etc., at Mach nos. 0.60 to 1.10, investigation-----	1248	Workers, <i>see</i> Labor—Women.	
loads due to blast-----		Workmen's compensation, <i>see</i> Employers' liability and workmen's compensation.	
experimental investigation-----	1266	World trade, <i>see</i> Commerce.	
experimental results-----	1273	Wright Air Development Center, technical reports-----	138-142
parawing as high-lift device for aircraft-----	1319	Wright Air Development Division, technical notes-----	143-144
rectangular, vortical wake effects at low speed, study-----	1290	Wyoming, mineral industry, minerals yearbook chapter-----	1218
span loadings due to twist at transonic and supersonic speeds-----	1274	Wyssen cable system, <i>see</i> Lumbering.	
sweepback, 45°, high velocity blowing over leading- and trailing-edge flaps-----	1251	<b>X</b>	
triangular and rectangular, pressure distributions to high angles of attack, Mach numbers 1.45 and 1.97-----	1249	X-ray technicians, examination announcement-----	309
unswept, effect of leading-edge droop on aerodynamic and loading characteristics at transonic speeds-----	1267	<b>Y</b>	
untapered, sweep angle effects on boundary-layer stability characteristics at low speeds-----	1289	Yankee Atomic Electric Co., reactor research and development program, progress report-----	234
vertical position effects on directional stability of trapezoidal-wing airplane model-----	1284	Young workers, <i>see</i> Youth.	
<b>Women:</b>		Your Federal income tax-----	747
energy expenditures for selected activities-----	77	<b>Youth:</b>	
preemployment courses and training opportunities-----	1576	employment, list of publications-----	1167
State labor laws, summary-----		Mongolian, all-out efforts for development of socialist construction-----	765
Arizona-----	1580	young workers under 18, 1959 supplement-----	1168
Delaware-----	1581	Yugoslavia:	
District of Columbia-----	1582	producers council within commune-----	1048
Illinois-----	1583	selected economic translations-----	1087,
Massachusetts-----	1584	1140, 1147, 1150	
North Dakota-----	1585	selected sociological translations-----	1028,
today's women in tomorrow's world, report of conference commemorating 40th anniversary of Women's Bureau-----	1577	1091	
workers, facts-----	1578	workers self-management and division of labor-----	1043
workers, New Jersey, maintenance and health protection costs-----	1579	Yunnan Province, China, work report-----	1072
<b>Women's Bureau:</b>		<b>Z</b>	
bulletins-----	1576 77	Zinc, Tri State zinc-lead district, catalog of recorded exploration drilling-----	1197
leaflet-----	1578	Zirconium:	
today's woman in tomorrow's world, report of conference commemorating 40th anniversary-----	1577	alloys, zirconium-dysprosium equilibrium diagram-----	1237
		and zircaloy-2 tubing, extruded, texture study-----	203
		Zirconium isotopes, Zr-90, nuclear electric monopole transitions-----	184
		Zoology, general and specialized, Soviet abstracts-----	987
		Zooparasitology, Soviet abstracts-----	963

The Library of Congress has cataloged this publication as follows:

U.S. *Superintendent of Documents.*

Monthly catalog of United States Government publications. no. [1]-

Jan. 1895-
