PREFACE

The "consolidated index of Congressional documents" for the first session of the Sixty-eighth Congress, herewith presented, is the thirty-fourth in the series prepared in the Office of the Superintendent of Documents in compliance with the requirements of the printing law of January 12, 1895.

The documents included in this index number 2,380, divided as follows: Senate reports, 796; House reports, 1,030; Senate documents, 156; House documents, 398.

Serial number 8218 is assigned to the Senate Journal and number 8219 to the House Journal.

The bound set of Congressional documents and reports, listed in the Schedule of volumes, p. 277, represents a set which is limited to 73 copies of the numbered volumes and 15 copies of the lettered volumes. The complete set is distributed only to the Senate and House libraries, the Library of Congress, and the Office of the Superintendent of Documents; the numbered volumes are also sent to the international exchanges.

Although this bound set is not sent to depository libraries all publications included in the *numbered* volumes thereof are received by them. The annual and serial publications are sent without the Congressional document numbers on the title-pages and in the binding used by the Department issuing them. All the other publications are sent bound in volumes corresponding to those listed in the schedule; the depository library edition, however, has a different style of binder's title and does not contain the series volume title-pages.

The *lettered* volumes contain only reports on private bills and joint resolutions and on simple and concurrent resolutions. These volumes are not sent to depository libraries as under the provisions of the act of January 20, 1905, only a limited number of such reports can be printed.

For the benefit of those libraries desiring to keep the serial arrangement, the serial numbers will be printed upon strips which will be furnished, on request, to designated depositories for attachment to the bound books.

The publications scheduled to be bound in volumes 23-29 of the Senate documents and in volumes 14-124 of the House documents of this schedule are annual or serial publications which will be sent to depository libraries without Congressional document notation.

PREFACE

The omission of their volume number in the Congressional set from the bound volumes of Congressional documents and reports distributed to depository libraries was authorized, on recommendation of the Public Printer, by a resolution adopted by the Joint Committee on Printing May 21, 1924. This will make possible the immediate delivery as printed of every Congressional document and report of sufficient size to be bound separately, as it will not be necessary to withhold these volumes from distribution until the Schedule of volumes can be compiled at the close of the session.

The change authorized by this resolution has been inaugurated with the binding of the documents and reports of this first session of the Sixty-eighth Congress. In the index proper the series volume number has been eliminated from the entries and the serial number substituted.

ALTON P. TISDEL,
Superintendent of Documents.
