* Document for sale by Superintendent of Documents.

† Distribution by office issuing document, free if unaccompanied by a price.

‡ Document not obtainable.

Explanation

Words and figures inclosed in brackets [] are given for information, but do not appear on the title-pages of the publications catalogued. When size is not given, octavo is to be understood. Size of maps is measured from outer edge of border, excluding margin. The dates, including day, month, and year, given with Senate and House documents and reports, are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays. When Congress and session are not given with the numbers of Senate and House documents and reports, 63d Congress, 1st session, is to be understood.

GENERAL INFORMATION

The Superintendent of Documents is authorized to sell at cost any public document in his charge, the distribution of which is not otherwise provided for.

Documents **can not** be supplied by this Office free to individuals **nor forwarded in advance of payment.**

Documents entered in this catalogue that are for sale by the **Superintendent of Documents, Washington, D. C.**, are indicated by a star (*) preceding the price named. A dagger (†) indicates that application should be made to the Department, Bureau, or Division issuing the document, a double dagger (‡) indicates that the document is not obtainable, and whenever additional information concerning the method of procuring a document seems necessary it will be found under the name of the Bureau. The Senate and House documents and reports are issued in limited editions and, unless otherwise indicated, may be obtained only through Members of Congress.

In ordering a publication from the Superintendent of Documents, give the name of the issuing Department, Bureau, or Division, and title. If publication is numbered give number also. Do not order by Library of Congress card number.

Read carefully the instructions "How to remit," found at the bottom of the next page.

The accumulation of publications in this Office amounts to several millions, of which over a million are assorted, forming the sales stock. Many rare books are included, but under the law all must be sold "at cost," regardless of their age or scarcity.

In ordering, it should be borne in mind that many of the books have been in stock some time and are apt to be shop-worn. In filling orders, however, the best copy available is sent.

No general price-list of public documents is available, but lists on special subjects will be furnished on application.

MONTHLY CATALOGUE DISTRIBUTION

The Monthly catalogue is sent to each Senator, Representative, Delegate, Resident Commissioner, and officer in Congress, to designated depositories and State and Territorial libraries, to substantially all Government authors, and to as many school, college, and public libraries as the limited edition will supply.

Subscription price to individuals, \$1.10 a year, including indices. Back numbers can not be supplied. Please notify the Superintendent of Documents of any change in address.

LIBRARY OF CONGRESS CARDS

Numbers to be used in ordering the L. C. catalogue cards will be found at the end of the titles of the more important monographic documents. The figure following the card number (separated from it by a slanting line) indicates the number of cards required for entries suggested (title entry not included) on the cards. The price of the cards is 2c. for the first card and 17c. for each additional card for the same title ordered at the same time. **Remittances should be made to the Librarian of Congress.** Cards can not be furnished by the Superintendent of Documents.

CUMULATIVE INDEX

Beginning with July, 1912, the Index to the Monthly catalogue has been issued semiannually instead of quarterly as heretofore, and will cumulate for the twelve months ending June, 1913. That is, the December number is an Index to the Monthly catalogue for July to December, 1912, and the June number will be the index for the fiscal year 1913. Persons desiring to bind the catalogue at the end of the year should be careful to retain the numbers received monthly, as duplicate numbers can not be supplied.

HOW TO REMIT

Remittances for the documents marked with a star (*) should be made to the **Superintendent of Documents, Washington, D. C.**, by postal money order, express order, or New York draft. Currency may be sent at sender's risk.

Postage stamps, foreign money, defaced or smooth coins will positively not be accepted.

To facilitate the payment of the cost of documents, the Superintendent of Documents will hereafter accept coupons issued by him instead of cash. Coupons of the value of 5 cents each are sold in sets of 20 for \$1.00. Address order to Superintendent of Documents, Government Printing Office.

No charge is made for postage on documents forwarded to points in United States, Guam, Hawaii, Philippine Islands, Porto Rico, or to Canada, Cuba, or Mexico. To other countries the regular rate of postage is charged, and remittances must cover such postage.

NOTES OF GENERAL INTEREST

Additional references on the cost of living and prices is a new list from the Library of Congress, supplementing the Select list of references on the cost of living and prices published three years ago. In a Prefatory note chief bibliographer Meyer says: "That such a supplement was needed is very forcibly shown by the fact that the additional references make up a list fully as long as the original list. The interest in the subject is universal." The new list is sold by the Superintendent of Documents at 15 cents.

Report on conditions of employment in the iron and steel industry in the United States, by the Labor Bureau (now Labor Statistics Bureau), has been completed by the publication of volume 4, Accidents and accident prevention. This volume is sold by the Superintendent of Documents at 40 cents, and the set of 4 vols. at \$2.05. These are the prices for paper-covered copies. Vol. 4 is profusely illustrated, and both by text and pictures gives a vivid idea of the serious peril involved in the production of iron and steel on the great scale of modern operations. Many protective devices are in use, and these also are described and illustrated.

A new bibliography on an important subject not heretofore included in the Library of Congress series is Select list of references on commission government for cities, just issued. Sold by the Superintendent of Documents at 10 cents.

There is a new Medical handbook, issued by the Education Bureau for distribution to its employees in Alaska. Others who wish copies can buy them from the Superintendent of Documents at 50 cents. The book is written especially for the teachers of the Alaska school service, who often find it to be their duty not only to give first aid to sick or injured natives but to care for them through the entire course of severe illnesses. There are large districts in Alaska beyond the reach of doctors and where American teachers and missionaries are the only civilized persons. The new Handbook, written as it is in language simple and plain, may be found useful by others as well as by the teachers in Alaska.

It was found necessary to recall some copies of the Census supplement for Vermont and issue corrected prints. In the first print the last part of Table 1, containing the population statistics of Windsor County, which belongs at the top of page 574, had been omitted. The error was righted by reprinting a single leaf.

Vol. 3, Court of Customs Appeals reports, covering the period from February to February, 1912 and 1913, has been published in buckram binding matching the earlier volumes and is for sale by the Superintendent of Documents at \$1.00 a copy.

The secret of the big trees, Yosemite, Sequoia, and General Grant national parks, is a revised reprint of an article from the April, 1912, Harper's magazine, written by Professor Ellsworth Huntington of Yale University, who has been examining the annual growth rings of the California big trees to determine by their accelerated or retarded growth the climatic changes through the vast periods of the existence of these oldest of all living things on our planet. Many of the big trees are 2000 years old, and they indicate periods of rainfall and

fertility and contrasting periods of aridity. The secret of the big trees is now issued by the Interior Department and sold by the Superintendent of Documents at 5 cents a copy. It is highly interesting and freely illustrated by full-page photographic plates.

Education Bureau Bulletin 17, series of 1913, is: A trade school for girls, a preliminary investigation in a typical manufacturing city. The investigation was made by the Research Department of the Women's Educational and Industrial Union of Boston under the direction of Susan M. Kingsbury and May Allinson, and has resulted in the establishment of three trade schools for girls, which are now in successful operation in the cities of Cambridge, Somerville, and Worcester, Mass. Copies of the report can be supplied by the Superintendent of Documents at 10 cents.

Education Bureau Bulletin 14, series of 1913, Agricultural instruction in secondary schools, is a collection of papers read at the 3d annual meeting of the American Association for the Advancement of Agricultural Teaching, at Atlanta, Nov. 1912. As a step in that progress toward more scientific and therefore more productive agriculture which is of such vital import to the whole country, this pamphlet has a place of its own. From the Superintendent of Documents, copies 10 cents.

Secretary Houston of the Agriculture Department has issued Rules and regulations for carrying out the plant quarantine act, as Circular 44 of his office, under date of May 26, 1913. Sold by the Superintendent of Documents at 5 cents.

Index to the reports and documents of the 62d Congress, 1st and 2d sessions, 1911-12, with numerical lists and schedule of volumes, being no. 18 of the "consolidated index" provided for by the act of January 12, 1895, has been issued by the Superintendent of Documents. It indexes the 4201 numbered publications ordered printed by the two branches of Congress during the sessions named. These reports and documents are indexed by subject, by number, by the names of the Senators or Representatives presenting them, and by the names of the committees reporting upon them. 50 cents.

The new volume of Session laws, being those enacted at the 3d and final session of the 62d Congress, is now on sale, price \$1.00.

The 35th (1912) issue of that incomparable reference book, the Statistical abstract of the United States, is now ready. 50 cents in paper.

The latest (5th) edition of the Street directory of the cities of the United States, prepared and published by the Post Office Department in 1908, is now on sale by the Superintendent of Documents at \$1.00 a copy. It is a cloth-bound volume of over 900 pages, containing information not to be obtained elsewhere. Previous editions were published in 1881, 1884, 1891, and 1894. The edition now on sale is the only work of the kind that has been published since 1894.

A 2d edition of the United States Mint's Catalogue of coins, tokens, and medals is now on sale at \$1.00. The active demand for the 1st edition exhausted the stock some time ago.

Sugar at a second glance (Senate document 23, 63d Congress, 1st session), by Frank C. Lowry, is a caustic reply to Sugar at a glance (Senate document 890, 62d Congress, 2d session), by Truman G. Palmer. Mr. Lowry is for free sugar. Mr. Palmer is against it.

An important new issue in the Water-supply papers series is no. 315, Purification of public water supplies, by George A. Johnson.

The Yearbook of the Agriculture Department for 1912 is out of press. The time has long passed since any one needed to be told what the Yearbook is like. Copies are for sale by the Superintendent of Documents at \$1.

The 7th volume, which is the general index to the preceding six volumes, of Tariff hearings held during the 3d session of the 62d Congress, is now available, completing the set. Cloth, 25 cents; paper, 15 cents.

The Wakefield Commissions, so-called, were two in number, Edwin R. Wakefield, special attorney, Justice Department, having been chairman of both. Customs matters were the subject of consideration by both commissions. One related to importations of Limoges ware. This was printed by order of the Commission in New York, and it is said that the entire edition was only 15 copies. The Public Documents Library has not yet succeeded in securing one of these for its files. The other was printed under the title Report of the Appraisement Commission of the Treasury Department, the printing having been done in New York by order of the Commission, the number of copies 250. This number not being sufficient to meet the demand, the Tariff Service Record, Washington, D. C., reprinted an edition for sale. The Commission was created for the purpose of investigating and reporting upon both the principles and the practices of the appraising work of the Government. The Commission visited 29 of the principal United States ports, and as a result of its inquiries made important recommendations. Their report is dated New York, Dec. 31, 1912, and signed by Edwin R. Wakefield, Guy Emerson, Joseph R. Nevius, Joseph R. Springstead, and Joseph W. Wheatley.

A history of the first half-century of the National Academy of Sciences, 1863-1913, though not printed at the Government Printing Office, is a public document of the United States by virtue of the fact that the Academy is a Government organization. It is a memorial volume, and a handsome one, containing portraits of the several presidents of the Academy, contents of the memoirs it has published, biographies of the incorporators, lists of the meetings it has held, accounts of the scientific researches it has made in behalf of the Government, etc. It was hoped that a list of the more than 2000 scientific communications presented to the Academy during the half-century might have been included, but this was found impracticable. Dr. F. W. True of the National Museum is the compiler and editor of the work.

STATE CENSUS BULLETINS

The Census Bureau is issuing the returns of the thirteenth census in a form not used in previous censuses, but likely to be found most useful and convenient by large numbers of citizens.

This new form is a bulletin for each State, in which are combined all of the statistics for such State, whether relating to population, agriculture, manufactures, or mining, and whether for the State as a whole or for a county, city, or other civil division. The citizen whose interest in statistics of the census is primarily for those of his own State, is enabled to get them all in a single bulletin of moderate size.

The State bulletins thus far issued are now in course of distribution by the Census Bureau and the Superintendent of Documents. The Bureau does not sell its publications, but the Superintendent of Documents does, and his prices are given in the next paragraph. Of course the bigger the State, the bigger its bulletin, and the bigger the bulletin the bigger the price, but the biggest of them is not really big:

Alabama, 20 cents; Arizona, 15 cents; Arkansas, 20 cents; California, 25 cents; Colorado, 15 cents; Connecticut, 20 cents; Delaware, 10 cents; District of Columbia, 10 cents; Florida, 20 cents; Georgia, 25 cents; Idaho, 15 cents; Illinois, 30 cents; Indiana, 25 cents; Iowa, 25 cents; Kansas, 25 cents; Kentucky, 25 cents; Louisiana, 20 cents; Maine, 15 cents; Maryland, 15 cents;

Massachusetts, 20 cents; Michigan, 25 cents; Minnesota, 25 cents; Mississippi, 15 cents; Missouri, 25 cents; Montana, 20 cents; Nebraska, 20 cents; Nevada, 15 cents; New Hampshire, 15 cents; New Jersey, 20 cents; New Mexico, 15 cents; New York, 35 cents; North Carolina, 20 cents; North Dakota, 15 cents; Ohio, 30 cents; Oklahoma, 20 cents; Oregon, 20 cents; Pennsylvania, 30 cents; Rhode Island, 15 cents; South Carolina, 15 cents; South Dakota, 20 cents; Tennessee, 20 cents; Utah, 15 cents; Vermont, 15 cents; Virginia, 25 cents; Washington, 20 cents; West Virginia, 15 cents; Wisconsin, 20 cents; Wyoming, 15 cents.

STATISTICS OF COMMON CARRIERS

Extraordinary demands on the appropriation of the Interstate Commerce Commission for printing have not only delayed the issue of the Preliminary abstract of statistics of common carriers for the year ended June 30, 1912, but have also prevented the Commission from supplying free copies of it after publication. It will consequently be sold by the Superintendent of Documents; price, 30 cents.

The Abstract for 1911, being the first issue of this annual publication, filled 55 pages and presented extensive statistics from the reports of the larger steam roads, showing mileage, revenues, expenses, operating expenses, and equipment, as well as balance sheet, income account, etc.

The Preliminary abstract for 1912 (171 pages) is similar in character to that for 1911 but it gives returns from about thrice the number of roads and includes also statistics of their freight traffic movement.

SENATE DOCUMENT 80

The United States Government has just issued a very voluminous publication entitled Reciprocity with Canada, compilation of 1911, reproducing all the documents and debates on the United States side and some of those on the other side relating to the actual reciprocity agreement of 1854 and to the proposed reciprocity agreement of 1911 which was defeated by the adverse action of the Canadian Parliament.

This extensive compilation listed under Finance Committee is published as Senate document 80 of the 62d Congress, 1st session, in 5 volumes, respectively designated as Part 1, Part 2, Part 3A, Part 3B, and Part 3C, the whole amounting to nearly 6,000 closely-printed pages.

GEOLOGICAL SURVEY

NOTE.—The publications of the United States Geological Survey consist of annual reports (restricted to one volume each, beginning with report for 1902), bulletins, Mineral resources, Professional papers, and Water-supply papers; and maps, Monographs, and folios of the Geologic atlas (issued in Library and Field editions) and the Topographic atlas of the United States, which are sold at prices ranging from 5c. to \$11.00 each. A wholesale rate has been established for topographic and geologic folios (either Library or Field editions), whenever the sum transmitted solely for folios at the wholesale price amounts to at least \$5.10; that is, a discount of 40 per cent will be given whenever 34 or more folios that sell singly for 25c., or their equivalent in higher priced folios, are ordered at one time. Address the Director of the Geological Survey, Washington. For topographic sheets see page 616.

Topographic sheets

NOTE.—The Geological Survey is making a topographic map of the United States. The sheets of which it is composed are projected without reference to political divisions, and are designated by some prominent town or natural feature found on them. Three scales are ordinarily used, 1:62,500, 1:125,000, and 1:250,000. These correspond, approximately, to 1 mile, 2 miles, and 4 miles to 1 linear inch, covering, respectively, average areas of 230, 920, and 3,700 square miles. For some areas of particular importance special large-scale maps are published. The size, unless otherwise given, is about 17.5 inches in height by 11.5 to 16 inches in width, exclusive of the margin, the width varying with the latitude. A description of the topographic map is printed on the reverse of each sheet.

More than one-third of the area of the country, excluding outlying possessions, has been mapped, every State being represented. Massachusetts, Connecticut, Rhode Island, New Jersey, and the District of Columbia are completely mapped. Sheets of the regular size are sold by the Survey at 10c. each; but in lots of 50 or more copies, whether of the same sheet or of different sheets, the price is 6c. each. In no case can orders be filled at the wholesale rate unless the sum remitted solely for topographic maps amounts to at least \$3.00.

LABOR DEPARTMENT

NOTE.—The act to create a Department of Labor, approved Mar. 4, 1913 (public act 426), includes the following provisions: That there is hereby created an executive department in the Government to be called the Department of Labor, with a Secretary of Labor, who shall be the head thereof, to be appointed by the President, by and with the advice and consent of the Senate; * * * and the Department of Commerce and Labor shall hereafter be called the Department of Commerce, and the Secretary thereof shall be called the Secretary of Commerce, and the Act creating the said Department of Commerce and Labor is hereby amended accordingly. The purpose of the Department of Labor shall be to foster, promote, and develop the welfare of the wage earners of the United States, to improve their working conditions, and to advance their opportunities for profitable employment.

SEC. 2. That there shall be in said department an Assistant Secretary of Labor, to be appointed by the President. * * * He shall perform such duties as shall be prescribed by the Secretary or required by law. There shall also be one chief clerk and a disbursing clerk, and such other clerical assistants, inspectors, and special agents as may from time to time be provided for by Congress.

SEC. 3. That the following-named offices, bureaus, divisions, and branches of the public service now and heretofore under the jurisdiction of the Department of Commerce and Labor, and all that pertains to the same, known as the Commissioner General of Immigration, the Commissioners of Immigration, the Bureau of Immigration and Naturalization, the Division of Information, the Division of Naturalization, and the Immigration Service at Large, the Bureau of Labor, the Children's Bureau, and the Commissioner of Labor, be, and the same hereby are, transferred from the Department of Commerce and Labor to the Department of Labor, and the same shall hereafter remain under the jurisdiction and supervision of the last-named department. The Bureau of Immigration and Naturalization is hereby divided into two bureaus, to be known hereafter as the Bureau of Immigration and the Bureau of Naturalization, and the titles Chief Division of Naturalization and Assistant Chief shall be Commissioner of Naturalization and Deputy Commissioner of Naturalization. The Commissioner of Naturalization or, in his absence, the Deputy Commissioner of Naturalization, shall be the administrative officer in charge of the Bureau of Naturalization and of the administration of the naturalization laws under the immediate direction of the Secretary of Labor, to whom he shall report directly upon all naturalization matters annually and as otherwise required, and the appointments of these two officers shall be made in the same manner as appointments to competitive classified civil-service positions. The Bureau of Labor shall hereafter be known as the Bureau of Labor Statistics, and the Commissioner of the Bureau of Labor shall hereafter be known as the Commissioner of Labor Statistics; and all the powers and duties heretofore possessed by the Commissioner of Labor shall be retained and exercised by the Commissioner of Labor Statistics; and the administration of the Act of May thirtieth, nineteen hundred and eight, granting to certain employees of the United States the right to receive from it compensation for injuries sustained in the course of their employment.

SEC. 7. That there shall be a solicitor of the Department of Justice for the Department of Labor.

SEC. 11. That this Act shall take effect March fourth, nineteen hundred and thirteen, and all Acts or parts of Acts inconsistent with this Act are hereby repealed.

TOPOGRAPHY DIVISION

NOTE.—Since February, 1908, the Topography Division has been preparing rural-delivery maps of counties in which rural delivery is completely established. They are published in two forms, one giving simply the rural free delivery routes starting from a single given post office, sold at 5 cents each; the other, the rural free delivery routes in an entire county, sold at 20 cents each. A uniform scale of 1 inch to 1 mile is used. Editions are not issued, but sun-print copies are produced in response to special calls addressed to the Disbursing Clerk, Post Office Department. These maps should not be confused with the post route maps, for which see Monthly catalogue for January, 1913, page 370.

SMITHSONIAN INSTITUTION

NOTE.—In its latest price-list the Smithsonian Institution publishes this note: "The publications of the Smithsonian Institution are: 1. Contributions to knowledge; 2. Miscellaneous collections; 3. Annual reports; 4. Special publications. No sets of these are for sale or distribution, as most of the volumes are out of print. The volumes of Contributions and of Miscellaneous collections are distributed only to public libraries and to learned institutions and societies in this country and abroad. A small edition of the papers in these two series is printed separately for sale or exchange. The Smithsonian reports are regularly distributed by the Institution to libraries throughout the world, and only a limited number of the volumes remains to supply demands from other sources. No general mailing-list of individuals is maintained. The reports can be had by purchase from the Superintendent of Documents, Washington, D. C. The papers printed in the annual reports are published separately for free distribution. Publications should be ordered by the serial number. Remittances should be made payable to 'Smithsonian Institution.' An application from a library should state the number of volumes in the library and the date of establishment, and have the endorsement of a Member of Congress." The annual reports are the only Smithsonian publications that are regularly issued as public documents. All the others are paid for from the private funds of the Institution.
