Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C. Size is not given for octavo publications. Size of maps is approximate, measurement being made from outer edge of border, excluding margin. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

The word "processed" as used in this catalog indicates publications which are reproduced by duplicating processes other than ordinary printing, e.g., mimeograph, multigraph, planograph, rotaprint, multilith. Processed publications are not obtainable from the Superintendent of Documents. Requests for them, if they are available, should be addressed to the issuing office or to the Office of Technical Services, as indicated by the distribution symbol.

Under provisions of the Printing Act of January 12, 1895, all Government publications are entered in the Monthly Catalog. However, administrative and confidential (or restricted) publications are omitted.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications and to allow a discount of 25 percent to book dealers and also to quantity purchasers of 100 or more copies of a single publication on condition that they will adhere to the public sales price set by the Superintendent of Documents and that publications shall not be overprinted with any advertising matter.

Publications cannot be supplied free to individuals nor forwarded in advance of payment.

PRICE LISTS

There is no general price list of public documents, but numerous lists have been prepared on special subjects and any of these will be furnished free, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the price lists, the Documents Office issues a biweekly list of Selected United States Government publications for sale by the Superintendent of Documents. Each list is arranged alphabetically by subjects, with annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL BILLS, DOCUMENTS, AND REPORTS

More than 12,000 different bills are usually introduced during a Congress, and there are additional prints on many during the progress of the legislation. With the exception of a very few—such as revenue bills—the demand is an unknown quantity and on most of them we receive no orders, which makes it impossible to print a sales supply. It may be that a copy could be obtained from your Congressman.

A difficult problem is also presented in providing a supply of congressional documents, hearings, and reports because there are approximately 6,000 of this class of publications issued during a Congress and only a few of them are called for. We will attempt to print for sale a few of the more important ones, but if not priced the only possible source would be from your Congressman.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the Office of Technical Services, Commerce Department, are indicated by a farad (Φ) preceding the price. A black dot (●) indicates that the publication has been or will be sent to depository libraries. A dagger (†) indicates that application should be made to the department, bureau, or agency issuing the document. A double dagger (‡) indicates that the document is printed for official use and is not obtainable. Whenever additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give (if known) the name of the publishing department, bureau, or agency, and the title, together with the classification number which is added to the entry at the extreme right; order the congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. doc. 108, 82d Congress.

Do not use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington 25, D.C., by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Currency may be sent at sender's risk. Foreign remittances should be made either by international money order or draft on an American bank.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5c that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from his office. Address order to Superintendent of Documents, Government Printing Office, Washington 25, D.C.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$25.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, the amount of charge, and the balance on deposit.

No charge is made for postage on documents forwarded to points in United States and possessions, or to Canada, Cuba, Mexico, Newfoundland (including Labrador), and certain Central and South American countries. To other countries the regular rate of postage is charged, and remittances must cover such postage. In computing foreign postage, add one-fourth of the price of the publication.

LIBRARY CLASSIFICATION IN DOCUMENTS OFFICE

The classification given at the right of entries for departmental publications is that used in the Library of the Division of Public Documents. It is also used as a catalog number for sales stock of this office. The shilling mark (/) separates what would ordinarily be superior or inferior numbers or letters, as it is not practicable to print these numbers or letters as superiors or inferiors in the Monthly Catalog.

FEDERAL REGISTER DIVISION, General Services Administration

Code of Federal regulations and Cumulative pocket supplements.

NOTE.—For the convenience of those who maintain complete sets of the Code of Federal regulations, arrangements have been made to supply the 1957 pocket supplements for use during 1958 and any completely revised volumes issued in 1958 on a subscription basis at \$66.50 a year, \$15.00 additional for foreign mailing. The revised volumes and supplements will be mailed as printed and all subscribers will receive expiration notices in ample time to renew their subscriptions, thus avoiding loss of continuity. The Superintendent of Documents will continue to make available the revised volumes and individual supplements for those who do not maintain complete sets.

6167 Federal specifications.

GS 2.8:

NOTE.—These specifications are now so completely covered by the Index of Federal specifications, standards, and handbooks with cumulative monthly supplements, that listing in the Monthly Catalog of United States Government Publications represents unnecessary and wasteful duplication of effort. For that reason they will no longer be listed. Complete information on the Index of Federal specifications will be found in the Appendix to the February 1959 issue of the Monthly Catalog under Entry number 2598.

Weather, publications, price list-----	6907	Wings (aircraft):	
see also Meteorology—Weather forecasts.		aerodynamic loads, jet effects on exit of turbojet nacelle at free-stream Mach no. 1.39-----	6736
Weather Bureau, technical papers--	7002-3	delta-wing fuselage model with double slotted flaps, etc., low-speed pressure-distribution investigation-----	6744
Weather forecasts:		dihedral, effects of vertical locations and horizontal tail on aerodynamic characteristics in pitch and sideslip of swept-back-wing airplane model-----	6735
coastal storm warning facility chart, Eastport, Me. to Montauk Point, N.Y.-----	7001	flexibility effects on strains due to gusts-----	6680
long-range, hydrodynamic methods, USSR study-----	6600	jet transports, flight studies of problems pertinent to—	
numerical, barotropic development of eddies-----	5596	high-speed operation-----	6773
services of St. Lawrence Seaway and Great Lakes-----	7003	low-speed operation-----	6771
Webster, Daniel, portrait unveiling, proceedings-----	5942	predicted static aeroelastic effects—	6794
Weeds, control, etc., Soviet abstracts-----	6544	rotating, blade bending moments and flapping angles, effect of flapping-hinge offset, wind tunnel investigation-----	6775
Weights and measures, prepackaged commodities, NBS manual for checking-----	6803	swept—	
Wells, irrigation, filters and screens-----	5542	lateral stability at low lift, effects of yaw damper system at Mach nos. from 0.76 to 1.73-----	6747
Wenatchee River and Valley, water quality studies in basin-----	6195	leading edges, influence of dihedral on heat transfer at high Mach numbers-----	6782
West (U.S.):		sweptback—	
seasonal farm work areas-----	6102	all-movable wing-tip control, effects on longitudinal stability as transonic speeds-----	6732
snow run-off forecasts, 1958-----	6938	45°, quadratic twist, pressure measurements at transonic speeds with spanwise twist variations-----	6767
West Indies, Greater Antilles section, light list-----	5763	45°, wing location and geometric dihedral, effects on aerodynamic characteristics in pitch and sideslip-----	6733
Westermann, Herbert, relief-----	5975	jet-transport model equipped with external-flow jet-augmented double slotted flap-----	6783
Western Hemisphere, see Hemisphere, Western.		pitch and sideslip of wing and horizontal tail, basic-data presentation, M-2.01-----	6729
Western States, see West (U.S.).		slots and slats, longitudinal stability characteristics, exploratory investigation-----	6743
Westinghouse Electric Corporation, Atomic Power Dept., research and development program, progress report-----	5653	triangular—	
What you should know about Alcohol and Tobacco Tax Division-----	6323	aspect ratio 2, investigation of aerodynamically balanced trailing-edge control surfaces—	6685
Wheat:		wing-body combinations in sideslip, experimental investigation-----	6687
durum—		untapered, 45° sweptback, aspect-ratio-4, transonic flutter characteristics-----	6741
exempt from acreage allotments, etc., in Tularelake area, hearing—	6043	wind-body combinations, external-store drag reduction at transonic and low supersonic Mach numbers by application of Baldwin's moment of area rule-----	6692
increase acreage allotments, hearing-----	6043	Winter wheat, see Wheat.	
hard red winter, cooperative improvement program in Plains, summary-----	5559	Wire cloth, taper-rolled, permeability variation-----	6720
production, etc., Chinese methods of increasing-----	6358	Without resort to reason (address)—	6996
situation in review, hearings-----	5902	Wolf Creek, test wells-----	6292
stored, country elevators, costs of shrinkage and grade loss in Kansas-----	5478	Wolfgram, Maria, relief-----	5968
White, W. Wilson, nomination, hearings-----	6071	Women's Army Auxiliary Corps, pay and retirement credit for service, hearing-----	5920
Wide-range amplifier for air shower detector, Japan-----	6403	Wood:	
Wild land, see Land.		American woods—	
Wildlife, special scientific reports, wildlife series-----	6202	mail-withdrawal resistance-----	6255
