An explanation of the symbols used to designate sizes of publications is given on the inside of the front cover.

Explanation

The individual issuing department, bureau, office, or agency is considered the publisher of Government publications.

Words and figures enclosed in brackets [] in titles are given for information, but do not appear on the title pages of the publications cataloged. Place and printer are not given for publications printed at the United States Government Printing Office, Washington, D.C., or at Government departmental and field printing plants. The dates given with Senate and House documents and reports are the dates on which they were ordered to be printed. Usually the printing promptly follows the ordering, but various causes sometimes make delays.

Under provisions of the Printing Act of January 12, 1895, all Government publications, except administrative and confidential (or restricted), are entered in the Monthly Catalog.

The L.C. card number appended to some of the entries is for those libraries ordering printed cards from the Library of Congress. The number at the extreme right of an entry indicates the classification of the publication in the Office of the Superintendent of Documents.

General Information

The Superintendent of Documents, Government Printing Office, Washington, D.C., is authorized by law to sell copies of Government publications. A 25 percent discount is allowed to purchasers of 100 or more copies of a single publication mailed to one address. Bookdealers, buying for the purpose of resale, may receive the same discount regardless of quantity if the publications are mailed to their place of business. No discount is allowed when the publications are mailed to a third party unless in quantities of 100 or more.

Publications cannot be supplied free nor forwarded in advance of payment.

PRICE LIST

There is no general price list of public documents, but numerous lists have been prepared on special subjects and these will be furnished, on application, by subject or subjects concerning which information is desired. It will also be noted that current publications which are for sale are listed in this catalog.

LIST OF SELECTED PUBLICATIONS

In addition to the subject bibliographies, the Office of the Superintendent of Documents issues a monthly list of Selected United States Government Publications for sale by the Superintendent of Documents. Each list contains annotations and prices, and may be obtained free upon application to the Superintendent of Documents.

CONGRESSIONAL PUBLICATIONS

Subscription service has been implemented for the following groups of Congressional publications: House and Senate Documents; House and Senate Hearings; House and Senate Reports on Public Bills; House and Senate Reports on Private Bills; Public Bills; Private Bills; Public Laws; and Private Laws. In most cases, single copies of publications in these groups of Congressional publications are not sold. Sales copies of a few of the more important one are printed, and you will find the sales prices listed in the individual entries. The current subscription prices may be obtained from the Superintendent of Documents.

HOW TO ORDER PUBLICATIONS

Publications entered in this catalog that are for sale by the Superintendent of Documents are indicated by an asterisk (*) preceding the price. Those for sale by the National Technical Information Service are indicated by an at sign (§) preceding the price. A black dot (●) indicates that the publication has been, or will be, sent to depository libraries. A plus sign (+) indicates that application should be made to the department, bureau, or agency issuing the document. A number sign (#) indicates that the document is printed for official use and is not obtainable. When additional information concerning the method of procuring a document seems necessary, it will be found under the name of the bureau by which it was published.

In ordering a publication from the Superintendent of Documents, give the name of the publishing department, bureau, or agency, the title, the classification number which is added to the entry at the extreme right, and the stock number (if given following the price). Order Congressional documents and reports by the title, together with the document or report number and the Congress, e.g., H. Doc. 1, 94th Congress.

Do *not* use the L.C. card number in ordering a publication from the Superintendent of Documents.

HOW TO REMIT

Remittances for documents marked with an asterisk (*) should be made to the Superintendent of Documents, U.S. Government Printing Office, Washington, DC 20402, by coupon, postal money order, express order, or check. Publications cannot be mailed in advance of receipt of remittance. Foreign remittances should be made by international money order, payable to the Superintendent of Documents, or draft on an American bank. The Superintendent of Documents will also accept International Response Coupons and UNESCO coupons.

Foreign money, defaced or smooth coins, will not be accepted. Do not send postage stamps.

For the convenience of the general public, coupons in the denomination of 5¢, 10¢, 25¢, and 50¢ that are good until used in exchange for Government publications sold by the Superintendent of Documents, may be purchased from this office. Address the order to Superintendent of Documents, Government Printing Office, Washington, DC 20402.

Persons who make frequent purchases from the Superintendent of Documents may find a deposit account convenient. Deposits of \$50.00 or more are accepted against which orders may be placed without making individual remittances or first obtaining quotations. Order blanks are furnished for this purpose. After the handling of the order has been completed, it will be returned showing the publications supplied, explanations regarding those not sent, and the amount of charge.

No charge is made for postage on documents forwarded to points in United States and its possessions. There is a special handling charge on all orders mailed to a foreign country (including Canada). The charge is one-fourth of the current selling price of publications and subscription services ordered. This is to cover the special handling required to comply with the customs and international mailing regulations.

LIBRARY CLASSIFICATION OF GOVERNMENT DOCUMENTS

The classification given at the right of entries for departmental publication is that used in the Library Division of the Office of the Superintendent of Documents. The shilling mark (/) separates what ordinarily would be superior or inferior numbers or letters. It is not practicable to print these numbers or letters as *superiors* or *inferiors* in the Monthly Catalog.

Space:
phase A conceptual design study of atmospheric, magnetospheric and plasmas in space (AMPS) payload, 05668

space processing rocket experiment technical proposal, direct observation of dendrite remelting and macrosegregation in castings, 05693

Space missions:
assessment of instrument pointing subsystem, IPS, requirements for Spacelab missions, 05669

Skylab mission planning support through use of hybrid simulation, 05666

Spacelab design reference mission analyses, mission E, life sciences, 05694

Space sciences:
technology utilization program report of NASA, 05645

Space shuttles, *see* Spacecraft.

Space stations:
analysis of commercial equipment and instrumentation for Spacelab payloads, design analysis and trade studies, 05624

analysis of commercial equipment and instrumentation for Spacelab payloads, technical studies, 05623

assessment of instrument pointing subsystem, IPS, requirements for Spacelab missions, 05669

catalog of Skylab information, 05627

discipline report on thermal analyses of M551, M552, and M553 experiments, 05641

MSFC Skylab extravehicular activity development report, 05665

retention and application of Skylab experiences to future programs, 05664

Skylab atmospheric contamination control, 05672

Skylab mission planning support through use of hybrid simulation, 05666

Spacelab design reference mission analyses, mission E, life sciences, 05694

Space tugs, *see* Spacecraft.

Spacecraft:
analytical and experimental study of effects of wing-body aerodynamic interaction on space shuttle subsonic flutter, 05638

baseline space tug, executive summary, 05626

concept verification test project systems requirements, 05628

influence of orbital-maneuvering-system fairings and rudder flare on transonic aerodynamic characteristics of space shuttle orbiter, 05646

LVDC, equation defining document (EDD) for Saturn IB flight program, 05630

shuttle projects office schedule status summary, 05692

Spacelab, *see* Space stations.

Spain:
economic trends and their implications for United States, 05484

Spanish Americans:
bilingual/bicultural education, privilege or right?—
Spanish edition, 04881

employment status of Spanish surnamed Americans in New York SMSA, 05395

Spanish language:
Spanish speaking program, college recruitment sources booklet, 04892

Spanish-Americans:
persons of Spanish origin in United States, 04838

Spanish speaking program, guidebook for coordinators, 04893

Special Action Office for Drug Abuse
Prevention:
Special Action Office monograph series, 05896

Special days, weeks, etc.:
National hunting and fishing day, designate—
report, 05225

Spectra:
apparatus description and data analysis of radiometric technique for measurements of spectral and total normal emittance, 05674

procedure for automated land use mapping using remotely sensed multispectral scanner data, 05691

Spectrometry:
acoustic spectrometry, USSR study, 05514

Spectrum analyzers:
acoustic spectrometry, USSR study, 05514

finite spectrum analyses of wave records, 05317

Speech:
NINDS hearings, speech, and language research program, 05725

Speed indicators:
digital phase-locked-loop speed sensor for accuracy improvement in analog speed controls, 05662

Spessard L. Holland Visitor Center:
designate—
law, 05060

Spinal cord:
sex and spinal cord injured, 05965

Spartan, Wash.:
International Exposition on Environment, commemorative medals, extend authorization—
law, 05054

Spray nozzles, *see* Nozzles.

Spring wheat, *see* Wheat.

SSC, *see* Ship Structure Committee.

St. Helena Island:
paleornithology of St. Helena Island, South Atlantic Ocean, 05869

Stability:
drag and stability characteristics of variety of reefed and unreefed parachute configurations at Mach 1.80 with empirical correlation for supersonic Mach numbers, 05690

Stabilization:
symposium on channel stabilization problems, 05322-3

Stainless steel:
microstructure and swell of fast neutron irradiated type 304 stainless steel, 05748

Stampings, *see* Metal stampings.
